give a most interesting talk on any subject and introduced him to take the place of Dr. Brewer.

Rev. Mr. Howard made a most ex-cellent address taking for his sub-ject the three principles of the or-der, virtue, liberty and partictism. He said what we need is men of vis-ion, clean men. He said the Junior Order demanded that men be as clean as they demanded of young women.
In order that they may be clean men,
it was his opinion they should be
free men, able to look himself squarely in the face. And he wanted them to be loyal men. Loyal to their families, their friends, their country and their God.

loyalty to the flag of our country, and that it was its purpose to put a Bible inside and a flag on the top of every school house in the country. He spoke feelingly on the fraternal side of the question showing how the order looked after its membership and the dependent ones after the member had passed on to his reward, and painted a beautiful picture of the orphanage at Tiffin, Ohio, where the orphan children find a home and learn to be useful citizens, adding that a duplicate of it was now in course of erection at Lexington, North Carolina.
