Dangerous Business
Our stomach and digestive systems are lined with membranes which are delicate, sensitive and easily injured. It is dangerous business, then, to use medicines containing harsh drugs, salts or minerals, when we are constipated. In addition to the possibility of injuring the lining of our digestive system, these medicines give only temporary relief and may prove habit forming. The safe way to relieve constipation is with Herbine, the cathartic that is made from herbs, and acts in the way nature intended. You can get Herbine at F. R. Pleasants, Druggist—Adv.

What Will you do

When your Children Cry for It

There is hardly a household that hasn't heard of Castoria! At least five million homes are never without it. If there are children in your family, there's almost daily need of its comfort. And any night may find you very thankful there's a bottle in the house. Just a few drops and that colic or constipation is relieved, or diarrhea checked. A vegetable product; a baby remedy meant for young folks. Castoria is about the only thing you have ever heard doctors advise giving to infants. Stronger medicines are dangerous to a tiny baby, however harmless they may be to grown-ups. Good old Castoria! Remember the name and remember to buy it. It may spare you a sleepless, anxious night. It is always ready, always safe to use; in emergencies, or for everyday ailments. Any hour of the day or night that Baby becomes fretful, or restless, Castoria is never more popular with mothers than it is today. Every druggist has it.

The keen, sweet zest and sparkle of pure sunshine is stored for you in Camel Cigarettes—irradiated by the sun itself. And up-to-date, scientific methods of manufacture preserve this flavor and bring it to you, mild and fresh, with none of its goodness lost.
