BRITISH SORE OVER HOSPITAL SHIP LOSS

It Is Deliberate Policy of Germans to Destroy These Vessels, Papers Declare.

London, July 2.—That the sinking of hospital ships is a deliberate policy on the part of the Germans now is placed beyond all doubt by the torpedoing of the British hospital ship Llandovery Castle the newspapers say in their editorial comment today.

"In the presence of such unspeakable infamy deliberately repeated," says the Daily Chronicle. "It is a waste of breath to reiterate the abhorrence with which everybody with a spark of intelligence views this latest deed."

"But we would invite the German people to ask themselves what is the use of their statement appealing like Foreign Secretary Von Kuehling to be credited with probity and honor while crime so odious, dishonorable and unashamed continue to be carried out by the orders of their government."

WHEAT GROWERS IN FAVORED POSITION

Will be Allowed to Grind Entire Season's Supply of Flour From Home Grown Wheat—Food Administrator Page Announces New Program.

With the coming in of the new wheat crop, North Carolina farmers who were patriotic and wise enough to raise their own wheat will be allowed to have an entire season's supply of flour ground. The only condition to this privilege, according to State Food Administrator Henry A. Page, is that while wheat is still in poor milling condition, a supply sufficient to last until October 1 shall be ground.

On and after October 1 the requirements of a farmer for his household and for tenants or other dependants whom he customarily supplies until the next harvest may be ground.

All wheat producers as well as other consumers are requested to continue to observe the present conservation program of the Food Administration which calls for the use of as much corn meal and other cereal substitutes as of wheat flour. The maximum measure of consumption of flour from new crop wheat for wheat producers will be 12 pounds per person per month instead of the present requested voluntary rationing of 6 pounds.

On account of the short wheat crop last year and of the absolute necessity from a military standpoint of supplying our armies and the armies and civilian population of our Allies with at least a partial ration of wheat flour the Food Administration was compelled to make drastic rules and regulations governing the distribution and grinding of wheat of the 1917 crop even to the extent of limiting the supply which farmers might have ground from their own wheat. About three months ago the Food Administration issued milling rules which prohibited all wheat mills from delivering more than a 30 days supply of flour to any one including wheat growers. Food Administrator Page granted an exception to this rule insofar as North Carolina was concerned so that farmers living more than three miles from a mill could secure their supplies up to 30 days. Thus, after all North Carolina farmers have suffered little

THE PRINCIPLES OF THE WAR AS APPLIED TO OUR PRESENT WAR.

The United States is the only country whose government was constructed upon the principles of human rights and human liberty. The governments

of the world were consolidated under the principles of arbitrary power and any principle of liberty for the benefit of the people was to be swept from them by the conqueror. The United States government, on the contrary, came into existence on the principle of the Declaration of Independence.

The first statement of the Declaration of Independence was the principle of the right to life, liberty and the pursuit of happiness and the formation of a new government upon the consent of the governed.

The new government was formed upon the principle of human liberty. The new government was formed upon the principle of human liberty. The new government was formed upon the principle of human liberty.
