Bad temper is poison to a nervous system.

In November 1921 North Carolina lead all the states of the South with twenty-seven thousand growers signed up. This number has increased now to almost thirty-five thousand and is growing daily without any campaign for new members.

Have you perfected your plans for fighting the boll weevil this year? If not write at once for Extension Folder 14 which gives the latest recommendations about how to make cotton in spite of the pest. A card to the Extension Service, State College, Raleigh, will bring your copy.

"Honor farmers" in North Carolina will continue the prosperity of the State this year. An "honor" farmer will feed himself and his livestock with crops grown at home, will have an orchard, improve his soils, put his children in club work and add some home conveniences, say extension workers of the State College.

Many communities are now pooling orders for fertilizing materials. Buying in quantity for cash is resulting in money being saved for those taking part. report extension workers of the State College.

Tom Tarheel says Abe Growler never would take much stock in cooperative marketing until he attended a meeting where dinner was served on the grounds and a payment made to the members. Abe couldn't resist an appeal to the stomach and pocket book at the same time.
