home near Louisburg on Thursday afternoon of last week after a short illness. On account of not being able to get a shipment of cement which has been expected every day for the past week, there has been very little work done on the new bridge this week. The workmen have gotten everything ready, however, so that when it does arrive it can be poured in a short while. The convicts have been busy building up the buttments and leveling up the street on the south side of the river.

"Vaporize" Croup or Cold Troubles

Vapor treatments for cold troubles are better than internal medicines, as the vapors carry the medication direct to the lungs and air passages without disturbing the stomach.
