UTMOST SAVING OF SUGAR NECESSARY

Food Administrator Henry A. Page Announces New Restrictions in Sales of Sugar and Calls Upon Consumers to Economize—Preserving and Canning Not to Be Curtailed.

Raleigh.—State Food Administrator Henry A. Page has announced new restrictions to govern all sales of sugar by wholesalers and retailers and at the same time calls upon sugar consumers in North Carolina to economize and save the utmost ounce of sugar through reduced consumption at the home and through the elimination of soft drinks, candy and other less essential or non-essential products. Beginning today, all dealers are forbidden to sell more than two pounds to a town or city consumer or more than five pounds to a country consumer and not more than 25 lbs. can be sold at one time to individuals for canning and preserving purposes under the certificate plan announced some weeks ago by the Food Administration. If a larger quantity is required at one time it may be purchased upon the approval of the County Food Administration.

Every dealer is required to keep an absolutely accurate record of all sales of sugar, this record to include the date of sale, name of purchaser, quantity sold and price. These records will be examined periodically by the Food Administration inspectors who will be put in the field in the immediate future.

Mr. Page states frankly that the sugar situation is serious. "It is extremely important that there shall be no curtailment in the quantity of preserves, jam, and canned fruits manufactured during the present season," declared Mr. Page, "and if sugar is to be plentiful and ample for preserving and canning purposes there must be marked conservation not only by commercial users who produce less essential products such as soft drinks, candy, etc., but also upon the part of the individual consumers. It is the patriotic duty of every American citizen to consume less of the products of fountains and candy shops under the present conditions.

"It is the duty of every man, woman and child in the United States to use a minimum of sugar for tea, coffee, cereals, cakes and other edibles.

"The individual who uses more sugar than is necessary for any purpose and who leaves unused sugar in the bottom of their coffee cups or iced tea glasses, is a slacker and a near ally of the Kaiser.

Less Essentials Must Go.

"The American nation is stripping to the waist for this fight and non-essential industries must go by the board. It has not been necessary until this time to curtail our use of sugar to the extent that is now requested. It is necessary now and our people must realize that, just as in the case of wheat and meat, they must save until it hurts. The Food Administration doesn't want any one to do without cereals, coffee, tea, etc., and especially it doesn't want children and invalids deprived of the amount of sugar necessary in their food for their proper growth and development but it does want and it will expect every patriotic adult to confine their use of sugar to not exceeding three pounds per month at the very most. This is the measure of conservation and these three pounds a month should include any candy, soft drinks, etc., that are used."

FARMERS ARE URGED TO SAVE ALL WHEAT POSSIBLE

Raleigh.—State Food Administrator Henry A. Page is urging the farmers of North Carolina to exercise care during the present harvesting season to the end that no wheat shall be left in the fields, around stumps, near ditches and on the edges of the fields where a binder sometimes leaves a small quantity uncut. It may often happen that such wheat will not financially pay the labor requisite to harvest it but this wheat is needed to feed hungry men and women and every farmer is urged to use the utmost precaution in saving every stalk of wheat possible.

ROCKINGHAM CAFE FINED FOR FOOD VIOLATION

Rockingham.—Because it had repeatedly violated rules and regulations of the United States Food Administration, the Busy Bee Cafe of this city, in order to escape more drastic punishment, has voluntarily closed its door for four days with a sign announcing to its patrons that it is closed for violations of the food regulations and in addition has made a contribution of \$100 to the local chapter of the Red Cross.

The owners of the cafe were given a hearing some days ago before County Food Administrator W. N. Everett, who communicated with the office of the Food Administration at Raleigh and was authorized to let the establishment off in so far as past offenses are concerned upon the basis mentioned.

Prepare for the Coming of Winter.

You will have to see the coal man for your winter fuel unless you are lucky enough to get wood. But it would be best for you to see us for your Fruit Jars, if you wish to save money. It isn't a question of whether you want to can your vegetables and fruits, but it is a question of you will have to do so if you want them for your winter use. The time to save is when you have something to save. The foolish person waits until it is too late and then says "I wish I had." If you can can and won't can, you should be made to can, so it is up to you. If you want to buy the best cans for the least money then see us.
