About Constipation

Certain articles of diet tend to check movements of the bowels. The most common of these are cheese, tea and boiled milk. On the other hand raw fruits especially apples and bananas, also graham bread and whole wheat bread promote a movement of the bowels. When the bowels are badly constipated however, the sure way is to take one or two of Chamberlain's Tablets immediately after supper.

SOUTHERN BANKERS ENTHUSED OVER IT

President and Cashier of Louisiana and Georgia Banks Are Strong in Their Indorsements.

Among the countless thousands of prominent people all over America who have taken Tanlac and praised it for the benefits they derived from it, none are more enthusiastic than the two well-known southern bankers whose statements follow:

E. J. Henry, president of the Hawkinsville Bank and Trust Company, Hawkinsville, Ga., says: "Last spring I was all wrong some way or other and couldn't get right. I took a bottle of Tanlac and began to improve. Two more bottles put me in good shape and I felt perfectly well. A few weeks ago I took the gripe and was getting down and out again. I bought another bottle of Tanlac and I am well again. I unhesitatingly recommend Tanlac to anyone who is sick and worn out."

W. C. McElveen, Cashier Bank of Hornbeck, Hornbeck, Louisiana, says: "I have taken five (5) bottles of Tanlac and have gained fifteen pounds in three weeks. I think it is a great medicine."

AND NOW THEY ARE COOKING TOBACCO TO MAKE IT BETTER

For a good many years The American Tobacco Company have been conducting a series of experiments having as their object the improvement of smoking tobaccos.

And it is interesting to know that one of the greatest of their discoveries was one of the simplest, and that was, that cooking or toasting tobacco improved it in every way, just as cooking most foods improves them.

They took a real Burley tobacco, grown in this country; toasted it as you would toast bread; moistened it to replace the natural moisture driven off by toasting; made it into cigarettes, called them "LUCKY STRIKE, the toasted cigarette," and offered them to the public.

The result has been the greatest demand ever created for any tobacco product in a similar length of time.

The change produced by toasting is not only most wholesome, but the flavor is greatly improved, just as cooking improves meat, for example.
