THE NEW ACCESSORIES OF DRESS

Many Novelties Appear for Spring and Summer—Parasols, Hats and Bags To Match.

New York, April 10, 1917.

The accessories of dress to which so much importance is usually attached are more deserving of our attention at this time of the year than ever. So much that is new is being brought out for spring and summer that we cannot afford to pass them over without consideration. The perfect-fitting shoe and glove, the veil with just the right mesh to be becoming, the parasol of the smartest shape, and the bag of the newest size and outline, are all of paramount importance.

Afternoon Frock of Chiffon Trimmed With Taffeta

Parasols are perhaps the most interesting of the accessories that claim our attention just now. They have been rather neglected during the past summer, but, certainly, they are to be made very much of during the coming seasons, and the days are not so very far off when we shall be seeking protection from the sun under them. True, many of the new parasols make no pretense of being useful as far as shielding one from the sun goes, but they will be very useful in serving as a picturesque background for the dainty summer frocks. The irresistible charm of some of these parasols is all the excuse they can offer for their existence. Such are those fashioned of net, chiffon, and even lace. Some of these are lined with thin China silk, but many of them have not even this thin stuff as a foundation. These are the parasols that will grace many a summer fete and lawn party this year. To accompany them there are often hats to match of these filmy materials.

The idea of having hats and parasols to match is not seen only in these very airy and dainty sets. For sports wear this idea is even more popular. Usually these are made of the bright sports silks in the attractive colors and designs which belong particularly to the present year.

In shapes, the Japanese style is about the most popular of any. The Japanese influence does not end with the shape only, however, for many of the silks are scattered with Japanese designs and figures.

Short handles are noticed in a great many of the new parasols and at the ends they are often provided with a loop or strap to be slipped over the wrist. The new chain strap handle which pulls out at the side and slips over the wrist, to be dropped back inside when not in use, is another fashionable style. Parasols have even gone so far as to be equipped with watches strapped to the handles for convenience.

In bags, the full, puffy silk bags with gay striped linings and shell or horn mountings are the very latest. Bead bags are still popular, only varying in shape from the first bags of this kind.

Sets of Parasol, Hat and Bag.

To have your hat and bag trimmed to match the parasol you carry, is one of the smartest effects any one can have this season, even if the trimming is only a suggestion as shown in the sketch. The dress illustrated, is one of those cool, airy affairs of chiffon cloth, which material is beginning to rival Georgette crepe for smart afternoon frocks. The belt, yoke and cuffs of this model are of taffeta. The skirt is an extremely graceful model with softly draped pockets at the side,

giving an attempt at the slight bouffant effect over the hips shown in some of the new models. The general lines of the dress keep to the straight silhouette, however.

An entirely new combination in an afternoon frock is that of taffeta and organdy, which has been used by Parisian designers. This combination is looked upon more in the light of a

Stripes Run in Many Directions in This Silk Frock.

novelty than anything else. In a dress of blue taffeta there was a wide band of white organdy heavily embroidered in blue. Sleeves of blue chiffon completed the dress, to show that all sorts of materials may be combined when skillfully handled.

Along with checks and plain materials, striped silks promise to be very popular this season. There are such charming ways of making them up that they are ever so attractive when fashioned into frocks. A very delightful way of developing a striped silk is shown here. The blouse is cut kimono fashion with the stripes meeting in front to form "V's." In the box-pleated skirt, the stripes run up and down in the front and back, and bias at the sides. A large, graceful collar with points falling over the shoulders, is an interesting feature of this design. This style of collar is very new and is seen on the latest coats as well as on dresses.

Soft silks and soft taffetas in changeable colors with stripes, checks, and flower designs are among the most fashionable materials. By decree of fashion, foulard, being one of the soft summer silks, is to have a prominent place among dress silks this season.

LOUISBURG PROOF.

Should Convince Every Louisburg Reader.

The frank statement of a neighbor, telling the merits of a remedy, bids you pause and believe. The same endorsement by some stranger far away commands no belief at all. Here's a Louisburg case. A Louisburg citizen testifies. Read and be convinced: A. W. Perry, grocer, Main Street, Louisburg, says: "I had kidney trouble for a long time and suffered from awful pains across my loins. My kidneys were inactive. Doan's Kidney Pills gave good results. Whenever I take this medicine now it helps me and lives up to the claims made for it."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Perry had. Foster-Milburn Co., Props., Buffalo, N. Y.

"OBEY THE LAW AND KEEP MOUTH SHUT."

Warning Issued by Department of Justice For Teutonic Safety.

A simple, short and unmistakable order has been issued from the office of the Attorney General of the United States that contains much solace for Teutons in America. The following circular, dated April 6th, has been sent to all United States Attorneys and Marshals:

"No German alien enemy in this country, who has not hitherto been implicated in plots against the interests of the United States, need have any fear of action by the Department of Justice so long as they observe the following warning:

"Obey the law; keep your mouth shut."

UGH! CALOMEL MAKES YOU DEATHLY SICK

Stop Using Dangerous Drug Before It Salivates You! It's Horrible!

You're bilious, sluggish, constipated and believe you need vile, dangerous calomel to start your liver and clean your bowels.

Here's my guarantee! Ask your druggist for a 50 cent bottle of Dodson's Liver Tone and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling great. It's perfectly harmless so give it to your children any time. It can't salivate, so let them eat anything afterwards.

Insomnia.

Indigestion nearly always disturbs the sleep more or less, and is often the cause of insomnia. Eat a light supper with little if any meat, and no milk; also take one of Chamberlain's Tablets immediately after supper, and see if you do not rest much better. OBTAINABLE EVERYWHERE.
