That our sweethearts must be looked at is a mandate mighty true, but, when she has galoshes on—wal, I dunno . . . do you? I seldom look at ankles, bein' prudent—more or less—but when we're forced to see 'em, then we ain't to blame, I guess.

I hate to see a tailored gal set out upon a trip, when there's every indication that her snaps has lost their grip, though galoshes might be graceful—even carry an appeal, if they didn't sag down, ornery-like, and loaf around the heel. I don't enjoy my privilege of actin' like a spy, when I need to elevate my chin, and let folks catch my eye.

And still, there's urgent reasons which command a feller's view—like the innocent attraction to a comely ladies' shoe. I couldn't think of nothin' that improves the searchin' mind, like glancin' at the beauties of a noble woman-kind; and while there's laws of comfort that we hardly dare forget, I never liked galoshes, and—I wouldn't have a sett.

Mr. J. H. Southall, of Raleigh, was in Louisburg Wednesday.

Mr. R. W. Hutcherson spent Sunday with his family at Reidsville.

Rev. G. F. Smith, of Littleton, was a visitor to Louisburg yesterday.

Mrs. R. M. Beasley, of Apex, was a visitor to Louisburg the past week.

Miss Mary B. Spencer, Miss Florence Silver and Mr. Hugh Pearce went to Raleigh Sunday.

Mrs. James B. King and little daughter, Martha Gray, are visiting her sister at Apalachicola, Fla.

Mr. J. E. Thomas went to Raleigh Friday to assist with the execution of the two negroes at the State prison.

Mrs. C. R. Bremner, who has been visiting her aunt, Miss Mary B. Spencer, returned to her home at Greensboro, Sunday.

Mr. Ernest Brewer, Manager, Mrs. P. H. Elkins, Secretary of the Chatham County Fair Association, N. C. Shiver, Chatham County Farm Agent, Mrs. Clarence Brady and Mr. and Mrs. E. H. Jordan, of Pittsboro, were visitors to Louisburg Wednesday.

Miss Caldwell will be at the home conveniences booth at the State Fair next week.

Every one visiting the State Fair should see the N. C. ham and bacon show in the Woman's building and note carefully the size, color, and cut of the prize winning hams and bacon. The judging will be done by experts and it will be an excellent lesson in the cutting and curing of farm meats.

The home demonstration kitchen has received this week a dilver, a present from the manufacturers. When first asked for one for the kitchen the company refused but when a promise was made to exhibit it at the county and state fairs they consented to donate one.

I visited Good Housekeeping Institute, reports Miss Caldwell who returned Sunday from a week's vacation spent in New York, and saw an array of household appliances being tested by their home economics staff. Those appliances that satisfactorily pass the tests are given the Good Housekeeping stamp of approval. The articles under test that day were mostly electrical devices, all manner of electrical fireless cookers, ovens, stoves were seen. One electrical range built to resemble a wall cabinet and screwed to the wall to save space. There were some new designs in electric refrigerators, most of them with compartments for freezing ice cream and for making small cubes of ice for tea. There was a new type of "dolly" washing machine, an ironing board that folded under the table top, a gas heated kitchen size clothes dryer. This last tho it may win the stamp of approval as being practical for city housekeepers would be of little value to housekeepers in the country who usually have ample outdoor room and sunshine for drying clothes.

At Wannamaker's there was exhibited six model kitchens. The kitchens being furnished in keeping with the size of the room and the means of the owner. In another department was shown the "house the budget built" showing styles of furniture suitable to different incomes.

I noticed many of the New York restaurants have turned the usual arrangement around and have the kitchen in front and the dining room back of it. You can stand on the sidewalk and see the food being prepared before you go in to dinner. This subject of food preparation is an all absorbing one. When visiting the steamship Leviathan I became so absorbed in seeing how food for the 4500 passengers and crew was stored, prepared, and served that I failed to give proper time to admiring the thousand dollar chandeliers, the hand painted tapestry, the marble and tile swimming pool and other marvels of this floating palace.

Native:—"You're wrong there, stranger. Some of the boys put a tack on that bunch—and Bill's too lazy to get off it."

**FOUR MORE DAYS.**

The special meetings at the Baptist church close Sunday evening. A very gracious time was had these past eleven days. The attendance has been very good. It has again been proven that the simple message of the love of Jesus Christ is in itself attractive. No other attraction is necessary. Resorting to other methods; stunts, vaudeville, catchy wording or advertising etc., is out of harmony with the Divine Plan for the Redemption of the souls of men.

The helper, Rev. John Archie McIver has conducted himself as a Christian gentleman. No unkind word has been uttered. No criticism of other churches has escaped his lips. A cordial word of welcome has been uttered frequently to those of other communions meeting with us. An effort has been made to establish more friendly understanding and fellowship between the various denominations.

The building was well filled last Sunday night, many sitting in the balconies. This congregation exceeded the one of the preceding Sunday notwithstanding the fact that services were being held as usual in the other churches of our town.

Attend the few remaining services, not forgetting the 10:00 o'clock morning service in the church.—Exchange, Tilden, Neb.
