

W. D. FULLER & COMPANY

WOOD, - NORTH CAROLINA

We gin Cotton, always ready.	When you gin remember we ginned more cotton than any body in this county last year. There is a reason. Come and see.	We need money as bad as anybody. Why should we not meet competition.	We always do as you want us, if its right.	We want to do business with you, get our prices and when we do not meet competition let us know.
We gin like others until they get too high priced.	We sell goods as cheap as anybody all the year.	We buy your Cotton and Seed at top prices always.	We gin in Fall and sell bread ad meat in Summer.	
Who charged high prices for ginning before. Not us.	We have a house full of Specials. Come and look them over.	We furnish you as much storage as you want out of wealth as long as you want it with out charge.	Remember you can get your wants from us all the year.	You will find us at Wood, N. C. with as good stock of goods and ginnery as this county affords.
We use 3 lb. bagging at our gin and give you all you have for a turnout. Come and be convinced.

WOOD, - NORTH CAROLINA

Home Demonstration Department

The following report is the work of the Seven Paths Club for the last six months:

"The work of the Woman's Club during the spring and summer of 1921 has been very interesting. We have studied several subjects and each member has benefited from them.

As a result of our study of interior decoration, two homes have been painted inside and out, another home has been remodeled and painted. Several girls have rearranged their bedrooms.

One woman has made a fireless cooker, couch and a wardrobe; another two hall racks, one porch set (swing and chairs), two tables, trunk, a child's eating chair and has painted each of these. Another has made a couch, remodeled and painted her dining room table; still another has made two side tables, two small tables, two buffets, one clothes closet, two water-stands, a dining room table and painted each. An old sideboard was refinished by a member and two girls made couches.

A few of our members have been drying quilt linings, dresses, stockings, trousers, sweaters, coats and cloaks.

Two bedspreads, two embroidered bed-room sets, five crocheted sets, four sofa pillows, five rag rugs and several centerpieces and table runners have been made.

In our course in Millinery twenty hats have been made and thirty-five made over. The girls learned to

make garandy, silk and wool flowers and tassels.

Quite a number of our members are growing flowers. We have ten porch boxes, three hundred pots of flowers in ten homes, besides the numerous yard flowers in these and other yards.

We have canned 1,000 or more cans of fruit and vegetables besides the preserves, jelly and pickles. We have also put up a large quantity of brine and dried fruit. 84 cans of fruit and vegetables were canned for the sick people in the community.

The women of our club met at different homes several afternoons and quilted twenty-five bed quilts.

Wood for the canning school term has been supplied by the club.

Curtains for the stage and other incidental expenses met by the club.

Three members have Delco light in their homes. Two homes have water-works in connection with the lights.

The church has been painted inside and out, new seats put in and floor carpeted. The club has helped defray these expenses.

On August the 6th we gave a "Woman's Wedding" after which refreshments were sold. The amount realized on this was spent toward carpeting the church.

Refreshments sold at various community gatherings brought us \$46.20. \$15.20 of this amount cancelled the debt of installing the electric light plant in our church.

We gave a children's play on the 8th Saturday in July. Ice cream was sold for the benefit of the Sunday school.

This has been a hard season with us with most communities but we feel that our club has brightened the

home and community life and the work done individually has broadened us and helped us to forget the gloomy financial condition.

MRS. E. S. WILDER,
Sec'y. Seven Paths Woman's Club.

HEALTH DEPARTMENT

Information Concerning The Health of the People of Franklin County, Worth Your Attention.

Dr. J. E. Malone, Health Officer.

PELLAGRA.

In our last paper we promised to tell the class of people who seem to be more likely to fall victims to this disease than others. It is evident that there is a class of this nature although there are exceptions, exceptions make a rule stronger. You may take any question or rule or problem and yet there are always exceptions. The class of people to whom I refer to as being nearly always liable to have Pellagra is what is generally referred to as the middle class of a population, they refer more generally to the wealth means and prosperity in life.

It is rare to find Pellagra among the wealthy because as this disease is caused by or for the want of a proper diet more or less a variety and well balanced. You can readily see how it comes about that this middle or poorer class of people should have this disease, they are not able to buy the kind of food by which Pellagra may be ward off. The wealthy and intelligent people have the means with which to obtain the proper anti-Pellagra food

and they read for knowledge and information and know what to eat and not to eat. So you can easily see why the middle class are more often the victims of this disease and the housewife of these families are most often the unfortunate ones. She, this good housewife gets up early in the morning, goes to work and cooks the breakfast for the family, and what is the menu spread before them—if they have it—ham and eggs fried, batter cakes fried, strong coffee very sweet, corn bread made from meat that was obtained from corn gathered before it matured. If not ham and eggs as above stated, then hog meat fried, yes everything fried in grease, eaten in a hurry. Then this good woman washes up the dishes with some irritating soap, mixed with greasy water. Then she worries herself to get the children off to school, goes out into the garden exposing her hands to sunshine, or irritating weeds, dust and dirt, milks the cow, feeds the chickens, in fact attends to all these duties while the husband and the others are gone off on more healthy and cleanly work. She gets her dinner composed of course vegetables, cooked with much greasy meat, corn bread made from the same kind of meal, Irish potatoes, sweet potatoes, sweet starch and grease in

everything. Supper very often of sameness of dinner with lots of cold vegetables left over from dinner. After each meal this good woman exposes her hands to just such conditions as will turn to bring out an eruption on hands.

Now with all of these unpleasant and insanitary conditions surrounding her she is still at home alone, with the responsibilities of the household on her mind and shoulders, yet alone, doesn't have time to go anywhere, no recreation and diversion of mind or body. Alone at home perhaps away from neighbors, no time to go to Daughters of Confederacy Revolution, Book clubs, card parties, missionary societies, moving pictures and often no time for church. If this good woman should have a slight ailment, she has plenty of lonely time there by herself to think about it, to worry about it, to magnify it, until it works into something real serious and distressing anything else—in Pellagra.

The Quinine That Does Not Affect The Head Because of its tonic and laxative effect, LAXATIVE BROMO QUININE (Faber's) can be taken by anyone without causing dizziness or ringing in the head. E. W. GROVES, signature on box.

One who hits in usually the spot. Cleveland Press.

WONDERFUL GAIN IN WEIGHT REPORTED

Young Woman Only Weighed 76 Pounds—Now Weighs 100 And Is Gaining Every Day.

"Before I began taking Tanlac I only weighed 76 pounds. I low weigh over one hundred and am gaining every day," said Miss Larue Davis, of Chattanooga, Tenn.

"I bought my first bottle of Tanlac at Gas City, Ind., and it helped me so much that I continued using it. I have always been delicate and suffered a great deal from stomach trouble and rheumatism. I rarely ever had any appetite and simply could not rish anything. I fell off until I only weighed 76 pounds and was so thin I looked perfectly awful. This is the condition I was in when I began taking Tanlac.

"Oh, I feel so different now. Even my complexion is improved. My appetite is good and I can hardly get enough to eat. Tanlac is simply grand and I can truthfully say it is the only medicine that has ever done me any good."

Tanlac is sold by leading druggists everywhere. Adv.

BRING YOUR TOBACCO TO LOUISBURG

And Help Us Make It The Best Season We Ever Had. And After The Sales Come Straight to

J. W. PERRY'S STORE
