INSURANCE A NECESSITY

INSURANCE ACTUALLY DEALS WITH EVERY HONEST BUSINESS UNDER THE SUN

Fire insurance has come to be not only a householder's security, but a national necessity. The home owner must protect his family and provide shelter; the renter must guard his household goods. Business concerns, factories, churches, schools, colleges and corporations must protect their property investments. The man who can thus provide the security of a community against financial loss from fire is its insurance agent, through his companies.

Advantages of Farm Accounts

Here are six reasons why farmers should strict and accurate records of their business.

1. Records aid the individual farmer in making his farm more efficient and profitable.
2. Records provide the best means whereby a fair taxable valuation of farm lands can be determined.
3. Records establish the facts which will guide the Farm Bureaus in planning their production programs along lines that will do most to increase farm profits.
4. Records furnish information on farming which the American Farm Bureau Federation needs in making accurate representations as to the farmers' economic position.

Practical Nurse Tells

Mrs. N. E. Snow, of Route 1, near Paris, Tenn., tells the story of her experience as follows:

"I am 62 years old and I have been a practical nurse for more than 20 years, taking mostly maternity cases. One of my daughters suffered from cramping at . . . She would just bend double and have to go to bed.
