

LOUISBURG KIWANIS MEET AT CEDAR ROCK

The Louisburg Kiwanis Club held its weekly meeting Friday night at Cedar Rock. At seven o'clock the members of the club and the visitors were served to a delightful barbecue supper, which consisted of barbecue, fried chicken, slaw, light bread, corn bread, iced tea and water. After everyone had eaten to the extent of their capacity and had greatly enjoyed the feast, they assembled in a body in the auditorium in the Cedar Rock school where those present were entertained by a program prepared by David Harris. With Major Boddie, president, presiding, the meeting was called to order and the minutes were read and approved. America was sung. Arthur Fleming was in charge of the stunts for the night. He called upon John Archie McIver, W. R. Parsons, Wayland Watson, Sid Holden, W. E. White and Gaither Beam to step upon the platform. After telling jokes on them he separated them into two groups of three. To the first group, John Archie McIver, W. R. Parsons and Wayland Watson, Dr. Fleming handed three bottles of grape juice. The purpose of this game was to see who could finish drinking the contents of the bottle first, all starting when the signal was given. Wayland Watson finished before the others had hardly begun and he won the prize. The next group with W. R. Parsons entered into a balloon race. Each folding his hands behind him, Dr. Fleming placed a balloon in each of their mouths and told them to see who could burst the balloon first. In W. R. Parsons won, receiving a prize.

After the games were fully enjoyed, David Harris introduced with high complimentary remarks Professor W. R. Mills, Superintendent of Mills High School of Louisburg and a very active member of Louisburg Kiwanis Club. Supt. Mills assured the people that he was no speaker and in order not to insult Major Boddie's ability in choosing a speaker he said that he was the last resort but since he was asked to talk, fulfilling his duty as a Kiwanian, he must say something. In his interesting manner he told of the necessity of unselfish cooperation between the rural and town people. There have always been conflicts between the rural and town people but they are gradually disappearing. Fair and just deals must exist between the two for strict cooperation to be there. We must help others and not expect others to help us. The intermingling of the country and town people which results in cooperation is great and helpful. As an ending, Supt. Mills said if this unselfish cooperation existed the question "Am I my brother's keeper?" will be answered in the affirmative. Service above self is a fine motto for all.

David Harris then asked to hear from some Cedar Rock folks since they had heard from the streets of Louisburg. T. H. Sledge, superintendent of the Edward Best School in behalf of that community thanked Supt. Mills for his talk and added that it would be a great accomplishment if the boys and girls would be trained in such a way as to use rightly and have proper control of the vast power placed about them.

After thanking the people of the Cedar Rock community for their invitation to meet there and for the delightful supper and after singing the Star Spangled Banner, Major Boddie dismissed the meeting.

Malcolm McKinnis had charge of the music which furnished much enjoyment throughout the meeting.

This meeting was held at Cedar Rock in keeping with the policy of the club to meet at different places in the county to bring about a more friendly relationship between the rural and town people. This meeting was thought to be a great success.

The supper was furnished and served by the ladies of Cedar Rock Baptist church and the receipts amounting to \$95.00 net, were used for the benefit of the church.

Breaks Jail

About five o'clock Tuesday afternoon several prisoners in the Franklin county jail succeeded in breaking jail and gaining their freedom. Officers were immediately notified and gave chase. Those leaving the jail were Joe Dickens, Jim Byrd, George Lee and Sol Williamson. Dickens and Williamson were caught and returned to their cells.

The prisoners, who were allowed to use the corridor because of the extremely hot weather and to get exercise made their escape by the use of some iron pipe slipped to them by an outsider, by prying open the door.

Constable Wiggs, with his blood hounds, assisted in the chase and capture.

SEN. JOE T. ROBINSON'S SPEECH OF ACCEPTANCE

"Voters are interested, not alone in the problems and issues with which the campaign is expected to deal, but also in the personal characteristics of the candidate."

"Numerous political serpents are hissing in the dark and striking from cover, and with venomous malice seek to poison the thoughts and arouse the prejudice of those who will decide issues of far reaching importance."

"Sound public policy encourages full, frank and fearless discussion of issues and records. It discourages misrepresentation, perversion and falsehood."

"The spokesman of a party proves himself unworthy if he knowingly accepts advantages from falsehood, even though not uttered or inspired by himself."

"The plan announced by Mr. Hoover for the alleged relief of agriculture, contemplated the contraction of the farm industry so that production in excess of the home demand would be eliminated, and the export field left entirely to the industrial exporter."

"The Republican party is either incapable of successfully dealing with the (farm) question or has deliberately violated its express promises to the farmers of the nation."

"Mr. Hoover, as the President's trusted adviser, is perhaps more directly responsible for the failure of farm relief legislation during the eight years referred to than any other single political leader."

"Will the farmers of the United States, who have waited eight years for Mr. Hoover and his associates to serve them, accept the tariff as a remedy for depression in farm products whose domestic prices are controlled in markets not shielded by the tariff wall?"

"If the farmers of the United States must wait until transportation rates are sufficiently reduced by means of waterways to bring them prosperity, they may as well give up the fight and accept the humiliation and ruin which has threatened them throughout the last eight years."

"If (cooperative marketing) is to be regarded as of controlling value in the solution of the farm problem, why have the administrations in which Mr. Hoover has served as a Cabinet Member failed to apply this remedy with promptness?"

"We repudiate Mr. Hoover's proposal to limit farm products to the domestic demand, as calculated to be little, rather than to encourage the great industry of agriculture."

"The Democratic party recognizes the right of farmers to lead in the development of farm policies."

"The Democratic party recognizes that adequate credit facilities and better administration of the Farm Loan system (must) be assured in the interest of the farmers."

"The necessity is recognized by the Democratic party for an organized agriculture through which the farmer may work out and apply his own remedies, as well as receive government aid, through a Federal Farm Board."

"If a more equitable and effective plan than that comprised by the equalization fee is discovered, it should be adopted."

"The (Democratic) convention recognized that the Democratic party is neither a prohibition nor an anti-prohibition organization, but if entrusted with power its duty would be to enforce all laws."

"To one who for twenty-five years has uniformly supported measures for prohibition, it has been disappointing to note the methods and agencies employed by the Republican party in the enforcement of national prohibition laws."

"The (prohibition) question should not be treated as merely political, but rather as moral and economic."

"President Wilson vetoed the Volstead act. The integrity of his purpose was not questioned; his good faith was generally conceded."

"Governor Smith's position is an unqualified acceptance of the obligation to enforce the (prohibition) law to the best of his ability."

"Throughout the last two administrations the Prohibition Bureau has been under the Treasury Department, whose head, prior to national prohibition was largely interested in the liquor business."

"It is in one sense an attempt at nullification to suggest changes in the Constitution or the law."

"Honesty in public affairs is of transcendent importance. Corruption is the red signal of decadence."

"The safety of our political institutions depends on fair elections and honest government."

"Many Republicans condemn the indifference of their leaders to the ignominious record—a record which never could have been made if the watchmen on the towers had not fallen asleep."

FARMERS DAY SEPTEMBER 14

Brass Band, Speeches, Parade, Barbecue

All Given As a Treat To Farmers and Their Wives From Franklin and Adjoining Counties; Detailed Arrangements Already Taking Shape for Big Day

What is being predicted as being the biggest day ever seen at Louisburg is being arranged for by several committees who are preparing to make Farmers Day on Friday, September 14th, a new record in the history of hospitality. Louisburg people have long held a most enviable record for their old time Southern hospitality but they expect to overdo anything in the past on Friday, September 14th, when they will have as their guests all the farmers and their wives from Franklin and adjoining counties.

So far the program for the day will consist of brass band concerts, furnishing all the latest music with the possibility of a dance in one of the warehouses, some splendid speeches from local and distant speakers, extending a welcome to Louisburg to all visitors and pointing out the desire that through cooperation it is hoped to make this section of the State a great deal better by increasing the social and business advantages, a big parade wherein many will vie with each other in arranging the prettiest and most attractive float, and a big barbecue provided for all who attend absolutely free. In the afternoon other amusement will be provided for.

This day has been made possible by the cooperation of the business men of Louisburg whose desire to show a little appreciation to the good people of this section for the privilege they have enjoyed in living among you and in the trade you have seen fit to extend to them. They want to meet you on a more social basis than ever before. With this desire they have instructed the several committees to allow no expense to interfere with their plans to make Farmers Day a day of pleasure for all who come to Louisburg. This is one day business is to be set aside in order that every possible energy in Louisburg shall be used towards the entertainment of the visitors on Farmers Day.

With this spirit prevailing you are invited to arrange your business and other engagements so that you can come to Louisburg on Farmers Day, September 14th, and be the guest of our business men and enjoy this one day at least. All efforts are being made to get special invitations to all. An advertisement is being run in the Franklin Times, from three to five thousand letters are being mailed, five thousand additional cards are being distributed, committees are visiting the different communities and being used to get the invitation in the hands of all farmers and their wives. However should you fail to get a formal invitation don't hesitate to come because you are just as welcome as any. That everybody shall mark September 14th on their calendar for a visit to Louisburg on Farmers Day is the earnest desire of every citizen in Louisburg.
