

How Doctors Treat Colds and the Flu

To break up a cold overnight or to cut short an attack of grippe, influenza, sore throat or tonsillitis, physicians and druggists are now recommending Calotabs, the purified and refined calomel compound tablet that works the effects of calomel and salts combined, without the unpleasant effects of either.

One or two Calotabs at bed-time with a swallow of water,—that's all. No salts, no nausea nor the slightest interference with your eating, work or pleasure. Next morning your cold has vanished, your system is thoroughly purified and you are feeling fine with a hearty appetite for breakfast. Eat what you please,—no danger.

Get a family package, containing full directions, only 35 cents. At any drug store. (adv)

HOOVER'S PLAN. DON'T KISS THE BABY. CONGRESS MEETS. 290,000,000 MAN POWER.

Secretary Hoover's plan for waterways in the United States is a magnificent, common-sense presentation of what this country should do.

Mr. Hoover shows that 3,000,000 horsepower, more than three times the amount now taken from Niagara Falls, could be developed on the Tennessee and Cumberland rivers. Reservoirs and dams in connection with this development would check floods in the Mississippi valley, and provide a six-foot channel connecting the Tennessee and Cumberland with the Ohio and Mississippi.

The South knows what that power, now wasted, would mean to Atlanta, Birmingham, Chattanooga and Nashville.

That is only one item in a great programme that the will of the American people should put through.

Dr. Bundesen, Health Commissioner of Chicago, says many fathers and mothers "kiss their babies into the grave."

To kiss an infant on the mouth is a crime.

Parents stupid enough to allow strangers to kiss their children almost deserve the result.

An infant's blood lacks the protective strength, the disease fighting leucocytes, that come later in life. For that reason consumption nearly always starts before a child is two years old. Millions of unfortunate children have had tubercular germs planted in their mouths by loving but ignorant mothers. Kiss your baby on top of its head.

Let no one else kiss or handle it.

Congress, resuming business, will find the indignant farmer sitting on the Capitol steps telling the big income taxpayers, "Until the Government does something for us farmers, YOU don't get that refund of \$250,000,000."

Lord Rothermere says Britain misses prosperity by failure to develop electric power. "The economic welfare of the United States," says he, "is based more than anything else on the fact that she has 29,000,000 electrical horsepower in her factories, equal to 290,000,000 human workers."

Joseph S. Donovan knew exactly what he wanted when he went to work in a carpet factory for \$1.50 a week. While he was working in the shop he said he would make a million by the time he was forty-five and retire.

Last September, not yet forty-four, he had made his million and retired as he promised. Now he is dead.

The best thing, when you have made your first million, is to go on and make the second. It isn't the money, but the fact that you are working, which enables others to find employment and independence.

The right kind of American begins his rest when the undertaker gets him. That is a long and an early enough rest for anybody.

There is no room on the earth for a parasite and any man that stops working, before he's ninety, is that.

Dr. Spahlinger, Swiss scientist, has shown that cattle can be made immune to tuberculosis by vaccination.

The fight against tuberculosis could be made successfully without vaccination, although that would be a great blessing, should it prove successful in advanced cases.

Good food, fresh air, rest and reasonable exercise are the tuberculosis cures that nature supplies.

Supreme Court Justice William Harmon Black discommends "chicken-hearted judges and juries" that encourage crime, wants quick trial with two-thirds of the jury deciding, no unanimous vote necessary.

The two-thirds idea would not suit criminals, and the prosperous among them would be obliged to purchase at least five of twelve jurors, whereas now one or two persons "game guys" can prevent conviction.

Speeder in Court:—Your honor, I wasn't going 40 miles an hour. Nor was I going 30 or 20, nor 10. I was hardly moving when the officer came up.

Judge:—I'll have to stop this or you'll be backing over someone. Ten dollars!
