ELON COLLEGE

(By Elton M. Lyman)

The most phenomenal thing in North Carolina College history has occurred on the Elon College campus during the past five months. A terrible fire on the morning of January 11th reduced the administration building of Elon College to a smoldering mass of ruins.

The two buildings which will occupy the two Southern corners of the quadrangle are the science hall and the Whitley Memorial building in which the auditorium and music department of the college will be located.

The Northern corners of the quadrangle will be occupied by the Carlton Memorial building and the Religious Activities building. The Carlton building will house the library of the college, and will have a capacity of one hundred thousand volumes.

The program provided for seven new buildings to replace the old administration building. Five of these buildings were to be erected at once, and construction is already begun on three of these, and the ground is cleared for a fourth.

Advices 10,000

Dr. O. Latham Hatcher, recently elected president of the Southern Women's Educational Alliance at Richmond, Va., will be the vocational advisor to 10,000 Southern girls.

as they are needed. Added to this rebuilding program on which three hundred thousand dollars will be spent at once is the proposed increase of endowment of the college; an increase of three hundred thousand dollars.

Elon has long been an A-1 college, and its work in the field of education has brought the highest approbation from the Governor of the state and from the late superintendent Brooks.

The Christian Church founded Elon College thirty-three years ago, and the college is still supported largely by the Christian church, but Elon has always been a religious democracy.

Every denomination is given freely of its service, and no preference is shown to its own denomination. During the past year there were seven denominations represented in the faculty, and ten in the student body of the college.

The five buildings which will be constructed at once will form a quadrangle with the new administration building at the center. This new administration building is much larger than the burned building, and will far more adequately care for the needs of the college.

The religious activities building will be a unique building. No similar building now stands on any college campus in America. The building originated with the Elon religious education department, and plans were drawn under its supervision.

ARE YOU GOING TO THE BARBECUE DINNER AND SUPPER?

On the Court House Square next Tuesday, July 10th, a most delicious Barbecue dinner and supper will be served by the Woman's Club of Louisburg.

past two years the religious activities of the college have been correlated and so co-ordinated, as to give the largest possible amount of service with the least duplication of effort.

The marvellous success which the Elon rebuilding program has attained is due largely to the untiring efforts of the President, Dr. W. A. Harper.

Up from a heap of ashes and smoldering ruins Elon has risen majestically. There were tears in the voice of the president as he faced his students on the morning of the fire.

FRANKLINTON DISTRICT CONSOLIDATED

WILDER'S DISTRICT PLACED WITH CEDAR ROCK

Supt. Best to Work Out Plan For High School Accommodation for Sandy Creek Gold Mine District—Flat Rock And Roberts Want to Join Youngsville

The Board of Education met in regular session on Monday with all members present, A. F. Johnson, T. H. Dickens, John C. Winston, W. A. Mullin and J. B. Jones.

Upon petition of the Wilder Trustees and other interested patrons, the Wilder School District was placed in the proposed Cedar Rock Special Taxing District.

The matter of transferring the property of Peter Dean and other parties from the Mapleville District to the Cedar Rock District was deferred until the first Monday in August that the Mapleville Board might have an opportunity to be heard in this matter.

Supt. Best was instructed to work out some plan for taking care of the high school students in the proposed Special Taxing District of Gold Mine and Sandy Creek for six months and report the same to the Board at its next regular meeting.

The Board approved a loan for Louisburg from the State Building Fund for \$55,000 with the understanding that if the entire amount asked for by the county could not be secured from the state that the county would in that event give to each district asking for a loan its prorata part of the total loan secured, this per cent being based on the amount each district asks for and the total amount secured.

Upon petition of the Franklinton Graded School Board, the County Board of Education assumed the bonded indebtedness of the Franklinton Graded School District, the remaining interests and installments to be paid out of the revenue derived from the 50 cent local tax of the District. The Board further agreed to appoint the treasurer of the Franklinton Graded School Board as the trustee of this Fund whose duty it will be to notify the County Board each year that the interest and sinking fund has been taken care of until the said bonds are retired.

Upon written petition of the governing body of the Franklinton Graded School District, this being a special chartered school, the Board consolidated all the territory embraced within the Franklinton Township Special Taxing District, this consolidated territory having the same rate of tax.

A committee from Roberts and Flat Rock came before the Board and asked that they be transferred to the Youngsville Special Taxing District. This being an interference with the county-wide Organization Plan already adopted, the Board declined to take any action at this time. However, the Board gave notice that on the first Monday in August it would be glad to receive the suggestions and recommendations of the school committees and patrons interested in this territory that would be affected by a change and after then would render a decision.

The appointing of the school committees was deferred until the first Monday in August.

Upon motion the rent for the office for the ensuing year was fixed at \$20 per month.

There being no further business, the board adjourned to meet again Monday afternoon at 3 o'clock, July the 9th.
