## An Invitation

Make this bank your bank. Large enough, and old enough to handle safely any business any size which may be entrusted to our care—Yet small enough to give unremitting attention to the interests of the small depositor, and young enough to be virile and vigilant in all matters looking to the welfare and betterment of the community.

## Our Policy

This bank began life with an ideal in the minds of the founders, and that ideal was that banking is a profession. How well it has lived up to this ideal is attested by the unique position it holds and the reputation it now bears.

It has been careful, conservative and constructive in its policy since its organization in 1905. Its best efforts have been and are directed to the upbuilding of men and legitimate enterprises; towards furnishing a safe depository for the money of the people, avoiding speculations and promotions in whatever form they have come or however disguised as public enterprises.
