## EYE OPENERS

Yes, we have them, but they're not bottled up, as you might think. It's one of Hamilton-Brown's brands of guaranteed all solid leather shoes for men. They've stood the test and measured up to all expectation. We have a full line of sizes, for men, at \$3.85.

**Wright Clothing & Dry Goods Co.**  
BUNN, North Carolina  
CLOTHING, DRY GOODS, SHOES, NOTIONS.

"They were spoiling our home..."

I COULDN'T seem to rid my home of flies and mosquitoes. They were a terrible pest, and bothered my husband terribly. I tried everything. Finally I got Black Flag Liquid. I sprayed it around, and it worked beautifully. It killed every fly and mosquito quickly. My husband was so pleased!

Mrs. J. J. L.

**BLACK FLAG 35¢** a half pint  
**LIQUID** why pay more

Black Flag also comes in Powder form. Equally deadly. 15c, and up.

### OUR RALEIGH LETTER (Continued from page two)

fund of the State. A test case taken before Judge Romulus A. Nunn in Wake Superior Court starts the friendly controversy on its way to the Supreme Court, for Chairman Matt H. Allen strongly contends that the Commission needs, and must have, revenue from this tax to enable it to properly administer the compensation law. A set of agreed facts have been submitted to Judge Nunn whose decision will be appealed to the higher court and final decision is expected by September. The Industrial Commission is receiving reports on many accidents every day, with the number increasing all the time. Under the law, the loss of more than one joint of a finger is the same as the loss of a finger; for the loss of a little finger the compensation is fixed at 60 per cent of the workmen's wages, if the total compensation does not exceed \$18.00 a week for fifteen weeks. Prof. Roswell Henniger, of State College, has been designated as temporary "good will" agent of the Commission and assigned to the eastern part of the State. A part of his work will be to visit mercantile establishments and other concerns employing five or more people with the view to acquainting them with the provisions of the compensation law and securing their cooperation in putting the same into effect.

Denying the statement attributed to him that Democratic harmony in North Carolina could be achieved only through the renomination of Senator F. M. Simmons, Governor Gardner adheres to the opinion that a recurrence of the issues that split the party in 1928 would be disastrous. Opposition to Senator Simmons is not likely to be inspired by Governor Gardner who is expected to keep hands off in any primary contest for the senatorial nomination. The effort to bring out a candidate in opposition to the Senator is apparently being fostered largely by his former opponents and few original Simmons adherents are taking a hand in the movement. The aspirant who expects to form an organization from discordant elements is "riding for a fall" from which he may never recover. Loyalty is the thing that counts in politics.

The credit balance of the State's general fund has been officially placed at \$2,126,094, a decrease of \$460,917 from the budget estimate of \$2,587,011, or 133,000 below the minimum estimate on July 2. It is said that the decrease of the surplus was caused, to an appreciable extent, by a deficiency appropriation of \$272,000 for Confederate pensions and \$265,000 from the emergency fund, and by failure to realize expected increases in license taxes, which were raised around 25 per cent by the last General Assembly. At the close of the fiscal year the Department of Revenue reported collections to have been \$13,902,640, or \$14,470 in excess of the budget estimate last fall. The unexpected situation is apt to be a subject for discussion by State authorities at the annual meeting of the heads of departments here on July 22.

In his annual report to the State Board of Agriculture in session here during the week Commissioner Wm. A. Graham, pointed out that operating expenses of the Department of Agriculture for the fiscal year ending June 30th amounted to \$467,983.54, while collections totalled \$495,247.81, showing a saving of \$28,163.67. The Commissioner also reported that the balance on hand was \$155,602 this year, as compared with \$127,438 last year, an increase of \$28,000, showing that the department has operated within its income. On the suggestion of Mr. Graham, the Board made request upon President Hoover for appointment of a Southern man to membership on the Farm Relief Commission soon to be named under the provision of the Farm Relief Act.

Governor Gardner has named J. K. Wilson, of Elizabeth City, chairman of the appropriation committee in the 1929 House of Representatives, as the successor of former Senator P. H. Williams whose recent resignation as assistant director of the budget becomes effective August 1st. Mr. Williams will return to the presidency of the Savings Bank and Trust Company which he held at the time Governor McLean called him to service in the Budget Bureau. To represent the State at 22nd annual conference of the National Tax Association in Saratoga, N. Y., in September the Governor has named Commissioner Maxwell and eight others.

FLY-TOX is protecting millions of homes from mosquito invasion. The entire home can be freed from mosquitoes in a few minutes. Take an improved FLY-TOX Hand Sprayer and spray FLY-TOX toward and against the ceiling until the finely atomized spray reaches every part of the room. Also spray the hangings, closets and screens. It is absolutely stainless, safe, and has a perfume-like fragrance. FLY-TOX is the scientific product developed at the Mellon Institute of Industrial Research by Rex Research Fellowship. Every bottle guaranteed.—Adv.

## A lowly COAL TRUCK hangs up a record..

It may not be as exciting as a cross-country flight in an airplane—but this record, made by a coal truck, means something to every car and truck owner!

NINE years ago (a long time in the life of any motor) their heavy-duty Nash truck (loaded with coal) pulled out of the yard of the Fountain Oil, Mill and Fertilizer Co. of Fountain Inn, S. C. for the first time... This truck has run every working day since at a total repair expense of LESS THAN \$100. "The reason," says O. C. Woods, treasurer, "is that we have used 'Standard' Motor Oil exclusively."

Every day, in automobiles, trucks and buses, "Standard" Motor Oil is helping reduce repair bills and prolong motor life. "Standard" Motor Oil is "oilier," specially processed to cling to metal, prevent friction and to stand up longer. Ask for it when you next fill your crankcase. At all "Standard" Service Stations and Dealers.

**"STANDARD" MOTOR OIL**  
The Oilier Oil

## Louisburg's Greatest SALE NOW GOING ON
