WORDS FROM GREAT MEN

"The President Is Not the King But the Prima Minister. The People Are King."—Gouverneur Morris.

"The World Is Not Made for the Prosperous Alone, nor for the Strong."—George W. Curtis.

Public offices seem to come right high in Pennsylvania as reports show there was around two million dollars spent in the recent primary for United States Senator.

The Cole-Ormond damage suit was settled out of court in Raleigh this week for a consideration of \$15,000. This closes a chapter in the history of North Carolina justice that will always be a blotch upon its fair name.

The State Supreme Court has recently upheld the law in the construction of the State Highways in that they should follow the county seat to county seat locations. The Highway Commission might have been right from an economical standpoint but it has kept the faith with the Legislature badly.

With as many fine school teachers and superintendents as North Carolina has the honor to boast of, it should be especially gratifying to every individual person in Franklin county to know that the colleges of the State have called upon Franklin county to furnish three of the teachers for the summer schools. Supt. E. L. Best and Miss Susie Hayes at Wake Forest, and Supt. W. R. Mills at Teachers College, Greenville, have been drafted into service by these well known institutions to assist with the great work of training the teachers of the State in their important chosen profession. That they have been selected from the scores and hundreds of teachers of the State is a unique honor upon them and a recognition of real service, and should be a source of great pride and appreciation to the people of Franklin county.

The position that some of our people take that Mr. W. M. Person should resign as prosecuting attorney for Franklin Recorders Court because of the fact that he actually resides in Raleigh is well taken. Mr. Person claims Franklin county as his home, and upon that votes in Louisburg and holds the position of prosecuting attorney of the Recorders Court, and when he runs for Judge or Congress he delights in claiming Franklin county as his home. But we seriously doubt if he could vote in Franklin county if the law was strictly enforced. Mr. Person should get out and let this position go to some of the young lawyers of Franklin county who actually reside in the county. Although the law under which the court was established does not mention that an officer should be a resident of the county, yet we are sure it was not contemplated that any set of commissioners would go out of their county to fill a county office. There is little doubt but that the question lies within the province of the Board of County Commissioners to determine the question and take action.

A DREAMER'S REWARD

You say they call you a dreamer, I think you are three times blest, For me to call you a dreamer Is just like a sweet caress. For when you are tired and weary Of all the folks around, Before anyone knows You are travelling afar, Maybe in Egypt or Panama; But when you are tired of roaming You give a sigh and a shake And find you've only been dreaming At home in the Old North State. —FRANCES TONKEL.

Dr. E. Rappart of Durham will be at Louisburg at the office formerly occupied by Dr. Moston Wednesday, June 23rd to examine eyes and fit glasses. To secure a pair of good fitting glasses does not cost much money, but a little of your time and gives a lasting satisfaction.

To The Voters of Franklin County

I regret to have to call upon you again to vote for me.

But Mr. Palmer has called for a second primary for Judge of the Recorders Court.

Go to the polls Saturday, July 3rd, carry your family, and neighbors with you and vote for S. A. Newell for Recorder.

Your vote will be greatly appreciated.

S. A. NEWELL.

COMPLIMENTARY TO FRANKLIN COUNTY NEGRO

Speaking of the commencement of the Hartshorne colored school, of Hartshorne, Oklahoma, of which Prof. L. N. Neal, who was born and raised in Franklin county the Hartshorne Sun says:

Remarks were made by Miss Cunningham, Superintendent Brooks Institute, Mrs. Omar Laws, Mr. and Mrs. Schmieding, and Mr. and Mrs. M. H. Ross, chairman of the board of education, who promised us to enlarge our building and give us an additional teacher for next term, and congratulated the teachers for their efforts this term. All the addresses by our white friends were encouraging. All the speakers emphasized the point that we are improving and that the best results can be obtained by work, and we must work together to build a good country.

Democracy can only be obtained through education, and our schools must teach the essentials and our students must grasp them to be able to enjoy true citizenship.

Principal L. N. Neal believes in the education of the head, heart and hand and advised the class to use their time wisely, to think before they speak, to be honest, to keep busy, and all kinds of work is honorable, and whatever you do, do well, do your best—give to the world the best you have and the best will come back to you.

Closing address and presentation of diplomas was made by Superintendent C. E. Fair. He reviewed past achievements and emphasized future possibilities. He was at his best. His address will live long in the life of those who heard him. It was indeed a fine master-piece on the aims and objects of our education.

MOSAIC DISEASE CAUSES HEAVY TOBACCO LOSSES

Raleigh, June 14—There is a disease of tobacco in North Carolina about which no one knows very much, yet which causes heavy losses in the crop each year. This is tobacco mosaic and many growers fail to realize the extent of the reduction in crop value that this trouble causes.

"We don't know much about mosaic," says Dr. S. G. Lehman, plant pathologist for the North Carolina Experiment Station. "It causes a marked stunting of affected plants and a corresponding reduction in the size of the leaves. Stunting is more pronounced when the plants are attacked as seedlings and from such plants there are few leaves worth gathering. When the plants are half grown, the stunting is less perceptible and the grower is frequently unaware of any loss from it. However, the money value of his tobacco may be reduced from 10 to 20 per cent even then. The infected leaves are of poor quality, fail to cure properly and are subject to a lower grade than the healthy leaves. Generally, the grower will attribute this to the weather, to fertilizer or to improper curing and wonder why his neighbor did so much better."

Dr. Lehman states that mosaic is caused by virus. This is transferable to certain other cultivated plants like the tomato, pepper or eggplant where it produces the same symptoms as in tobacco. Then too it is known that the disease passes the winter in such plants as the horse nettle or ground cherry, which are perennials. The cause of the trouble is not definitely known but it may be a good idea to clean up infected fields very carefully this year and to cut down and kill all weeds adjacent to such a field.

MT. ZION G. A.

Mt. Zion G. A. Circle No. 2 met June 12 with Miss Myrtice Upchurch. The meeting was called to order by the president, Irma Gupton.

The following program was rendered: Hymn, There is power in the blood. Devotional, Bettie B. Marshall. Prayer, Helen Tharrington. Hymn, The old rugged cross. Roll call. Personal service: Forty-nine visits,

Hymn, Let the lower lights be burning.

Roll call.

Benediction by Mrs. J. W. Neal.

MRS. P. M. SYKES, Pres. MATTIE DEMENT, Sec & Treas.

FOR CONSTABLE, LOUISBURG TOWNSHIP

While I poled the highest number of votes in the first, my opponent has asked for a second primary. I desire to thank my friends for the splendid support already given and assure the people of the township that I will appreciate their votes in the primary to be held July 3rd.

I am in to win.

Your friend, J. E. (CRAP) THOMAS.

THE MODERN MONTE CRISTO

After a search that led through untold hardships, the Count of Monte Cristo found the secret cavern. Gold, jewels and untold wealth were his.

But think of this! Simply by spending a few minutes running through the advertisements in this paper, you can find a wealth of things that Monte Cristo could never know. Things that make your life rich in comforts; countless conveniences that iron out the mechanics of existence! Economics that bring within your reach things that were once priceless!

We sometimes overlook the important role that advertising plays in making our lives pleasant and altogether livable. Advertising is as much a part of today's life as electricity, antiseptic surgery or automobiles. It keeps us up-to-date on many things we need to live profitably, happy and useful lives. It presents for our approval articles of all kinds and for all purposes. The requirements of each member of the family are met by advertised offers of good merchandise and proved value.

The advertisements save time, money and effort for those who read them and follow their guidance. They are practical guarantees of satisfaction.

Don't put down this paper without reading the advertisements.

THANKS

We wish to thank one and all for their kindness and faithful service to us during the long illness and death of our loved one. Especially do we thank Mr. Wade Moore, Frank Ayscue, J. E. and Willie Winn for their devoted kindness. We thank each one for the flowers given.

MRS. JIM FINCH and Children.

Demonstration Week THE GREAT MAJESTIC RANGE

Read what a teacher of Home Economics says about THE GREAT MAJESTIC RANGE.

Dear Sirs:-

I should like to say just a few words for your MAJESTIC RANGE.

I have found it so highly satisfactory that I should like for others to know something of its value. I have had a great deal of experience with the MAJESTIC RANGE, and I don't believe there is a better stove to be found. The MAJESTIC RANGE is so quickly and easily heated and the heat can be so easily regulated that it is a real pleasure to cook with it.

We have been using a MAJESTIC RANGE in our Home Economics Department for three years, and we have enjoyed it so much. We feel very fortunate in having one in our Department.

I hope that the day will come when every housekeeper will be the proud possessor of a MAJESTIC RANGE.

Very truly yours, MAY FISHER, Teacher of Home Economics, Mills High School.

A ten dollar set of Solid Copper or Enameled cooking ware

FREE

with each MAJESTIC RANGE sold during Demonstration week June 21st to 26th.

Come in and inspect our exhibit.
