C., offer for sale at public auction, to the highest bidder, for cash, the following described valuable and desirable farm lands by said deed conveyed:

A Fine In Store.
"This fellow in police court says he had just received a piece of good news and was so happy he didn't know how fast his car was going when he was arrested by a motorcycle policeman."
"Do you suppose there is any truth in that story?"
"It's hard to say, but I judge from the frown on his honor's face that somebody is about to receive a piece of bad news."

ACIDS IN STOMACH SOUR THE FOOD AND CAUSE INDIGESTION

"Pape's Diapepsin" fixes sour, gassy, upset stomachs in five minutes.

You don't know what upset your stomach—which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sick, gassy and upset, and what you just ate has fermented and turned sour; head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapepsin to neutralize acidity and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have dyspepsia. A little "Diapepsin" occasionally keeps the stomach sweetened, and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless antacid is Pape's Diapepsin, which costs only fifty cents for a large case at drug stores. It's truly wonderful—it stops food souring and sets things straight, so gently and easily that it is really astonishing. Your stomach will digest your meals if you keep acids neutralized.

Take Out Hens From Winter Flock.

West Raleigh, N. C., Jan. 29.—"Early to bed" is a rule that won't do for hens, not if the poultryman is looking for high egg production. The early-to-roost and late-to-rise hen is one that should find its way to the roasting pan, says Dr. B. F. Kaupp, Poultry Investigator for the North Carolina Experiment Station.

"All feed is too high-priced to feed to boarder hens," says Dr. Kaupp. "Our big problem is to find the boarder and cull her out of the flock."

"Sick, moping hens do not lay and are likely to give disease to healthy hens, so they should be removed."

"Hens that show age, or that are under-sized will not lay enough eggs to pay for their keep. They should be removed."

"Cull out all birds with large, coarse heads, the crowing hen, the fat, hard-fleshed birds. These will make good meat, but they lay only a few eggs."

"Hens that are high producers are distinctly feminine. They are fine-boned, with soft, pliable skin; their pelvic bones at each side of the vent are straight and pliable; far enough apart to allow an egg to pass through easily. The high production hen has to have great food capacity, she must be strong and active, always scratching up early and late, and always busy and happy."

"Hens of this sort are of the right type to return a fair profit if they are given a fair chance in feed and quarters."

Lansing on Committee to Deal with the Ex-Kaiser and Other Huns.

Paris, Jan. 26.—(By the Associated Press.)—Robert Lansing, Secretary of State, will be one of the two members of the American committee created yesterday by the Peace Conference to deal with the question of responsibility for the war. The other member will probably be one of the experts attached to the mission who is now preparing the American views on this important question that carries with it the verdict of life or death to the former German emperor and some of his generals and admirals and even civilian officials.

Although the French government through the publication of the opinion of its legal advisers particularly endorsed the theory that it is within the power of the Peace Conference to try German, Austrian, Turkish and Bulgarian violators of the laws of warfare, the American commissioners have not yet disclosed their position. The belief has been expressed, however, that they will be found not much at variance with the French view as to the strict question of legal power, but that they will not commit themselves regarding the policy to be adopted in the exercise of that power.

AN INTERVIEW

Mrs. Nash Tells Her Experience.

The following brief account of an interview with a Louisa woman three years ago, and its sequel, will be read with keen interest by every citizen.

Mrs. S. B. Nash, Spring St., Louisa, says: "About six years ago I suffered a great deal of misery in my back. There was a constant, dull ache over my kidneys and my nerves were all unstrung. I felt miserable all over until I began to take Doan's Kidney Pills, which I got at Scoggin's Drug Store. A few doses relieved me of this trouble and continued use improved my health in every way. I consider Doan's a wonderful medicine."

HASN'T SUFFERED SINCE

Mrs. Nash gave the above statement February 5, 1915 and on June 25, 1918, she added: "The cure Doan's Kidney Pills gave me some time ago has proven lasting. The statement I gave before, I wish to confirm."
