A SHABBY HOUSE OR A SHABBY MIND

Haven't you been in houses where lovely flowers stood all about, and everything was spick-and-span, but the literary table was strewn with papers and magazines of the trashiest description? Is it a good thing to have the furniture of the house the best that money can buy, and to furnish the mind with silly and disrespectful things in the way of reading? ... Use The Youth's Companion to furnish your mind, and wherever you are—in plain but immaculate rooms or amid splendors and palaces—you will be at home. Try The Companion for a year and see.

SALARIES IN FRANKLIN COUNTY

Showing Amount Paid Out And The Sources From Which It Is Derived.

(Republished from Franklin Times of February 17th, 1922.)

The following table is made up from the reports published by the County, with the exception that all salaries are figured under the new bill, and will show to the voters what the different offices are costing the County for services. These figures do not, insofar as we have been able to ascertain, include any expense attached to either of the offices except for man power. From it you will notice that the Sheriff's office shows a cost of \$7,253.76, and but for the credit for the taxes, which it is entitled to have, \$7,555.85, the credit column which contains figures of \$1,522.68, would become a debit column of \$5,733.17.

The Register of Deeds office shows an excess salary account above all receipts of \$696.30, and the total expense of \$1,001.30 above receipts.

The Clerk of the Courts office shows an excess cost in the salary account of \$9.37 above receipts, and when the juvenile salary is added which is paid from another source it represents an excess cost to the county of \$309.37.

The Auditor's office, which has taken over some of the work formerly done by the Register of Deeds office, and which expense has no receipts to offset shows a cost of \$2,451.59, which together with the other salaries with no receipts to offset, as shown, represents a total expense to the County of \$4,551.59. It might be called to mind that in the Auditor's statement of the Salary fund two weeks ago it was shown that the County was saving above the fee system \$4,585.86, whereas this table shows \$3,510.77 the difference being the officers received two months salaries under the old law and there were no deputies, while this calculation figures a full year under the new salary law.

It will be seen that the amount paid these offices that is offset by the salary fund is \$12,650.00, and the amount paid the same three offices not offset by the salary fund is \$2,998.76, which

makes a total of \$15,648.76, while the total receipts for the salary fund is only \$16,160.77, making a difference in favor of salaries of \$512.01. However if you will add to the above salaries that are offset by the salary fund the total salaries that have no fund to offset them \$8,835.35, you will have a cost of \$21,485.35. This shows that after exhausting the entire receipts from fees and commissions the County has to call on the general fund for \$5,324.58. This amount would have been reduced, had the increased salaries bill not been passed, by at least \$5,200.00, which would have represented an excess cost to the county of less than \$200.00.

Before leaving this feature it will be well to state, in view of the fact that the voters of Franklin County are to vote on the question of whether or not they shall keep their officers on salaries or return them to the fee basis this fall, that in view of the fact that the salary bill only effects three offices, Sheriff, Register of Deeds and Clerk of the Court, and that the receipts of these offices show at least \$3,510.77 in favor of salaries, even though the Sheriff's office bears the burden of the other two it is evident that if the offices are put back on fees it will cost the tax payers to be paid from the general funds \$3,510.77 more or a total of \$8,829.15, less the allowance to the Sheriff for the collection of taxes \$1,950.00. Anyone giving the least thought to the question will not hesitate to support the salary question when it is submitted at the general election. It is suggested to those who do not like the fact that the salaries were increased, that they take special pains to see that men are elected to the General Assembly who will repeal the new salary law and put it back to where it was when the people voted the change, which contained the amount of salaries they wished to pay.

The table follows:

Further figures on the Register of Deeds office show that instead of that office having a deficit of \$1,001.30 as shown in our statement above it would have a credit of \$138.70, when it is given credit for the following items which it would be entitled to under the fee system: To recording 787 Orders on Minute Docket at 10 cents each \$ 78.70 To recording 1475 Orders on order book at 15 cents each 221.25 To amount for computing taxes in excess of the \$250 paid by the Board 453.50 To Clerk to the Board 100.00 To recording official Bonds, school and road bonds, issuing Notices and 154 drawbacks 287.55 Total \$ 1,140.00

These figures will also show an argument of \$1,140.00 more in favor of salaries instead of fees than is given above.
