**ACCESSIBLE to the Last Degree**

The LALLEY LIGHT is without a doubt the most accessible plant of its kind made.

You do not have to spend hours of labor tearing down the entire plant, to make some minor adjustment.

In fact, if it should ever become necessary, the entire plant can be taken down and re-assembled in a very short time—and the only tools you will need are a wrench and a screw driver.

Seems unbelievable, but it is true.

The features which make the Lalley so simple and accessible are practically exclusive with this plant—They are money-saving features.—They are time-saving features.—They are labor-saving features.

And features such as these have won for the LALLEY LIGHT world-wide recognition, as the most dependable plant, the most efficient plant, a most powerful plant, and the most satisfactory plant from every standpoint, in supplying bright cheerful lights to every part of the farm and home—in furnishing power in plenty to operate every electrically driven device.

But we prefer to talk about the LALLEY LIGHT, rather than write about it. Come in and let us talk it over. Get the LALLEY Book and check up on every point of interest.

Be Sure—See the LALLEY First.
