

Make Safe Investments

The protection of principle should be the first consideration of every investor. But it's not always an easy matter for the ordinary investor to determine the safety of the issues offered him.

The character of an investment, however, is usually reflected in the concern which offers it. Investments offered through this institution warrant your confidence.

-TAR DROPS-

—Monday is first Monday.
—The Town Commissioners will meet tonight.

—Mr. R. H. Young has taken a position with Mr. A. S. Wiggs.

—But Oh! those buttments at the bridge. How badly they need repair.

—Eggs are selling for 20 and 25 cents a dozen in Louisburg this week.

—The Boards of County Commissioners and Education will meet Monday.

—Fishing and trap shooting is the centers of attractions with our people these days.

—Quite a large number of visitors were in Louisburg this week attending the District Conference.

—The repairs to the roof of the Court house will be a great benefit to the preservation of the structure.

—Things are shaping up for quite a warm and interesting fight in the School election, but the children have the odds.

—We respectfully call the attention of the Board of Town Commissioners to the condition of the buttments of the bridge and pray relief for the public.

—Julius Hayes, colored, was taken to a hospital at Raleigh Sunday night for treatment for a gun shot wound received in the thigh during an affray near Franklinton.

—The City Fathers should take some action that will eliminate the danger and unsanitary features of driving cows to and from the pastures. Each animal should be roped and the driver required to be constantly in charge of the rope.

—The fire alarm turned in Monday morning turned out to be a false alarm. The fire department was prompt in its response and after taking a ride around town looking for the fire returned to the fire house to learn that possibly the alarm was the result of a fire at Mapleville, which was extinguished without any serious damage.

LOCAL MANAGER WANTED

Unusual Opportunity for Right Man

A large brokerage firm doing a successful business with well-rated concerns throughout the country, wants a capable man at once to develop and handle their local business.

The opportunity is an unusual one because of the possibilities offered for substantial earnings in a highly respectable business which will steadily increase as it becomes more firmly established locally.

The position requires a man possessing executive and sales ability with business experience and having commercial banking connections, although no investment is necessary. He may devote only a portion of his time to the business at first if desired, though we prefer a man who is able and willing to give the business his entire time and best efforts.

The local branch should pay from \$2500 to \$10,000 the first year, according to population and the ability of the manager, as the commodity which we handle is a staple, always in demand and which our large buying facilities permit us to sell at less than average market prices.

Owing to the demand, we must fill this position at once. Send your application to Guarantee Coal Mining Co., 1349 Como Bldg., Chicago, Ill., but do not write unless you can satisfy us as to honesty, reputation and business ability. 4-29-1t—Adv
