

To the Voters of Franklin County:

I hereby announce myself a candidate for the office of County Commissioner from Gold Mine Township, subject to the action of the Democratic primary to be held in June. Gold Mine Township has had no representative in about thirty years. If you should support and nominate me in the coming primary, I shall at all times favor handling the funds of the county economically and giving the people the knowledge of where the money went.

W. D. FULLER

To the Tobacco Growers of Franklin and ADJOINING COUNTIES

I wish to announce to you that I have leased the FARMERS UNION WAREHOUSE for a number of years and am glad to extend you an invitation to come to see me at my new location, where I will spare no efforts to see that you receive the top of the market for your tobacco. You are familiar with my method of selling tobacco in Louisburg, and when I put the FARMERS UNION WAREHOUSE in the proper condition, which I will at once, I will be better prepared than ever to accommodate you. I will go to South Carolina and operate a warehouse again this season, but will return in time to serve you in the same old reliable way.

For Better and Greater Things.

One hundred and five pupils of the public schools of our county passed the seventh grade examination this spring. One hundred and five boys and girls have just reached the point where they can begin to prepare for service to their community, their county, their nation. On this fact Franklin county is to be congratulated; of these one hundred and five she must be proud—if they will only continue the noble task they have begun, if they will only allow themselves to be more fully educated for service. What Franklin county will be in 1925 in 1930—for all time to come—depends largely on what the pupils of its rural public schools do when they have finished their elementary school course. Could everyone of the promising one hundred and five be induced to continue his or her course of study through the high school, there is absolutely no doubt that Franklin would stand at the head of the counties of our State in every line of progress. Could we make of this number a group of leaders, surely ten years will find us known everywhere as a community thrice blest. Would it not be worth

some sacrifice, some effort to strive for such a noble end? President Wilson is now asking that all those boys and girls who can remain in school. He insists that there shall be a still greater war to wage after the present war is over and no more trained men and women to fight it. It will be the patriotic duty of every father and mother to do their utmost to have their son or daughter prepared and trained to enter the army of progress—the army that is to drive ignorance, lawlessness and disease; the army that is to fight the battles of God and of men. Let us not be slackers. Let not a single one of our noble one hundred and five feel that his education is finished. It has only begun. A little earning is a dangerous thing. If you give up on reaching the first milestone of your journey, you will not have realized what a blessing an education may be; you will not even have a sight of the promised land; much of life's happiness will have been hidden from you. Boys and girls, think on these things; fathers and mothers, think on these things. What will you do about them. J. C. PEEL.

Thanks.
 I take this method of thanking all those who so kindly and variously expressed sympathy during my bereavement, hoping it will reach every one. I especially thank those who gave flowers and car service. Some flowers were without cards so if you fail to receive a note of thanks, please accept this.
