COAT SUITS MAY RETURN WITH SPRING

Norfolk and Box Coats Among The Smart Models—Accessories To Freshen Winter Frocks.

New York, March 5, 1917.

It has been a matter of conjecture whether coat suits would return to favor with the spring, or whether the long coats by which women have stood firm and steadfast all through the winter would continue to satisfy their needs in spring.

One would naturally conclude that a coat suit in spring would be welcomed by most women after the heavy, long coats of winter. But the question is still to be settled. In all probability there will be as many coat suits as separate coats worn when spring comes. Some very jaunty models are being shown now and many of them have coats in Norfolk or semi-Norfolk effects with plain or pleated skirts.

Smart Spring Model Developed in Jersey Cloth

The dressier suits are made of silk and satin with touches of embroidery in the same or some contrasting color. The coats are generally mid-way between the hips and knees in length.

For sports wear there is no doubt that hip-length coats with contrasting skirts will be very smart, and there will be more interest in sports clothes this spring and summer than in any other styles, if one may judge from the present demand for them. Plaid skirts with coats of a solid color having the collar and cuffs trimmed with the plaid are considered exceedingly chic. The striped and checked materials are employed in the same way with coats of one color.

Besides the Norfolk coats, the loose, straight-hanging box coat is one of the models that promises to be very much favored. Some of these are quite short. They are very stunning made up in velvet and worn with white serge skirts. Dark blue or old rose velvet, with large white pearl buttons for contrast, is used for these coats.

Not strictly Norfolk, but resembling this style in many points, is the smart model illustrated in the sketch. It is of orange-colored wool jersey and accompanies a skirt of black-and-orange check, making an exceptionally smart costume. The coat is twice belted, part of the lower belt forming straps at the top of the large patch pockets. The belts extend around the sides only and leave a panel effect at the back, which is pleated like the front.

To Freshen the Winter Dress

There are many people who wish to freshen up their winter clothes, before getting their spring things, for it is still some time before the weather will allow us to be comfortable in spring clothes. Only those who have been able to replenish their wardrobes very frequently throughout the winter will not feel the necessity of adding new touches to their clothes.

There are new sets of vests and collars and separate cuffs to match, or matching collars and cuffs which will do much toward making a change in a dress of which you may have tired. These collars and cuffs are of whiteshantung silk trimmed at the edges with bands of plain colored silk or the dotted or figured silks. The band of colored silks adds a bright touch which is very refreshing. The flat, rolled collar in sailor shape is still a favorite. Some of the collars are made double; for instance, there is a lower collar of white silk and an upper collar in green, rose, gold or any of the fashionable colors, the same shape, but smaller, so that an edge of the white shows all around. Girdles also offer another possibility

for freshening dresses. The girdle is an important feature of the dress at present, and there are many charming styles, varying from the very narrow apron-string girdle hanging with long, loose ends, to the wide girdle, which is arranged artistically in a soft, crushed effect. Wide ribbon girdles are very often seen.

For a Combination of Materials

The use of ribbon as a dress trimming is also quite a novelty. It is used to finish the new collarless necks and sleeves, and also trims the skirts of afternoon and evening dresses. On separate waists, too, ribbon is often introduced as a trimming detail.

Puffed and Cuffed Frocks.

To vary the monotony of the perfectly straight-up-and-down dress, there are several new models of which one is shown in the sketch. The waist is cut in sections, permitting the use of two materials. The skirt shows the new puffed effect at the lower edge, with the draped panels confined to the sides only. For the attractive silks, which may be had in plain and figured effects to match in color, this design is unusually effective.

Cuffs on skirts and on the lower edges of the slip-on blouses which accompany them, are noticed in a good many dresses. The cuffs may be deep or narrow and are finished with machine stitching, giving the effect of the hems having been placed on the right instead of the wrong side of the dress. A pleated, up-standing frill about half an inch deep is sometimes used as a finish to the cuffs. This, of itself, provides sufficient trimming in some models.

WONDERFUL STUFF! LIFT OUT YOUR CORNS

Apply a Few Drops Then Lift Corns Or Calluses Off With Fingers—No Pain.

No humbug! Any corn, whether hard, soft or between the toes, will loosen right up and lift out, without a particle of pain or soreness.

This drug is called freezone and is a compound of ether discovered by a Cincinnati man.

Ask at any drug store for a small bottle of freezone, which will cost but a trifle, but is sufficient to rid one's feet of every corn or callus.

Put a few drops directly upon any tender, aching corn or callus. Instantly the soreness disappears and shortly the corn or callus will loosen and can be lifted off with the fingers.

This drug freezone doesn't eat out the corns or calluses but shrivels them without even irritating the surrounding skin.

Just think! No pain at all; no soreness or smarting when applying it or afterwards. If your druggist don't have freezone have him order it for you.

DON'T RISK NEGLECT.

Don't neglect a constant backache, sharp, darting pains or urinary disorders. The danger of dropsy or Bright's disease is too serious to ignore. Use Doan's Kidney Pills as have your friends and neighbors.

Mrs. Mary B. Cooper, Cheatham St., Franklinton, N. C., says: "I could hardly get about on account of pain across my kidneys. My back was so sore and lame that I couldn't lift or stoop. I was caused a lot of trouble by inactive kidneys. Doan's Kidney Pills were recommended so highly that I finally began using them. Several boxes greatly benefited me and I haven't had any trouble from my back or kidneys since."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Cooper had. Foster-Milburn Co., Props., Buffalo, N. Y.
