

# THE FRANKLIN TIMES

A. F. JOHNSON, Editor and Manager

One Year ..... \$1.50  
 Eight Months ..... 1.00  
 Six Months ..... .75  
 Four Months ..... .50

Entered at the Post Office at Louisburg, N. C., as second class matter.

Tomorrow is primary. Go out and vote.

Don't stay away from the primary and then "cuss" out the nominees.

It's your duty to go out and vote for the person you think will make the best officers.

Japan doesn't seem so well pleased over the new exclusion bill. But what difference does that make.

President Coolidge in declaring the new tax bill unsatisfactory says its "tax reduction, not tax reform." No doubt the bill will be even more popular now.

Governor Morrison has appointed Hon. W. A. Hoke Chief Justice, who immediately resigned as Associate Justice to accept the higher position. This is recognized as a wise choice and Governor Morrison is to be congratulated.

Announcement has been made that Governor Morrison will call a special session of the Legislature for early in July to consider the Ship and Port project. Reports credit the Governor with saying that he will ask that the question be left to a vote of the people. A wise idea.

### BATTERY B. AN ASSET

Believing that Battery B. 117th F. A., Louisburg's Military organization is of great benefit to Franklin County, and deserves the whole hearted support of the people, the following information is submitted for the public:

1. The organization of the battery consists at present of four officers, namely, Thos. W. Ruffin, Captain, Geo. D. Underwood, 1st Lieutenant, Edward F. Griffin, 1st Lieutenant, and William Y. Bickett, 2nd Lieutenant, and sixty-six enlisted men. The organization is equipped for war strength, having property on hand valued at \$75,000.00. This property consists of four 155 mm. Howitzers, the largest mobile artillery used by the U. S. Army twelve tractors and other necessary equipment, two Browning machine guns, eight automatic rifles, eighty-two pistols, 45 calibre; blankets, tents, and other equipment necessary to care for 114 men and officers. The government provides two caretakers for the battery at good salaries, and spends on the average of nine hundred dollars, (\$900) monthly in this county in payment of the men and the upkeep of this battery. I think I am stating the facts when I say that this organization has one of the biggest pay-rolls in Louisburg, and the town and county are getting the benefit of this financially as all of this money is spent at home. This is the material feature of the battery.

2. The police protection that this battery affords is not to be discounted lightly. While this county is a peaceful county, yet if the occasion demanded, sixty-six trained men armed and equipped as this battery is, would be a large factor in restoring order and putting down lawlessness. The fact that this battery is here is good insurance against trouble. A strong police force of any kind insures good order. The U. S. government is paying for this protection; you at least owe it your good will.

3. The greatest benefit and service that the organization renders however, is not financial or protective in its nature. In my opinion the greatest need of our country today is young men trained in the ideals of American citizenship, young men taught the proper attitude toward citizenship, its duties and obligations, young men who have learned self respect and respects for the rights of the people, who at the proper time can step forward and take the leadership in all progressive movements, political, moral and patriotic. Unselfish leadership is the supreme need of our country, and more today than ever in its history. It is the purpose and hope of the officers of this organization to instill in the young men enlisted in this battery these characteristics. We are not training men as soldiers to make military machines out of them; we hope to make not only soldiers but real leaders in every respect. The military training teaches these men to think and act quickly; the result is confidence in their own ability and self-reliance; it teaches them obedience, discipline, and respect, without which no man can succeed; it makes them take a personal pride in their appearance; it instructs them in the laws of health and sanitation, and finally it makes of them men trained and fitted to solve the problems of life in a manly way. A good soldier is a good citizen. If you think this organization will help your boy, it will be our pleasure to enlist him.

Respectfully submitted, THOS. W. RUFFIN, Captain, Comdg. Battery B. 117th F. A., N. C.

HAVE YOU EVER NOTICED THAT THE MERCHANT WHO SENDS IN THE COPY FOR HIS AD EARLY ALWAYS HAS THE NEATEST AD?

## Planning the Disbursement of The Federal Soldier Bonus

Colonel C. A. Penington, Chief of the Insurance Division, and General Frank Hines, Director of the Veterans Bureau, Washington, going over the plans for the disbursement of the soldier insurance bonus.

## International-Olympic Rifle Champion Off for Olympics

Sergeant Morris Fisher, United States Marine Corps, present International and Olympic champion, and W. R. Stokes, former International Champion, were among the "sharpshooters" sailing from New York on the President Harding to represent the U. S. in the Olympics.

### EUROPE WILL BUY MORE COOP WEED

The Association Tobacco Growers Gain New Markets By European Expedition.

(S. D. Frissell.)

Enlarged markets for the tobacco of the 260,000 American planters of the Carolinas, Virginia and Kentucky who are united in cooperative marketing associations will unquestionably result from the work of their commission which is now in Europe for the purpose of shortening the bridge between the organized American producers and the millions of European consumers of tobacco from this country, according to Oliver J. Sands, executive manager of the Tobacco Growers Cooperative Association, who has just arrived from overseas and is the first member of the commission from the tobacco farmers of America to return from Europe.

According to Mr. Sands, the cooperative associations will undoubtedly increase their deliveries of tobacco to Great Britain as a result of the visit of the commission to trade centers of England, Scotland and Ireland. The

officials of the Imperial Tobacco Company of Great Britain received the commission from the cooperative associations with every courtesy and consideration on May 15 at Bristol, England, another meeting of the imperial officers and the officials of the tri-state association of Virginia and the Carolinas and those of the Kentucky Burley and Kentucky Dark Associations will be held following the arrival in England of Judge Robert Bingham of Kentucky, founder of the Burley Association.

The French Minister of Finance and the Minister of Commerce who direct the affairs of the French government monopoly in tobacco gave the commission a most encouraging reception which resulted in assurance of cooperation and continued purchases of the tobacco produced by the associated growers.

Every encouragement to the commission is expected from the other European countries which sell through government monopolies and very favorable connections have already been established in Germany, according to the latest cable to reach the offices of the Tobacco Growers Cooperative Association at Richmond.

The tri-state association has just completed delivery of approximately twenty million pounds of its redried tobacco to three of the largest manufacturers of the world trade, the cooperative's leaf manager who says that several other large sales will probably be made within the next few weeks.

Checks which total more than a million dollars are almost ready for distribution to the members of the Tobacco Growers Cooperative Association in Eastern North Carolina, and will bring the receipts of the associated farmers in the Eastern Belt to seventy five per cent of the bankers' valuation upon deliveries of the 1923 crop. This payment will be made to association members not later than

June 26 from all association warehouses in Eastern North Carolina. Each member of the association in the Eastern Belt who delivered his 1923 crop to the association will receive a half of the total amount of cash which he was paid for all deliveries during the past season.

Pecan trees for the coastal plain section and walnut trees for the piedmont, is the recommendation of Forester E. M. Curran of the State College extension division.

Farmers of Halifax County pooled their wool with the aid of county agent C. E. Littlejohn, and sold 1800 pounds for 46 cents per pound for the best grades.
