To Stop a Cough Quick
take **HAYES' HEALING HONEY**, a
cough medicine which stops the cough by
healing the inflamed and irritated tissues.
A box of **GROVES' O-PEN-TRATE**
SALVE for Chest Colds, Head Colds and
Croup is enclosed with every bottle of
HAYES' HEALING HONEY. The salve
should be rubbed on the chest and throat
of children suffering from a Cold or Croup.
The healing effect of Hayes' Healing Honey is
due to the throat soothing with the healing effect of
Groves' O-Pen-Trate Salve through the pores of
the skin and mucous membrane.
Both remedies are packed in one carton and the
cost of the combined treatment is 50c.
Write for your duplicate for **HAYES'**
HEALING HONEY.

**SUCCESSFUL YEAR
HAD BY BAPTISTS**

Convention at Houston Heard Many
Gratifying Reports on Work.
Evolution Denounced.

\$9,000,000 GOAL IS SET

This Objective for Missions and
Benevolences to Be Sought By
Co-operative Program Commission
for 1927.

Following an unusually good record
in the work of the local churches
and large achievements on the mission
fields, there has just been held
at Houston, Texas, one of the most
successful sessions of the Southern
Baptist Convention in recent years.
The session was marked by unusual
unity, definiteness of purpose and
determination to carry forward the
work of the Co-operative Program.

DR. GEO. W. McDANIEL
President Southern Baptist Convention.

Following the re-election of Dr.
George W. McDaniel, Richmond, Va.,
as president, he sounded in his
inaugural address a conviction on the
theory of evolution that was promptly
and unanimously adopted by the
Convention as its own sentiment.
Dr. McDaniel said:

"I am happy to believe that this
Convention accepts Genesis as teaching
that man was the special creation
of God and rejects every theory,
evolution or other, which teaches
that man originated in, or came by
way of, a lower animal ancestry."

With the evolution question disposed
of, the Convention was able to
proceed with a consideration of its
great missionary and benevolent
enterprises.

Here are some of the outstanding
developments of the Convention:

GOAL OF \$9,000,000 SET UP

1. In the hope of enabling the
mission boards and other agencies
of the Convention to take care of
their indebtedness gradually without
having to too greatly curtail their
present work, an objective of \$9,000,
000 for missions, education and benevolences
was set up for 1927, on
recommendation of the Co-operative
Program Commission. This money
will be applied to foreign, home and
state missions, Baptist schools,
orphanages and hospitals and ministerial
relief, thus taking care of
both the state and Southwide Baptist
work. It is hoped the Southwide
portion of the budget will
amount to at least \$4,000,000.

2. An effort will be made to
enlist 500,000 titheers during the next
year.

3. The Foreign Mission Board
reported 12,369 baptisms on its fields
during the year, a gain of about
1,000 over the previous year. The
board has 1,815 churches on the for-
eign fields with 140,438 members,
3,247 out-stations where preaching
services are held from time to time,
and 228 missionaries and 2,644 native
Christian workers employed in
47 countries.

4. Among the results for the year
reported by the Home Mission Board
were 323 missionaries employed,
12,544 baptisms, 25,226 additions to
the churches, 100 new churches and
423 Sunday schools organized, and
423 church houses built or improved.

**DENOMINATION GREW DURING
YEAR**

5. The Sunday School Board
reported total business receipts for the
year of \$1,710,471. Of this amount
\$222,444 was put back into the gen-
eral work of the denomination. A total
of \$2,038 awards in teacher
training were made, 403 churches
were aided by the Architectural De-
partment in drawing plans for new
houses of worship, the number of
attended Sunday schools reached 546.

With the gains for the past year
the main figures of the denomination
are now given by the statistical
secretary of the Convention as fol-
lows: 26,467 churches, 19,906 or-
dained ministers, 2,549,530 church
members, 21,766 Sunday schools with
2,221,222 pupils, 20,948 church
houses, 2,197 pastors' homes, \$145,
904,878 invested in local church
property, \$10,771,574 contributed to
local church objects, \$2,225,426 to
missions and benevolences and \$29,
000,000 to all purposes during the
past year.
The year is now ripe for a dis-
cussion of the work of the denomination
and especially in a support of
the great missionary and benevolent
enterprises fostered by the Co-
operative Program, the Convention
Held at Houston.

MRS. HOOVER TURNS BRICKLAYER

Mrs. Herbert Hoover, wife of the Secretary of Commerce in President Coolidge's cabinet, is shown laying the cornerstone for the model home being erected by Better Homes in America organization at the Sesqui-Centennial International Exposition, in Philadelphia June 1 to December 1 to celebrate 150 years of American Independence. Opposite Mrs. Hoover stands Mrs. Vance McCormick of Harrisburg. The Girl Scouts grouped around the women will operate the house.

Every once in a while there's a The law of gravity wasn't discover-
prohibition gets the blame for that, has so well said, but many of the pre-
sented-day laws were.

**KWIKDETH
KILLS FLIES**

When the room is full of buzzing, dangerous flies and life doesn't seem worth living when your nerves are on edge, and you feel that the next "swat" you take at a fly will take with it all the good temper you possess—

TRY KWIKDETH

Fill your sprayer with Kwikdeth, then spray a cloud of Kwikdeth into the room until the room is completely full, being careful to first close tightly all doors and windows. How nice it smells and how harmless it is to wallpaper, furniture, humans and animals! It leaves no dirt, no mess, and in a few minutes every fly will be dead.

½ Pint, \$.50; Pint, \$.75; 1-gal., \$ 1.25

BOYS AND GIRLS CLUB WORK

There is a reason why rural as well as town and city business men should support club work among boys and girls, who will be the men and women in a very short space of time.

The members of the club are of school age and are easily taught valuable lessons. The club develops the best efforts of the members through cooperation, and it teaches cooperation and organization, which will be valuable to the farmers of the future.

Club work also develops leadership that will likewise prove of great benefit to agriculture in the next generation, and introduces bookkeeping and better business methods.

Club work also supplies a community interest that is invaluable in keeping boys and girls on the farm and the meetings held by the clubs produce ease of expression and self possession.

Most valuable, perhaps, of all the advantages that might be ascribed to club work, is the fact that it provides a job with pay for farm boys and girls during the vacation season.

Why any intelligent man, whether he be country or city business man, can not enthusiastically lend his support to the boys' and girls' club program, is beyond all comprehension.

Esso

*The new and magical
MOTOR FUEL*

IT'S ESSO—better than the very best motor fuel you've ever used.

It's ESSO—developed by the Standard Oil Company (N. J.) from its fifty-six years of refining experience.

ESSO is more than gasoline. It is a custom-built fuel which not only adds new power to the motor, but endows it with new life and longer life.

What does ESSO do?

First of all, ESSO is more powerful than any other motor fuel. It eliminates knocks. It unleashes the latent power of your motor and lets it develop its full rated horse-power.

And ESSO has pick-up—such a pick-up as you've dreamed of! Yet ESSO has something more than pick-up. It has the extra power that will enable you to take the long tough hills on high.

Test ESSO! Start clean with a tankful. Choose your favorite and most difficult hill. Feel ESSO put two extra cylinders in your engine. Judge it by any standard of performance that you know, and then you will realize that we have not in any way over-stated the magical properties of ESSO.

Red in Color. Packed with Power. Costs 5c more—worth it.

"Standard" Gasoline
is the ideal fuel for normal requirements

ESSO is manufactured to meet the following special conditions:

1. For motors that knock.
2. For motors with excessive carbon.
3. For high compression motors.
4. For motors which from long use no longer develop full power.
5. For motors operating under excessive loads.
6. For any motor from which the driver demands extra power and performance.
