If you have been planning to paint your house inside or outside why put it off? I am almost sure that all paints and oil will advance soon. And remember that it takes longer to put on cheap paint than it does to put on good paint. So why not use a paint that has been on the market 175 years with a Formula like this.

50 per cent Pure White Lead, 50 per cent Pure White Zinc, Pure Linseed Oil and Pure Turpentine Dryer and nothing else. 81 words stronger than a thousand arguments. Paint half your house with Devco lead and Zinc paint and paint the other half with any ordinary paint you choose. If Devco Lead and Zinc paint does not take fewer gallons and cost less money per job, we will make no charge for Devco. If Devco Lead and Zinc paint doesn't wear one or two or three years longer—longer and better—we will give you free of charge enough Devco Lead and Zinc paint to repaint your entire house.
