EQUAL in laying ability. But the hen on the right was fed a common grain ration while the other was fed Purina Chicken Chowder and Puring Hen Chow. Grains have lots of material for yolks, but far too little for whites. As they can't lay yolks only, grain-fed bens lay fewer eggs.

Purina Poultry Chows

form a complete ration, contain-ing material for an equal number ing material for an equal number of whitee and yolks. They get the most out of your hens, and cutthefeeding costper dozen eggs.

More-Eggs Guarantee You get your money back if Purina Chicken Chowder and Purina Hen Chow, fed as directed, don't pro-duce more eggs than any other ration. Why should you put off a trial when we take the risk?
