

Catarrh of Throat

Miss Amalia Busicka, 1449 South 16th St., Omaha, Nebraska, writes: "I have suffered with catarrh of the throat. I caught cold and it settled in my throat, and I coughed badly and was very weak. I could not sleep and had no appetite. I had two doctors, and had taken so many different medicines and found no help. I thought I will have to give up; but at last my mother read about Peruna, so I thought of trying that great medicine Peruna. I got a bottle of it and in about four days I almost stopped coughing, and after a while I surely found relief, and from that time we are not without Peruna in our home."

Could Not Sleep No Appetite Now Well. We Always Have PERUNA in the Home.

Those who object to liquid medicines can procure Peruna Tablets.

Tobacco Wildfire in Tobacco Plant Beds.

The tobacco disease called wildfire, which was so destructive in many sections of the State last year, has already appeared in the plant beds. It can be recognized by the presence, particularly on the lower leaves, of small, light brown spots. The tissues surrounding these spots are yellowish green in color. Affected plants may either remain stunted, or may die in the plant bed. Last year's experience has shown conclusively that plants will not recover. If they are set into the field many will perish within a few days, and those which survive will bear a diseased crop. If, therefore, diseased plants are transplanted, and if several rainy periods occur during the growing season, the crop can be expected to be, at best, injured to the extent of 30 to 50 per cent, and may even be a total failure.

Growers should carefully examine their plant beds now. The presence of brown spots is not to be regarded as frost injury, but as certain evidence of wildfire. Plant beds, where diseased plants occur throughout the bed, should be abandoned. Great care should be taken to avoid carrying the disease on one's hands, shoes, or otherwise from diseased beds to healthy ones.

It is advisable, where only a few plants are diseased, to dig them out immediately, with all nearby plants, in the hope that by so doing one may prevent the spread of wildfire over the entire bed. Subsequent examinations will show whether or not it is safe to use plants from such beds.

It is believed, but time has not yet been afforded to establish proof, that one can grow a crop free from wildfire if he starts with healthy plants. Many farmers have such healthy plants, sufficient perhaps for our entire crop. See if they can be had from a neighbor. Even if he refuses early plants get those from a later drawing. The danger of failure is too great to risk planting diseased plants.

Road to Happiness.

Be amiable, cheerful and good natured and you are much more likely to be happy. You will find this difficult, if not impossible, however, when you are constantly troubled with constipation. Take Chamberlain's Tablets and get rid of that and it will be easy. These tablets not only move the bowels, but improve the appetite and strengthen the digestion.

Alcoholic spirit have taken a back seat. Patriotic spirit is the national stimulant these days.

Holland should have sand and grit enough to refuse to have gravel transported across her territory.

Proper Food for Weak Stomachs.

The proper food for one man may be all wrong for another. Every one should adopt a diet suited to his age and occupation. Those who have weak stomachs need to be especially careful and should eat slowly and masticate their food thoroughly. It is also important that they keep their bowels regular. When they become constipated or when they feel dull and stupid after eating, they should take Chamberlain's Tablets to strengthen the stomach and move the bowels. They are easy to take and pleasant in effect.

The market basket is an old and valued member of the community, but it has only recently taken its place in high society.

WHY YOU SHOULD LET ME SHOE THAT HORSE

- I do good work.
- I use good shoes.
- I put them on properly, and they stay.
- I am gentle and kind to horses.
- Your horse soon learns this and loses its nervousness.
- That is good for the horse, and for the horse's owner.
- Call at my Shop on Spring Street, near the Meat Market.

IT SHOULD MAKE A MILLION FOR HIM

Cincinnati man discovers drug that loosens corns so they lift out.

Good news spreads rapidly and druggists here are kept busy dispensing freezone, the recent discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers.

A quarter of an ounce costs very little at any store which handles drugs, but this is said to be sufficient to rid one's feet of every hard or soft corn or callus.

You apply just a few drops on the tender, aching corn or toughened callus and instantly the soreness is relieved, and soon the corn or callus is so shriveled that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the surrounding skin.

This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicide habit of cutting corns.

It's an ill wind that blows nobody good. The draft that watted Grover Alexander away from the Cubs has probably supplied Uncle Sam with an excellent bomb thrower.

GIRLS! DRAW A MOIST CLOTH THROUGH HAIR. DOUBLE ITS BEAUTY

Try this! Hair gets thick, glossy, wavy and beautiful at once.

Immediate?—Yes! Certain?—that's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a small bottle of Knowlton's Danderine from any drug store or toilet counter for a few cents.

Franklin County Fittingly Represented at the State College Summer School.

The State College Summer School at Raleigh which begins June 11th will have a capable member of its teaching force in the person of Mr. E. L. Best, Superintendent of the Franklin County Schools. Mr. Best will conduct courses in Reading and Grammar and in Class Room Management and Rural Sociology. A large delegation from Franklin County attended the Summer School last year, and the present indications are that even a larger one will represent Franklin County this year. The fact that Mr. Best is to have a prominent place on the faculty will draw many of the teachers of Franklin County. Another feature of the situation which drew many folks to Raleigh last summer is the location at that city of so many of the States Educational, political, and sociological institutions, the acquaintance with which has been of great value to those teachers in presenting North Carolina History, Geography, and Civics.

Greenville, S. C. Police Could Not Raise a Hand Now Has Free Swing.

This man suffered intense, lost time and was about to resign his place when a friend told him of L-Rheumo. Read this testimonial.

Greenville, May 8, 1917. Chapman-Alexander Laboratories, Greenville, S. C.

Gentlemen:—After suffering for several years with Rheumatism and trying various remedies, I was advised to try L-Rheumo, and after taking one bottle I am a well man. I could not raise my arms to my head. I am indeed grateful to you for your wonderful remedy. Yours truly,

W. N. HATCHER, Policeman city of Greenville, S. C. P. S.—Mr. Hatcher has served more than 20 years on force here and is very popular. Demand the bottle with big L.

For sale by Winston Bros. Youngsville; Wilson and Lee, Dunn; W. W. Parker, Henderson; Powers Drug Co., Wake Forest; or write Chapman-Alexander Laboratories, Greenville, S. C.
