Pains

disappeared

"SEVERAL years ago I was badly run-down," says Mrs. John Bunch, R. F. D. 3, Columbia, S. C. "I could not do any of my work. I was so weak I could not wash a dish. My back and sides hurt me at times dreadfully. I dragged around until I finally got down in bed."

Then, explains Mrs. Bunch, she happened to read about Cardui, the woman's tonic, and decided to give it a thorough trial, the results of which she describes below:

"It seemed to reach the cause of my trouble at once. I did not take it long before my appetite began to improve. I gained in weight from 114 pounds until now I weigh 125 pounds. I soon was able to be up around the house. I took up my household duties and was delighted with my returning strength."

"I now do all my own work. The pains in my sides and back have disappeared and I feel like a different person."

Cardui has been helping suffering women for nearly 50 years. Sold by all druggists.

About Your Health

Things You Should Know

FRESH VEGETABLES.

You sit down at your radio and "tune in" for the biggest city you get will reach; you listen to the program, which usually embodies that plaintive song, "Thank God for a Garden." The singer perhaps exists more than thirty-five miles away from anything like a garden, and buys her vegetables after it has passed through a dozen hands possibly including one manufacturing company!

The value of the real garden is inestimable. Out in the country where the sweet rain falls from heaven—where pure soil nourishes the fresh, tender plants; where the peas, beans, radishes, lettuce, onions, and what not, grow to perfection in the purest air imaginable; where strawberries, raspberries, currants, gooseberries, cherries, ripen in the sunshine. Where even the cucumbers are so harmless! Where tomatoes are real, where the hand of the "middle man" the wholesaler, the "jobber" and the refrigerator bin are unknown. Is it any wonder that rural life stands enviable in its completeness?

Fresh garden-grown food is the best known diet. Here the vitamins are at its best and highest potency. Here the protein in the vegetable is manufactured in Nature's wonderful laboratory. Here the plant juices supply the body with everything needed for its restoration and recreation.

Recently I read that we have about 200 new diseases, since the advent of scientific canning, curing, sterilizing, and pasteurization! It's enough to set one to thinking. Some time ago, I was horrified to find in one of our canned soups—a standard variety—a thousand or so of little starch discs, each bearing letters of the alphabet, presumably advertising! Ye Gods—what next?

Next Week—
"SUDDEN IN ACTION".
