Cotton growing will be standardized in Caswell County by the formation of farmers cotton clubs and the use of one variety of cotton in these clubs, reports J. L. Dove, County Agent.

No Worms in a Healthy Child
All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHIN TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 50c per bottle.

This Bank Paid Over Fifteen Thousand Dollars To Our Depositors in 1923,

AS INTEREST ON SAVINGS

To be exact this bank paid out, during the year 1923, FIFTEEN THOUSAND TWO HUNDRED NINETY Dollars and seventy-one cents as interest on the savings of its patrons.

This amount of money was added to the wealth of the people of this community, without any effort whatever upon their part.

The money saved by our patrons, last year, might have been spent. Also these patrons could have started an account early in the year, and they might have withdrawn their money, within a short time, for that is their privilege.

BUT THEY DID NEITHER

Realizing their money was deposited with a STRONG National Bank, thousands of people regarded their savings account as the best paying investment they could have, on short term. They allowed their money to remain where interest was paid them at four per cent, compounded quarterly, each three months

A Splendid Example

Washington, so biographers relate, was a thrifty youth. At the age of sixteen he had a job as surveyor and had opened a Bank Account in his own name to take care of his savings.

What a splendid example for the youth of today! And we will venture that Washington did not enjoy the privileges which this Bank is ready to offer to help you save systematically. Most great fortunes have had modest beginnings. Start a Savings Account today.
