### WAKING UP AGAIN WOMAN CHANGES THE MOVIES TODAY BOBBED HAIR HEADACHES

The War Department, rubbing its eyes and waking up a little, orders eighty-five flying machines, made in the United States. For ten machines by the Curtiss company \$250,000 will be paid, and for twenty-five from the Douglas company \$883,000, about. That's a start and, multiplied by a hundred, it would give the country a good beginning for an air fleet.

Fortunately Henry Ford and his son Edsel D. Ford are in the aircraft field. They will let us know what a flying machine ought to cost, and something about the theory that the "flying life" of an airplane engine is only about 100 hours. The Fords will give you an engine that, without expensive renewal of parts, will fly around the world ten times. They don't believe in an engine as short lived as an ice cream cone.

Just as the virtuous complain that women leave nothing to the imagination, they suddenly decide to cover up again. "Dress is to be more subtle" this season than in other seasons.

That isn't saying much, for there is nothing subtle about a lady barebacked to her waist in the evening, with a skirt above her knees in the day time.

But fashion really means to reform for the moment. Arms that have been naked from the top of the shoulder down, looking in some mottled cases like a butcher shop exhibit, are now to be covered with "soft mysterious veiling." Thanks for that, with or without the mystery. And shawls of brilliant colors, worn "to reveal personality," will cover up almost everything.

Thus again, we learn that it is always darkest before dawn. Women go just so far in one di-

rection, then turn around and go the other way, that's their charm.

Clothiers gathered in solemn conclave decide that the "real gentleman" must have a different necktie for every shirt, thus "demonstrating his artistic taste and his exclusiveness." Exclusiveness, doubtless, is desirable. But if each young American, for each fancy shirt and necktie that he would like to have, would develop a real working idea, the country would be better off than with every necktie factory working full blast. A man known only by his clothes belongs in the parrot house.

Twenty-one years ago about 250,000 people went once a week to the moving pictures. The price of admission was actually five cents. Now between seventeen and twenty-two millions go to see the moving pictures regularly, and the prices run up to three dollars a seat. Enterprises grow rapidly in the United States when people become really interested.

If your friend has a bad cold, be polite, smile, bow, say "I never saw you looking better," but don't shake hands.

That is the advice of Dr. Supp-well, of Michigan University. Influenza is spread by handshaking. You get the germs from your friend's hand, transfer them to your handkerchief and then to your nose.

Handshaking is foolish and archaic, anyhow, as foolish as Indians rubbing noses. Primitive man stretched out his right hand to show there was no knife in it, and to reassure the stranger. That's hardly necessary now.

"The shingle headache," or "bobbed hair neuralgia," has arrived, and was inevitable. Silly women, not content to cut their hair short, actually allow the barber to shave the back of the neck, uncovering that part of the body most sensitive to cold, the little hollow at the base of the skull.

Cut your hair that way, then motor with your back to the driver, and you have found the short cut to acute neuralgia and pneumonia.

At Council Bluffs, Jasper McDonald, negro, twenty-seven years old, pleads guilty to criminal assault, and within an hour is sentenced to life imprisonment. That is better than a lynching because of the effect on public opinion and respect for law. There is, unfortunately, the possibility of escape.

## HOW DOCTORS TREAT COLDS AND THE FLU

To break up a cold over night or to cut short an attack of gripe, influenza or sore throat, physicians and druggists are now recommending Calotabs, the nauseless Calomel tablet, that is purified from dangerous and sickening effects. Those who have tried it say that it acts like magic, by far more effective and certain than the old style calomel, heretofore recommended by physicians.

One or two Calotabs at bed time with a swallow of water,—that's all. No salts, no nausea nor the slightest interference with eating, work or pleasures. Next morning your cold has vanished and your system feels refreshed and purified. Calotabs are sold only in original sealed packages, price ten cents for the vest-pocket size; thirty-five cents for the large family package. Recommended and guaranteed by druggists. Your money back if you are not delighted.—adv.

Use a sandbox to see if the cotton seed will germinate well.

The cost of producing milk may be reduced by using pastures. The feed cost is generally the biggest expense item in producing milk.

## Uneasy Tight Feeling

"I used Theford's Black-Draught first for constipation," said Mrs. C. E. Buntin, of E. F. D. 5, Starkville, Miss. "I would feel dull, stupid, and have severe headaches, even feverish. I had an uneasy, tight feeling in my stomach. I read quite a bit about

## BLACK-DRAUGHT Liver Medicine

I began using it and soon my bowels acted regularly and I was greatly relieved. I used it every once in a while for about 18 years.

About two years ago I found I was having indigestion, a tight smothering in my chest, then severe pain, especially after eating sweets. I commenced taking just a pinch of Black-Draught after meals, and by doing this I could eat anything.

"I gave Black-Draught to my children for colds and headaches. I can certainly recommend it."

Black-Draught is used with satisfaction by millions. Get Theford's. Sold Everywhere.

Colds Cause Grip and Influenza  
LAXATIVE BROMO QUININE Tablets remove the cause. There is only one "Bromo Quinine." E. W. GROVE'S signature c. i. box. 30c.
