The Genoa Conference seems to be quite a sensation.

Forty-seven people are missing and a large number homeless as the result of a flood in Texas.

Simmons says the Republican Tariff will increase the cost of living. We didn't expect anything else.

Only two of the old Commissioners have entered the campaign—Messrs. W. D. Felter and C. C. Hudson.

All candidates for County and township offices and for State Senate from this County are required to file a pledge and pay his fee with the Chairman of the Board of Elections for Franklin County not later than Saturday, May 20th.

Mr. Thomas W. Ruffin has been suggested as a probable candidate for the House of Representatives from Franklin. Mr. Ruffin is one of Franklin's finest young men fully capable of filling this important position with credit to himself and satisfaction to the public.

Hon. W. M. Person, who first began his political activities in this campaign as a candidate for Congress and later entered the fight for Solicitor for this District, has returned to his first choice and is in the Congressional race against Hon. E. W. Pen.

We are informed that there is a man in Franklin County whose ability as a farmer is unquestioned, who states that he will enter a contract with Franklin County to take over the County home and relieve the County of all costs save that for medicine and medical attention.

EDWIN FULLER CLUB

Friday, April 22, the Edwin Fuller club was entertained at the hospitable home of Miss Mary Best near Mapleville. The meeting was called to order by the president, Mrs. G. A. Ricks.

The minutes of the previous meeting were read and approved, and the program for the afternoon was rendered as follows.

The first subject was Madame Shamm-Helm and Mrs. Edwin Malone read a well-written sketch of her life and work. This was followed by an interesting discussion of Julia Marlowe and her career read by Miss Alice Green.

Miss Ruth Allen played "Thine Own" from Long. The music seemed to challenge a cheery little canary which was in a cage near the piano and he added his liquid bird notes to those of the piano making a duet which was very much enjoyed by the listeners.

The literary part of the program closed with a paper prepared by Mrs. Holden and read for her by Mrs. S. A. Newell on "Paint, its Importance and Effect."

A delightful salad course was served and the club members were requested to remain for a short business session.

Announcement was made that Mrs. Dale, who had been sent out by the government to take charge of grave registration in France during the war, was to speak in the American Legion Club rooms Friday evening and those present were requested to attend her lecture.

Miss Ida Mae Yow and Mrs. Al Higgins were chosen delegates to the State Federation convention in Greensboro.

A communication was read from Mrs. B. H. Griffin of Raleigh, requesting the three federated clubs of Louisburg to unite and federate as one club. The secretary was requested to write to Mrs. Griffin and ask her for fuller particulars and what changes in the present method of procedure would be involved by the change.

The program planned by the committee appointed to prepare a course of study for the year 1932-33 was read by Mrs. Newell, one of the members of the committee. The program as planned was adopted by the club.

The club then adjourned to meet one week later with Mrs. G. A. Ricks.

of the State; we commend the legislature for the enactment of legislation looking to the construction and establishment of a system of hard-surfaced and other dependable roads connecting the county seats with the principal cities and towns, and we pledge the people of this State that this road program will be carried on with efficiency and economy; we commend the provisions made for increasing the facilities of our State institutions, both of educational and charitable; we commend the legislation, providing the splendid program being carried on in the State for the protection and conservation of the public health, and the improvement of sanitary living conditions, both urban and rural; we commend the legislation providing for the collection of the State's entire revenue from incomes, inheritances, franchises, insurance policies, fees, and rentals from the State's property, thereby providing a system of taxation whereby no taxes whatever are levied for State purposes upon property, and the establishment of a department for the assessment and collection of the State's revenues; we commend the legislation simplifying the judicial procedure in civil actions reducing the cost of litigation; we commend the provisions made for the care of our Confederate veterans and their widows, and pledge the Democratic party to a continuation of all of these policies.

We point with pride to the fact that Governor Morrison has recommended and vigorously urged the passage of this great constructive program enacted by the last General Assembly.

In the administration of his office as governor, Governor Morrison has inaugurated many measures and movement for the moral and material uplifting of the State.

(a) We endorse the appointment by him of boards of consulting specialists to visit and render to the needs of the insane, the delinquents, the defective and other unfortunate in the State. Under this plan a score or more eminent specialists have visited each institution, performing operations and otherwise treating hundreds of these patients, without one cent of cost to the State. The thanks of the State are due to these gentlemen for the great and unselfish service they have rendered suffering humanity.

(b) We heartily endorse the program suggested by Governor Morrison and adopted by the Departments of Agriculture, Education, Health and Public Welfare Work, looking to the production of sufficient food for the people of the State, and earnestly hope for the early realization of this great idea, the consummation of which is in line with the program for the upbuilding of the moral and material welfare of the people.

(c) We endorse the appointment of a governor for his program looking to the production and conservation of fish, oysters and other sea food in the waters of our State.

We pledge to the people of the State that the Democratic party will administer the affairs of the State, counties and municipalities with every economy consistent with efficient and progressive government.

We pledge to the people of the various counties and municipalities of the State the greater measure of control of their local affairs consistent with efficient and orderly government and the rights of other counties and municipalities.

We favor the passage of a workman's compensation act fair to both employer and employee.

We are profoundly grateful to the service men of late war, and we recommend to the national government the enactment of legislation looking to their relief.

We recommend that the State Executive Committee be authorized and directed to amend the plan of organization so as to double the number of that committee, to the end that full representation of women may be had thereon. Provided, that fifty members shall constitute a quorum. The committee at its next meeting shall provide the necessary machinery for the election of these additional members.

We denounce the covert, unfair and cowardly attack made by the Republican party in its platform adopted at its convention at Winston-Salem, upon the program for a fair and equitable system of taxation, the education of the children, and the construction and maintenance of the highways; and we warn the people that if the Republican party be entrusted with power in this State, the evils warned against by them will indeed be realized.—Raleigh Times.

Ybor City Man Gained 34 Pounds and Everybody Wants To Know What Did It—Gives Credit To Tanlac.

"After I had been taking Tanlac only a short time I showed such an improvement that my friends stopped me on the street and wanted to know what caused the wonderful change in me," said T. A. Salton, 7th Ave and 24th St., Ybor City, Fla. "I was one of the earliest victims of the first epidemic of flu and it left me with my health entirely broken and seemingly without the power to rally. I am convinced that I got Tanlac just in time. "It gave me an appetite like a wolf and put my stomach in first class condition. It's a fact, I gained thirty-four pounds in weight. Today I am in the best of health I have been in years and couldn't tell I had ever known a sick day. I will go the limit for Tanlac any time." Tanlac is sold by all good druggists. Adv.

THURSDAY EVENING BOOK CLUB BANQUET

The Thursday Evening Book Club gave a banquet last week at the elegantly appointed residence of Mr. O. H. Harris. To this banquet each member of the club, borrowing the privilege supposed to belong to leap year, invited one gentleman.

The guests on arriving were graciously received by Misses Jessie T. and Alice Harris in the hall and parlor made beautifully spring-like with yellow roses, tulips, and snapdragons and green foliage.

When all had arrived they were ushered into the dining room where the color scheme of yellow and green was carried out even more beautifully than in the hall and parlor with graceful baskets of roses. The table, which was laid with covers for twenty-four was decorated in yellow jonquils with green foliage and with green and yellow candles. The place cards were dainty little butterflies, flowers and other reminders of spring, while the favors were very attractive Easter rabbit bits and baby chicks.

The first course served was fruit cocktail. Between this course and the next Miss Mildred Scott proposed a very witty toast to the club president, Miss Jessie Taylor Harris, to which Miss Harris responded in kind.

The second course consisted of chicken croquettes, green peas in patties, mashed potatoes, stuffed celery, hot rolls and ginger ale.

Miss Mary Turner, proposed an amusing toast to the men present, to which Mr. William Jackson made an appropriate response.

cults, and olives composed the third course, while the fourth was the desert course of ice-cream and cake in the prevailing color scheme of green and yellow.
