MASS MEETING HERE AT LOUISBURG TO DISCUSS COTTON SITUATION

A short crop of cotton, selling at less than the cost of production, is affecting not only the farmer who produced it, but also his merchant, his banker, and every line of business which depends upon agriculture for its welfare. The growing demand for information concerning the disposition of the 1929 and 1930 cotton crops has caused a num-ber of leading farmers and business men to request the North Carolina men to request the North Carolina Cotton Growers Cooperative Association to send a representative here to clear up the many questions which are being raised and to discuss the best method of handling the present cotton situation. In answer to this request, the Cotton Cooperative Association has called the meeting here this week, and one of its executive officers will be present to discuss the world-wide condition was it effects the cotton industry and as it affects the cotton industry, and to give complete information in regard to the handling of the 1929 and 1930 crops through the cooperative associations. The meeting ley, Mary Lewis and Galli Curci—Led will be held in the Winner Theatre by Miss Dennison.

Following the discussion the hose

at Louisburg, N. C., Wednesday, Nov. 19th, at 10 o'clock. The Cotton Cooperative official will come prepared to furnish detailed information concerning the rectivities of the Federal Farm Board in regard to cotton, the Cotton Stabilization Corporation, the American Cotton Co-Operative Association, and the work of the North

Moves To Sociation, and the work of the North Carolina Cotton Growers Cooperative Association. This information will include the basis of settlement with association members on the 1929 crop of cotton, upon which a loan of 16 cents per pound, basis middling, was made.

A complete explanation of the advances which are being made to members on the 1930 crop will also be made, so that there may be no

made, so that there may be no further misunderstanding as to the amount the Cooperaive Association is advancing. A report on grades and staples of the 1930 crop received up to this time will be made at this meeting. An answer will be made to the propaganda which is leing calculated concerning sales of cotton by the cooperatives this sea-

These are questions which cannot be properly explained by newspaper articles or by letters, and every cotton farmer and every business man who is interested in the cotton growing industry is urged to attend this meeting and get information which cannot be otherwise obtained.

Splendid Entertainments

Evenings of interest and splendid entertainment are being given at
The New Louisburg Theatre on
Nash Street as seen in their advertisement in other columns of this
paper. Among next week's program
is to be presented "Liliom", "Holiday" and "Sea Wolf", with well
known artists being featured in

TOBACCO SELL-ING GOOD

Big Sales With Many Visitors From Distant Places-Old Friends Returning To Louisburg.

Since our last issue the Louis-burg tobacco market has been especially alive with big sales, good prices and the returning of old friends, Following a good sale on Friday another big block sale was experienced Monday with only two houses selling on that day. The big Southside was fill to overflowing and Union had to use the gallery. The Planters floor was completely covered but the sale did not reach it on Monday. Some complaint was registered on

Tuesday, to the prices which had shown an appreciable increase the day before. This decrease was accounted for by the warehousemen as caused by a mean lot of tobacco. The better prices were received later on in the week and are now doing

well for this season.

During this week many visitors from a distance have been on the Louisburg market some having returned after an absence of thirty years, and expressed themselves as enough pleased to return again with more tobacco to sell.

Louisburg is now enjoying a wide popularity among tobacco growers as the market for higher prices.

His last plea was to the boys and girls to endeavor to outlaw war by peaceable means if possible, but challenged them to that degree of patriotism which would lead each and every one to respond wholeheartedly in case diplomacy failed and a resort to arms became necessary.

On behalf of the Jambes Post of the American Legion Mr. T. K. The American Legion Mr. T. K. Stockard presented to the Mills High School Library a set of 12 volumes "History of The American Republic" written by men who were and are themselves makers of American history. Mr. Stockard paid a pretty tribute to the service men of the world war and said in conclusion that this ciff to the children from service men rift to the children from service men was meant as a tribute to the memory of every man who served in the world war and especially those who still sleep in France. He expressed the hope that in this feeble way we raight be of some assistance in mould-ing the character of Franklin Countys future citizenship.

This set of books was received by

Mr. Holliday principal of Mills Graded School in a very pretty speech.

All over North America and Europe astronomers and their friends will be out counting these 1930 leonids, hoping thereby to find indications of the position of the oncoming raid stream.

If more leonids show up than on

November 15 last year, when about 10 per hour were counted for three hours at the Blue Hill observatory near Boston, it will be taken as a sign that the "big show" is possibly headed this way. If there is no in-crease in numbers it may mean they are off the track the earth intersects.
A request for amateurs to turn

out between midnight and daylight Saturday and Sunday mornings to assist in counting was issued today by Dr. Charles P. Oliver, director of lower astronomical observatory of the University of Pennsylvania.

The meteors should be looked for

One of the most brilliant visits of

these meteors was a century ago in 1833, when an observer at Augusta, Ga., wrote:
"Stars descended like snowfall to
the earth."

In all their history there is no record of a leonid reaching earth. This is attributed to their high ve-locity, calculated at 44 miles a second, which causes them to burn up in the air.

ON NEW ROUTE

EASTERN AIR TRANSPORT TO EXTEND NEW YORK-RICH-MOND 'PLANE SERVICE

To Operate Over New Coastal Route in 1981-Line To Connect at Miami With Extensive South American Services.

Brooklyn, Nov. 8.—Far-reaching announcements will be made next week by Eastern Air Transport, Inc., operators of the New York-Atlanta-Miami air mail route and the New York-Richmond air passenger service, a part of which will be that Raleigh is to join the air map of the nation, it was learned here today.

This aviation company, one of the strongest and largest in the country, will state in its announcement that it will begin air passenger services, on December 10 from New York to Atlanta and on January 1 from Atlanta to Miami, including Palm Beach as a regular port of call. As soon as possible after January 1, the company will begin to operate over the new coastal route now being prepared by the Department of Commerce between Richmond, Raleigh, Savanah and Jacksonville.

Part of Great System.

By joining this route, Raleigh will become an integral part of the mightlest air transportation system existing, for the Eastern Air Transport Services, when they are begun, will link all of Central and South America, the West Indies, Canada, and the three great transcontinental air mail and passenger routes, with each city on its lines.

While this announcement is ex-

pected to cover air passenger operations only at first, it is fairly certain that the postoffice department will authorize each city on the line to receive direct airmail services in addition, for Eastern Air Transport has operated the air mail routes stretching along the Eastern sea-board since they were begun. The company is installing radio appara-tus in each of its airplanes and will begin to erect ground control sta-tions in the near future. The Deparment of Commerce has already installed radio range beacons along the New York-Atlanta division of the airway.

Automatic Pilots.

The company will announce that McM. Furgurson entertained at a most charming tea a host of friends at her home on Sunset Avenue, late Friday afternoon. November 7th, from 4:30 to 6:00 o'clock.

The home was beautifully decorated with a variety of flowers and color schemes in the different rooms.
