RADICALS PLUS RADICALS.

Look at Russia—a nation in the hands of radicals!

Would you like to live in Russia? Would you like to see this country transformed into another Russia?

Radicalism made Russia what it is today—radicalism on both sides. The czar and Russia have been the greatest radicals of modern times—probably of all times. Their socialism was all in favor of plundering the poor in favor of the rich and favored class. Now the czar is rotting in an unhonored grave—murdered by another set of radicals—the peasant bolsheviks. The rich and favored are no longer rich or favored. They are being plundered and murdered by the very people whom they robbed a few short months ago.

A case of dog eat dog. But take a look at our own country. View the situation without malice and without passion.

Capitalistic greed and radicalism are fomenting a dangerous radicalism among the laboring classes.

Radical labor leaders are continually stirring up strife and enmity toward all capital.

Each wants to swallow the other at a gulp, and neither is willing to meet the other half way and accept a conser-

vative basis of adjustment or difficulties.

There are brains and common sense among both the capitalists and the laborers. But in both camps radicalism makes a big noise and conservatism dances to the music.

Throw out the radicals on both sides and we Americans will be able to view bolshevistic Russia with pity rather than with apprehension.

A radical is a radical, in whichever camp you find him.

Who says the rich are short on brains? Didn't a wise man once say that "a fool and his money soon part?"

And yet, the dearth of real presidential timber unearthed to date almost tempts one to enter the race himself.

"Scientists Sweep Sky for Huge Comet," says a headline. Or possibly they were merely trying to locate the present price of a good smoke.

The Best Insurance Against Influenza

Prominent Educator Believes That Vapomentha Is a Sure Preventive.

Dr. R. M. Brame, discover of Brame's Vapomentha Salve, has a letter from C. C. Wright, Superintendent of the Wilkes County, N. C. Public Schools, in which he says: "We have used Brame's Vapomentha Salve for nearly all the ills for which it is prescribed and have always secured satisfactory results. If used in time it has never failed to break up colds, usually the forerunner of Grippe, Influenza Pneumonia. I speak from personal observation. I believe if this preparation is used in time it will prevent the development of pneumonia in every instance. If used according to directions."

These strong statements are fully justified by the remarkable recoveries that follow. Brame's Vapomentha Salve is applied freely over the chest

and throat and inserted in each nostril. Brame's Vapomentha Salve penetrates the pores of the skin, relieving congestion, at the same time healing vapors arise and are breathed through the mouth and nose, loosening the phlegm and causing the patient to breathe freely. Its absolute reliability is evidenced by dozens of unsolicited testimonials. Brame's Vapomentha Salve will relieve pneumonia, influenza, gripe, pleurisy, bronchitis, whooping cough, catarrh, asthma, tonsillitis, hay fever and inflammation of the skin.

Vapomentha is applied externally, and it will not stain the clothes, as other salves do. No home should ever be without it. Buy it from your dealer or direct from the Brame Drug Co., North Wilkesboro, N. C. A small bottle costs 20c; a much larger one, containing six times as much, \$1.20.

by the various Experiment Stations that spraying of the fruit trees is just as important as plowing, cultivating and fertilizing your other crops and that it pays dividend by increasing a crop of sound, worm-free fruits which sell at high prices.
