

**The Ounce of
Prevention
INSURANCE**

There is no "cure" for the financial loss represented in uninsured property or merchandise that is damaged or destroyed by fire or accident.

There is no "cure" but there is Prevention Insurance, if rightly applied to your risks—and is dependable—prevents financial loss through property loss.

I can give you property insurance, the dependability of which is based on a record of met obligations. And I can show you how to apply it economically to your individual risks.

Let me write your policy.

Mother!

Watch Child's Bowels

"California Fig Syrup" is
Children's Harmless

Laxative

Children love the pleasant taste of "California Fig Syrup" and gladly take it even when bilious, feverish, sick, or constipated. No other laxative regulates the tender little bowels so nicely. It sweetens the stomach and starts the liver and bowels without cramping or overacting. Contains no narcotics or soothing drugs.

Tell your druggist you want only the genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

The average feed cost to produce 100 pounds of milk for three herds while off pasture was \$2.51 and while on pasture was \$1.82, reports county agent Kope Elias of Mecklenburg County.

A man who can make a suit that will last as long as a vest has a fortune before him.

OUR RALEIGH LETTER
(Continued from Page Two)

excess of the present worth of the 45,090 road mileage.

The proposal for the State to take over the maintenance of all county roads is not viewed with favor by highway authorities, who feel that it would be too great a burden. A substitute for the plan would provide for the administration of State funds through local boards to be named in each county. Right now the Federal Highway emergency appropriation makes available the neat little sum of \$1,900,000 for road construction and it is said this could better be handled by local non-partisan commissions than to await plans evolved under a centralization scheme.

Touching the recommendation of the State Tax Commission to increase the premium on fire and marine insurance placed with out-of-State companies Insurance Commissioner Dan Honey points out that such an increase, under a reciprocal contract included in all state insurance laws, would automatically increase the tax North Carolina companies pay in other states to the same 3 per cent. It is said that if life insurance premiums were taxed equal to out-of-state premiums, they would pay North Carolina around \$262,685 a year. The State's collection from the 3-4 to 1 per cent from North Carolina companies for the past five years has averaged something like \$2,073 per year, which raises the question whether the State should continue to lose revenue from the outside in order to protect "the ins."

The Brookings Institution and officials of the State Department of Conservation and Development are agreed that the Legislature should pass a basic park and forest law at the approaching session. It is suggested that the development of State parks and lakes should be made a major project of the Department of Conservation and Development now while the cost of creating them would be much less than it may be a few years hence, when the areas around lakes pass into the hands of private persons for speculative purposes.

Recent compilations show that there are 2,384 white Baptist churches in North Carolina with a membership of 407,920, representing an increase of 77 churches and a net gain after counting losses by death, removal, and other causes, of 10,894 members over the year 1929. Total gifts for denominational enterprises including missions, education and benevolences amounted to \$705,846.38. Gifts for local church operations totaled \$2,639,702.79, and the grand total of all the gifts by all the churches to the various causes was \$3,405,551.57. The denomination has 2,299 Sunday Schools with a total enrollment of 355,267, an

**The BEST Gray Hair
Remedy is Home Made**

To half pint of water add one ounce bayrum, a small box of Barbo Compound and one-fourth ounce of glycerine. Any druggist can put this up or you can mix it at home at very little cost. Apply to the hair twice a week until the desired shade is obtained. It will gradually darken streaked, faded or gray hair and make it soft and glossy. Barbo will not color the scalp, it is an ally of gray and does not irritate.

1898-1931

Another year has been added—making a total of thirty-three years this firm has been serving the people of Franklin County, and surrounding neighborhoods. That period of time is something we are proud of, and justly.

In that thirty-three years it has been the one aim of this firm—To satisfy its customers—To give them prompt and efficient service—To give each customer a square deal in giving him value for his money.

In the days to come it is our ambition to serve you more faithfully. For that goal, we shall strive. It is to our old customers and the new ones that we are gaining every day, that we make this pledge of service, and fidelity.

increase during the year of 14,628. Dean I. O. Schaub, director of the Agricultural and Extension Service of State College, who is in charge of the distribution of the Federal loan fund to farmers secured by lien on the crop, advises that those interested must take advantage of the opportunity by the middle of the present month. This fund, amounting to forty-five million dollars, is made available under the drought relief act recently passed by Congress.

State College faculty puts the ban on booze and resolves to cooperate with the student body to help curtail any whiskey drinking on the college campus, or in the college community. This is good news to parents having boys in training here and will increase the respect of the public for the institution to a very great extent by raising its moral and intellectual standards.

Rumors of opposition to the Workmen's Compensation Act are drifting

into the capital city and an attempt to repeal or modify is anticipated. Members of the Industrial Commission express the opinion that employers and employees are generally satisfied with the provisions of the law and suggest that only the lawyers seek to interfere. Senator Peyton McSwain, of Cleveland county, may seek to have it amended.

During November the fire loss in North Carolina, according to report of the State Department of Insurance, was \$444,622. In November, 1929, it was \$247,258. Some of the recent larger losses were: State's fishery department yacht at Morehead City, \$58,000; veneer plant at Asheville, \$55,000; Carolina Terrace (hotel), Hendersonville, \$37,000; boarding house at Waynesville, \$22,000; garage and autos at Wilson, \$15,700; ginnyery in Cabarrus county, \$10,000.

Federal Collector Gilliam Grissom reports the collection of \$88,814 last month above that of December 1929.

Sore Throat?

Don't Gargle

This Doctor's Prescription Gives Quicker, Better Relief

Don't suffer the pain and discomfort of sore throat. Use a doctor's prescription called Thoxine guaranteed to relieve with the very first swallow. Not a gargle but a pleasant tasting medicine which relieves the soreness and goes direct to the internal cause.

Thoxine will relieve your sore throat or coughing quicker and better than anything you have ever tried or your money will be refunded. Safe for the whole family. Ask for Thoxine, ready for use in 35c, 60c, and \$1.00 bottles. Sold by Beasley Bros., and all other good drug stores.—Adv.

REASONS WHY

ZEPHYR FLOUR

is better than any other Flour handled in Franklin County, although a dollar to a dollar and a half cheaper than some others. Mill advantages as follows:

- 1st. Unlimited Capital.
- 2nd. Located in best wheat section of the World.
- 3rd. Owns large number of Public Wheat Elevators scattered throughout that section with chance to buy from the farmer before the wheat is withdrawn for shipments to Markets.
- 4th. Owns large line of Private Elevators for storing their wheat till needed.
- 5th. Their main business is developing generating and selling Water & Electric Power. Always having a surplus which costs nothing. (Look at name of Mill on each bag.)
- 6th. Flour is water ground. (Look on each bag.)
- 7th. No other flour on the market with as strong guarantee printed on each bag. (Look for it on each bag.)

Compare the taste of Zephyr with flour, made by any other mill, and sold here. None of them have that sweet nutty taste. The wheat it is made of is full of gluten or protein, and this is where you get your food value and good taste. The others as a rule use wheat which is full of starch, white, flat taste, and no food value.

We have many merchants to tell us, "People who have used this flour will have no other." Sold by nearly all the merchants in the county. Call for it. If one merchant does not have it, his neighbor has.
