Here Are Some of The Shortsighted Views Of Life:

LIVING beyond one's means for appearance sake.
 WITH increased earnings, desire to increase spending.
 TOO MUCH SHOW, living for today, making no preparation for tomorrow.

ALL OF THIS may be human nature, but it's the curse of the times.

IT IS THE CAUSE OF

- WANT
- FAILURE
- DISTRESS

THE SURE WAY to be prepared for unexpected misfortunes is to have a bank book in your name showing an increased balance with growing interest credits.

USE OUR BANK; it is here for the use and benefit of everybody in this community.

OUR RALEIGH LETTER

By M. L. Shipman

Raleigh, May 31.—Raleigh citizens today were looking forward to Saturday when the primary election will be held. The week however held interest for Governor McLean's announcement that the State buildings must be completed fire proofed in the future before payment will be made with interest and approval generally. The decision of the Supreme Court spelled doom for Alvin Mansel's life unless the Governor should see fit to save him from the electric chair. Governor McLean also expressed his position on state officers acting as prohibition agents under President Coolidge's recent order. The Attorney General issued a ruling to prevent so-called "state democrats" and "national republicans" from voting in the primary.

The election of this week will end the contest between Robert R. Reynolds and Senator Lee S. Overman. It has been a clean fight throughout and while Reynolds is given the short end of the odds to win, all admit that "our Bob" has gotten considerable support on his personal solicitations. Manager Siler of the Overman campaign expects his man to win but is making no predictions other than that Reynolds likewise is making no extravagant claims. Locally the election has been waged along the lines of law enforcement, Solicitor Evans and Judge Calvert being lined up and charging that the other side has attracted all those who do not wish law enforcement. It has been a hot fight and the result cannot be foretold. Evans is opposed by L. S. Brassfield, young attorney and Calvert has as his opposition Judge Harris of the city court and Wiley M. Person, the latter running on a declaration he made after Judge Calvert ruled unfavorably against his plea to throw the Tri-State Tobacco Growers Cooperative Association into bankruptcy that he would see Calvert had opposition for re-election. In other sections of the state it is reported the primary campaign has been clean and for the most part devoid of any outstanding issues.

Commissioner Stacey Wade of the Insurance Department announced early in the week that the fire loss in the State for April had been the largest April loss on record, \$1,056,330. The loss was increased considerably by the burning of state buildings in various sections. Later in the week Governor McLean issued his order to heads of the institutions that in the future all state buildings must be completely fire proofed and that no contract will be paid for until finished with fire precautions thought necessary by the insurance department. The order was received with gratification by Mr. Wade and met with general approval.

Alvin Mansel, convicted of attacking a white woman of Asheville must die in the electric chair next month unless Governor McLean intervenes. The Supreme Court decided during the week that his appeal was not based on good grounds and denied it. Mansel was the objective of a mob attack on the Asheville jail and in the same batch of decisions one of the mob leaders would have to serve a jail sentence imposed by a lower court for his part in the jail attack.

State officers cannot serve as prohibition agents under the recent order of President Coolidge creating all state, county and municipal officers needed as special deputies to enforce prohibition. Governor McLean in giving out this statement declares the constitution prohibits state officers from serving on the federal payroll except deputy sheriffs who are not elected as officers. He says the sheriffs themselves must decide if their counties shall be allowed to serve in the capacity designated by Mr. Coolidge. Republicans who vote the Democratic

ticket in the state elections but the Republican ticket in national elections cannot vote the Democratic ticket this year. Attorney General Nash rules that they must show that they are Democrats before they can vote the Democratic ticket. A split ticket will not be tolerated, he says. A man must vote all democrat or all republican the order applying equally to democrats visiting the republican ticket.

The Council of State paid \$17,346 for some old bonds found in the papers of the fathers of Miss Shehann. The Highway Commission expects to put down 600 miles of hard surfacing this year. Commissioner of Pardons Hoyle Sink believes that hard labor is the solution of crime. A baby was born in state prison during the week to an inmate. A woman sent up from Macon county, Raleigh stands sixth in population among North Carolina cities, the Department of Commerce says while Winston-Salem stands first and second only to Charleston, S. C., in both Carolinas.

The Hardware Association of the Carolinas is to meet in this city for its annual sessions June 8, 9, and 10 at the Sir Walter Hotel. The membership is composed of hardware dealers of North and South Carolina and are expected here 200 strong, according to estimate of the committee on entertainment. The convention will be featured by a large manufacturers' exhibit in the city auditorium and by speeches from prominent men of the two Carolinas and elsewhere.

The Raleigh Kiwanis Car," littered with advertisements of Raleigh and North Carolina, left this morning for a ten day tour of the middle west and west with Montreal, Canada, and the national Kiwanis convention one of the objects sought. A number of Kiwanians, whose cooperation in the purchase of the car was a special journey, were aboard. H. O. Caviness, chairman of the "purchasing committee," at the wheel. H. Hoyle Sink, Pardon Commissioner, expresses the opinion that the big bootleggers pick "the blind, the halt and the maimed" as their agents with the idea that the courts are more lenient in cases brought against unfortunates of the class named, this type of citizens being easily tempted because of the difficulties of making a living. Careful observation leads the Commissioner to the conclusion recited and he is in a position to "speak with authority."

Federal statistics recently made public indicate that North Carolina leads the United States in birth rate, their being 28.8 per 1000 population in 1925, the births for that period being 1,727,487 for the entire country, and 995,074 deaths. The lowest birth rate was in Montana and the highest death rate in Vermont.

Authorities of State College are pleased with the publicity given its poultry department through the "International Review of the Science and Practice of Agriculture" published by the International Agricultural Institute, Rome, Italy. The article is based upon conclusions set forth by Dr. B. F. Kaupp, head of the poultry department of the local institution, published in Technical Bulletin No. 2 of the Experiment Station, diseases to poultry and cures considered most successful.

The Southern Agriculturist finds that, with the exception of Florida, North Carolina last year showed a larger increase in the number of automobiles purchased from any other southern state, the increase being \$6,892 in Florida and \$1,972 in North Carolina. However, thirteen southern states are said to have a greater number of cars than has North Carolina, which last year listed \$43,115, two-thirds of them being Ford. Texas reported \$17,765 on January 1st.

The six weeks drought has wrought incalculable injury in the central part of the state and farmers are said to be greatly discouraged. Early vegetables and trucking generally have been seriously retarded. Cotton, corn

peach and other crops have suffered immensely. Tobacco plants set in the dust have dried up and re-planting promises scarcely any better results, at this writing.

Annual sale of automobile license plates is now on and Commissioner Doughton despairs of setting himself up in new quarters now in process of preparation until the rush period shall have ended around the first of July. The new building should, under the contract, have been completed in December, but the contractors contend that a change of plans delayed their operations.

A reclassification based on the horsepower of certain makes of cars places the Dodge in the \$20 class this year, instead of \$12.50 heretofore required for license plates. The license bureau estimates the number of Dodge cars in the State to be 15,000 and that the increase in license will net the department \$125,000 more than last year, rating the horsepower at 24.03.

Director T. E. Browne of the State College Summer school, figures an increased attendance this summer and is making extensive plans to handle all who may elect to avail themselves of the course of instructions offered. The reorganized courses of study for North Carolina High Schools, to be in charge of Dr. J. Henry Highsmith, will be given special attention.

She Looks It Too!

Doctors are agreed that Frances Anglehart is the healthiest child in all the District of Columbia. She was recently enthroned as Health Queen in the Children's Pageant held in the city of magnificent distances.

ICE CREAM SUPPER

There will be an ice cream supper given at Harris Chapel Church Friday night June 4th, for the benefit of the church. Everybody invited to come and help a good cause.

WOMANS CLUB TO MEET

The June meeting of the Womens Club will be held at the lunch room of the Mills High School on Thursday afternoon, June 10th, at 4 o'clock. MRS. J. L. PALMER, Pres. MRS. W. R. MILLS, Secy.

He who hesitates should be equipped with a good stout rear bumper.
