TREASURY CERTIFICATES.

Postmaster R. H. Davis of Louisburg, is engaged in an effort to protect the citizens of this community from the dangers of speculative investment which last year cost the American Public \$500,000,000 in fraudulent stock transactions.

To counteract this menace, the Postmaster has addressed a strong letter to a number of representative citizens urging the safe-guarding of their savings by investment in United States Treasury Certificates.

The Postmaster's letter stated a "West Egg" for future financial success is waiting at the Post Office in the form of United States Treasury Savings Securities exactly suited to every one's pocket-book as they are issued in denominations of \$5, \$25, \$100 and \$1,000. These securities are insurable without cost against every form of loss to the purchaser and bear four per cent interest, compounded quarterly, if held to maturity. They are particularly attractive, not only in their security but they are not subject to market fluctuation, and can be converted into cash at any time at a higher price than is paid for them.

The rapidity with which even small

savings grow, the Postmaster states, is indicated in the fact that \$2 and a few additional cents each week, saved and invested in two \$5 War Savings Stamps per month, will yield in 120 months, \$600 in cash, and \$600 more, maturity value, payable \$1200 a year for five years longer, a total of \$1200 for an average saving and investment of a little more than \$8 per month for 120 months.

The Postmaster will be glad to answer inquiries about Government Savings Securities, and invites the public to call at the Post Office for further information.

COTTON REPORT.

The reports show that there were 9,218 bales of cotton, counting round as half bales, ginned in Franklin County, from the crop of 1921 prior to November 1, 1921 as compared with 5,079 bales ginned to November 1, 1920.

WHETHER it's a bird for Thanksgiving dinner or a tankful of gasoline for your motor you will get real satisfaction only through careful selection.

Volatility is important to good gasoline. It largely governs the starting speed of your motor and the richness of the mixture you have to use. For steady power that enables you to creep along in traffic or whirl up steep grades without a lot of gear shifting your motor fuel must have high flame speed and a high rate of pressure development. For economical operation gasoline must give you big mileage per gallon and burn up so completely that it leaves a minimum of carbon behind.

It needed years of refining experience and countless tests to de-

velop a balanced gasoline to meet all these specifications. But it has been done.

"Standard" Motor Gasoline is best not in one or two respects only. Under the most rigid tests covering every feature of motor performance, "Standard" Motor Gasoline stands first.

You can easily prove this. Draw up where you see the familiar "S. O." sign. Test a tankful. Notice the "pep" and power your car has. See how easily it climbs hard hills. Keep tabs on the mileage you get. One quality wherever you buy it, and for sale everywhere.

Do you know that your motor is properly lubricated? You can eliminate any doubt by specifying POLARINE.

Insurance Power

NOT ALL MEN USE PICKS and SHOVELS when they want to level a mountain.

SOME OF THEM USE THEIR BRAINS.

Take a leaf out of Nature's book of experience, and apply the intensive force of a powerful stream of water directed right at the hill that stands in the way of Public Improvement.

THERE IS A GREAT POINT IN THIS, when considering the AGENCY in which to place your INSURANCE.

T. W. WATSON'S INSURANCE AGENCY enables you to apply POWER where it will most surely accomplish the desired result.

AS THE BIG STREAM OF WATER CUTS THROUGH THE SIDE OF THE MOUNTAIN, So the KNOWLEDGE, EXPERIENCE and SERVICE of THIS AGENCY, enables the ASSURED to CUT THROUGH FINANCIAL DIFFICULTIES in case of fire.
