**MID-SUMMER FASHIONS IN SUITS AND FROCKS**

**Wash Satin Favored for Suits, Separate Coats and Skirts—Handkerchief Linen, Striped and Dotted, Smart for Shirtwaists—Stencilled Shoe-Tops The Latest Fad.**

New York, June 21, 1916.

With the first, sultry days of summer, one naturally turns to white, or the pale-toned linens and cottons. Owing to the popularity of stripes and checks, it is safe to say that it will not be an all-white season, but all-white is to be very popular nevertheless.

**Wash Satin in Suits and Dresses**  
One of the coolest and most novel of the new summer materials, both for suits and dresses, is wash satin. This comes in the plain flat tones and also in white. It is a practical fabric, too, as it sheds dust, does not wrinkle readily, and launders perfectly. Coats and blouses, too, for wear with skirts of linen, the corded cottons, or the regulation suit skirt of serge or gabardine, are being fashioned of wash satin, most effectively. A tennis coat, in Norfolk fashion, a belted Russian, or one of the various other peplum models, developed in a soft tone of satin, may be worn for morning, sports wear, or for afternoons.

The sheer linens, cottons and silks are all very popular for frocks and blouses. Pale tones and white predominate. Organdies and voiles are dainty and cool for afternoon frocks, and net and taffeta are combined effectively for evening and the more elaborate afternoon dresses.

**Separate Coats and Skirts**  
How the separate skirt could ever have been laid aside for a season or two, as it was, is indeed a mystery, when one considers how very practical it is. Its popularity this season, however, is quite making up for the year or two of indifference. Separate skirts of taffeta, satin, faille, and similar silks are being worn considerably for all daytime purposes, combined with blouses of Georgette, chiffon and the other sheer silks. For sports purposes, striped and checked linens, canvas weaves, cotton velours, corduroys, and the various white corded cottons are favored, as well as the novelty wash satins and jersey silks; wool jersey in bright tones of rose, green, gold, and like shades is also popular.

The separate skirt and contrasting coat are particularly smart for sports purposes. Some of the good shops are showing cream-white serge skirts, combined with wash satin blouses, and coats of blue serge, or the novelty striped silks or linens, for tennis, golf, and the like. This combination of white skirt and blue coat is not new, of course, but it is unusually effective.

**Handkerchief Linen Blouses**  
Organdy, voile, crepe de Chine and the wash satins are practical and popular for blouses this summer, and a particularly dainty revival is handkerchief linen. Although one expects linen to crush more easily than almost any of the other materials, it is nevertheless cool and fresh for summer wear. There are some especially pretty stripes and patterns in these linens, combinations of rose, French blue, pale greens, and the various other pastel shades, now favored in the crepes, voiles, and other sheer cottons and silks. The effective peplum blouses are illustrated here; one is of pongee, a slip-on model, finished at the normal waist with the new elastic shirring, and the other is of pale pink organdy. The pongee blouse is worn with a pongee skirt, making a cool

frock for mornings or informal afternoon purposes. The organdy blouse, which closes down the front with loops and tiny crystal buttons, is belted with a narrow black grosgrain ribbon belt, and is worn with one of the new black satin skirts. This is one of the novel combinations of the season for afternoon wear.

Neck finishes and cuffs offer particularly interesting possibilities this season. A well fitting cuff has much to do with the success of the gown, and may be flattering or decidedly unbecoming to the hand. Although one sees but few short sleeves, as the season advances they will, in all proba-

bility, be as much favored as in seasons past. High collars seem to have entirely given way to the open throat which proves that Dame Fashion has more of common sense to deal with just now than ever before in her reign.

**The Hand-Painted Fad**  
Having reached its height, it is said that the hand-painted notion is now on the wane. Perhaps the very last thing to be talked about is the painted shoe-top; black patent leather shoes, with white tops, are finished with a delicately colored fleur-de-lis or orchid and canvas shoes also are stenciled effectively to carry out the color scheme of the frock. For low shoes and pumps the stencilled stocking is the thing. Cretonne trimmed canvas shoes are being worn with white linen and cotton sports costumes.

**Will my Child Take Dr. King's New Discovery?**

**CALOMEL DYNAMITES A SLUGGISH LIVER**

Crashes into sour bile, making you sick and you lose a day's work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a 50-cent bottle of Dodson's Liver Tone, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.

In the matter of preparedness we suggest, again, that proper consideration be given to better roads.
