

Fordson TRACTOR

*\$2500
F. O. B. Detroit

Henry Ford Was Right When He Said:

'The Tractor will enable the farmer to work fewer hours in the day, giving him more time to enjoy life. I believe the tractor will make farming what it ought to be—the most pleasant, the most healthful, the most profitable business on earth.'

This tractor has done much—very much—in bringing true Mr. Ford's prophecy; for in it is a machine which has harnessed one of the most dependable, efficient, adaptable, economical sources of power in the world—a machine that saves from thirty to fifty per cent of the farmer's time—a machine which many farmers claim plows, harrows or drills as much ground in the same time as four, six or even eight horses. And more—a machine that takes care of every power job on the farm.

Call and let's talk it over, or telephone or drop us a card and we will bring the facts to you.

CHRISTMAS MESSAGE.

Postmaster General Will Hayes writes as follows, concerning Christmas packages:

Office of the Postmaster General, Washington, November 22, 1921.
To the BOYS AND GIRLS OF THE UNITED STATES.

Christmas is almost here. Your great Post Office Department has a big job ahead and needs your help.

Think what it means to be Santa Claus to our 100,000,000 people and to deliver Christmas parcels to every family in this great country within the short space of a few days and without disappointment.

It can be done, and we're going to do it if we may have your help. I want to enlist the active assistance of every boy and girl in the schools of our country in getting parcels mailed THIS WEEK to relieve the rush that comes directly before Christmas.

Will you go home today and take this message to your parents and friends:

"Our postmaster has asked us to mail our Christmas parcels THIS WEEK, for, unless we do, Uncle Sam's load may be so heavy the last few days before Christmas that he won't be able to deliver all the presents by Christmas eve."

The parcels must be well wrapped and tied and addressed plainly in order that they may arrive in good condition with their Christmas appearance unspolled. You can put on your packages, "Do not open until Christmas."

And, there must be a number on your house and a mail receptacle, too, for, if there isn't, Santa Claus's messenger, your letter carrier, may not be able to find the house where the present belongs.

There are some other things, too, in which you can all assist in improving the mail service and in saving our great Government millions of dollars a year that is now wasted because of our carelessness—yours and mine.

Every day that you drop a letter in the mail box 40,000,000 other letters are already pushing and jamming through the postal machinery. One letter a day for each family of five persons in the United States is given to Uncle Sam to deliver.

When you send a parcel to the post office for mailing any day there are about 8,000,000 other parcels ahead of yours passing through the postal hopper. This is in ordinary days; at Christmas time it is multiplied many times.

One family in about every ten puts a badly addressed letter in the mail every day. This mixes up over 2,000,000 half addressed letters with the 20,000,000 fully addressed letters. That means that the fully addressed letters must wait on the slow moving poorly addressed letters—just like the larger boys and girls are delayed by a bunch of "bad kids" tagging along.

You boys and girls can help the Postal Service and save your father some money, because he has to help pay the cost of searching addresses on letters and parcels sent out by this one careless and thoughtless family in every ten.

First find out if your family is the careless one, then bear in mind that your letters must be handled by skilled mail distributors standing in post offices and on swaying postal cars of a mile-a-minute mail trains, often under poor light.

The address on every letter, card, or package must be correct, complete, and legible, including the house num-

ber and name of street, and the "From" address should be in the upper left-hand corner so that the mail will be returned to you in case it is not delivered. Do not abbreviate names of States, because so many look alike when abbreviated.

Put the proper amount of postage on your letters and wrap the parcels carefully. Avoid fancy writing, which causes post-office clerks and letter carriers to stop and study, and thus lose time. Make the address plain and easily read, and always use pen and ink or typewriter and light-colored envelopes, so as to save the eyes of the post-office clerks. Do not use envelopes of unusual size. The little ones that are so frequently used for cards and notes at Christmas and other holiday times cause an untold amount of trouble and labor, as they will not fit our canceling machines and must therefore be canceled by hand. Because of their size and tendency to slip out of a package, these small envelopes are more likely to be overlooked or lost.

Mail your letters and packages early in the day, because this avoids overloading and delaying mail at the end of the day.

Your local postmaster and your teachers will tell you more about the Postal Service.

Do these things, and you will win the grateful appreciation of the people in your post office and especially of Your Postmaster General.

WILL H. HAYS.
P. S.—Don't forget to mail Christmas packages THIS WEEK.

If the Disarmament Conference wants quick results it ought to meet in a muddy trench.—Chicago Journal of Commerce.

Naval reduction is logical deduction.—Norfolk Virginian-Pilot.
