COTTON TO BE RECEIVED AT 120 POINTS

Raleigh, August 8.—Cotton of the 27,000 members of the North Carolina Cotton Growers' Cooperative Association, will be received at about 120 points in the State, according to B. F. Brown, manager of the warehouse department. These points are so distributed as to be of the greatest ac-

commodation to the members. Only in isolated instances will members be called on to ship their cotton and in all such cases, freight charges will be paid by the Association.

Of the 120 receiving points, about 70 will be warehouses, and the remainder will be shipping points selected for the convenience of members living a considerable distance from a designated warehouse.

A member may deliver his cotton at one of the designated warehouses on any business day. The warehouse manager will receive, weigh, tag, sample and store the cotton for the Association. He will give the member a "participation receipt" with memorandum copy. The member keeps the copy as his evidence of delivery and may take the original to his bank, which will make him the advance payment in the amount authorized by the directors.

A member who does not live near a designated warehouse may deliver to the Cotton Association at an appointed shipping point. An agent of the Association will be at each shipping point on certain days, at least one day in each week and more if necessary. He will receive, tag, sample and ship the cotton for the Association. He will give the member of the Association the bill of lading with memorandum copy. The member keeps the copy as his evidence of delivery, and he may take the original of the bill of lading to his bank, which will make him the authorized advance payment.

A member living a long distance from a designated warehouse or shipping point, may ship direct to the nearest concentration warehouse. He attaches a membership tag to each bale, made out with his name, address and membership number, and secures a bill of lading as evidence of delivery. He may take, if he wishes, the original bill of lading to his bank, which will make him the authorized payment.

In the event a member of the Association does not secure a loan at once on his bill of lading, he should forward it promptly, by mail, to the Association.

The list of warehouses and designated shipping points will be announced by Mr. Brown within the next few days.

Bathing Beauties Defy Law

These mine and rail strikes are not the only battles raging in the U. S. Chicago bathing beauties are mobilizing to overthrow a recent city edict barring abbreviated bathing costumes. Picture shows some of the protesters being taken to "cell it to the judge" by one of the police-men detailed to see that the law is observed.
