"Wheat for Russia's Starving Millins" is the title of a picture appear-ing in the front of daily papers. But nothing is said of help for the many farmers who falled to get a price for their products sucicient to keep starvation from their door.

Matthew bullock, the negro who is charged with inciting the riot at Norlina las January that resulted in two white men being shot and two negroes being lynched and others being sentenced to the peniten-tiary, has been caught in Canada. The Immigration Board ordered his depor-tation back to North Carolina, but an appeal was taken which will delay the trip several days.

The biggest mistake any merchant can make is to oppose the organiza tion of the farmers Cooperative Asso ciations. Two of the biggest things these associations will do for the coun try is get the farmer more money to pay his debts with, and cnange the business of this section from a credit system to a cash system. Lets every-body go to work to make them big suc-cesses. It will be time well spent.

ocicials will replace the old wooden station with a modern brick structure with all the latest conveniences. The people of Franklin nave been very putient in the accommodations offered them, and now that a new depot has got to be erected it is nothing but fair on the part of the railroad to show their appreciations by giving to Louis burg a station that both the road and town will be proud of.

BICKETT'S DREAM,

"Gentlemen of the general assem bly, ladies and gentlemen: I have endeavored to visualize my dream of a fairer and finer state. I Mave out lined the means by which I hope to make the dream come true. And the means all reach out to a single end-a larger hope, a wider door for the average man than he has ever known.

With a six-months school guaranteed to every child; with the forces of disease routed from their ancient strongholds; with the curse of rum lifted from every home; with our fields tilled by the men who own and there-fore love them; with our harvests free from the crop lien's deadly blight; with modern conveniences and whole some diversions within reach of every country home, our dear old state, released from her bondage to the bloodkin tyrants of Ignorance, Poverty, Disease, and Crime, will begin to realize her finest possibilities in riches and grace; will assume her rightful place in the march of civilization; and from the blue of the mountains to the blue of the sea there will spring up a hardier, holier race, not unlike the giants that walked the earth when the sons of God mated with the daughters
