Guess Germany will sit up and take notice when she gets full reports on Tuesday's registration.

Reports show that the registration Tuesday will exceed the Government estimate something like a million or more.

With the exception of two mining towns which were put under martial law, no disturbance of any note took place Tuesday. In these two towns no damage was reported.

The Mongolia, the Merchantman with American gunners aboard which was given credit for sinking the first submarine by America, according to reports, has another to her credit. She sank another the past week.

With more than 12,000 Confederate Veterans and more arriving hourly, says the reports from Washington, the accommodations are insufficient and quite a number slept on the floor of the Union Station Monday night.

Sheriff Kearney informs us that he has just received a telegram from the War department authorizing him to register any persons who failed to register on Tuesday. Therefore if any one in Franklin County failed to register on Tuesday you can call on the Sheriff in the next few days and register.

Musical Recital.

The music recital given at the home of Mrs. A. M. Hall on last Friday night by the music pupils of Miss Sallie Thomas Williams was quite an enjoyable occasion to a large number. Miss Williams had arranged a most excellent programme that was executed in the best of skill by her many pupils, all of whom showed marked improvement in their course. Miss Williams is a most excellent and painstaking tutor, and the performance on last Friday night did her much credit.

SUBMARINE SUNK BY ARMED SHIP, BELIEF

Undersea Boat Raised Clear Out of Water and Then Sank Says Statement.

Washington, June 6.—A German submarine is believed to have been sunk by an armed American steamer in a running fight lasting an hour and a half, in which 35 shots were fired by the submarine and 25 by the steamer. An official announcement by the State Department today says the steamer's final shot "apparently struck the submarine, which raised clear out of the water and stood stern end up for a few seconds. Then she disappeared."

"The department's announcement follows:

The Department of State is advised by telegraph of an engagement between an armed American steamer and a submarine. The guns of the steamer were manned by an American naval crew. The submarine was first seen at about 7,000 yards. She had a six inch gun forward and another aft. She flew no flag.

"Upon sight of the submarine, the steamer hoisted the American flag and waited for about ten minutes. As the submarine approached the steamer fired. The submarine responded. The steamer kept a speed that would permit the submarine to come within range. Then followed a fight lasting for an hour and a half. The submarine came to a distance of about 2,300 yards. By that time the submarine had fired 35 shots and the steamer 25. The last shot of the steamer apparently struck the submarine, which raised clear out of the water and stood stern end up for a few seconds. Then she disappeared. The captain of the steamer and the commander of the guard believe that the submarine was sunk. The steamer suffered no damage."

BIG WAR.

AFTER SUFFERING SHE WAS CURED

Having tried Mrs. Joe Person's Remedy I am very anxious for all who suffer with rheumatism to know what it did for me.

About thirteen years ago I had a very severe spell of inflammatory rheumatism, could hardly walk a step for a month. I would have these spells every winter and they would last well up into the summer. I tried the best doctors in the country and tried every thing else I could hear of, nothing seemed to do me any good until finally the good tidings came when a friend (indeed she was) persuaded me to try Mrs. Joe Person's Remedy, and I can frankly say that it has done me more good than anything I have ever taken.

I am still using it as a family tonic and a blood medicine and can recommend it the best medicine I have tried for rheumatism.

Earning, Spending AND ..SAVING..

Making money is a business; spending it a necessity; saving it an art. Many people make money, practically every one spends money, but only the thrifty save it. Thrift means laying aside the extra dollar that represents youth and vigor to offset the minus dollar that later on will represent old age and decreased vitality.
