

Kiwanis Club Entertain Tobacco Men

Last Friday night January 22nd the Louisville Kiwanis Club entertained all the tobacco men connected with the tobacco interest in Louisville. The list included warehousemen, their assistants and all the buyers representing all the large tobacco companies in the world.

This year Louisville went over the top in pounds sold as compared to the past 28 years. The amount sold to date approaches the six million mark, only the year 1902 did the Louisville Market pass the five million mark. The Kiwanis club knowing of this great progress and in turn called in the tobacco men and served them a delightful meal and it was at this time that the club expressed their appreciation to one and all the tobacco men for their loyal support in bringing Louisville Market to the place it now holds among other markets.

T. K. Stockard, the town's tax, light and water expert was in charge of affairs and had an elaborate and instructive programme. After an address of welcome by Ed. Best, Tracy pulled his blindfold cigarette test. They proved to be expert judges of tobacco as they told the brand smoked at once.

Dr. Fleming discussed the "Wick-ersham Report". Summing up his talk one might say that his interpretation was about like many others. So far as he could tell, said Dr. Fleming, it was an extravagant expenditure of the nation's money since it revealed nothing concrete or constructive. Dr. Fleming said that whiskey was and always has been worthless. The only purpose it can serve is to aid in making Whoopee, and it grieved him very much to see this deadly drink become a National issue.

Last but not least was the talk by Mr. C. W. Lee, Sr., spokesman for the buyers. Mr. Lee said to him there seemed to have been perfect harmony and cooperation among the town, county and the buyers in Louisville this year. This, and this thing alone has been the outstanding factor responsible for the good tobacco market Louisville now has. This ended one of the best meetings the club has had this year.

MAKES MONEY FARMING AND SCORNS RELIEF

As the live-at-home campaigners go about the State urging the adoption of better farming methods in 1931, they are constantly finding good farmers who are making a success of their business and are putting aside some cash each season.

Such a person is Z. K. Simpson of Marshville, route 2, in Union County. Mr. Simpson is a young man, only 39; he is married; has five children, and owns the place he bought on credit in 1919. T. J. W. Broom, county farm agent of Union County, says Mr. Simpson bought a farm of 78 acres for \$3250 in 1919. A small inheritance of between \$600 and \$700 from his father was paid on the place and with that start Mr. Simpson began farming. The farm was poor with no improvements, only a small house to live in while he fought for something better.

Today Mr. Simpson has the farm all paid for. In addition he has built a new home costing \$3500 cash; new poultry houses costing \$500 cash, and has installed a \$1,000 water system for his home, barns and poultry yards. In addition loaned out, has 22 bales of good cotton in storage and has a nice checking account at the bank. The details of how he won this from the 78 acres of soil is interesting but hard work and commonsense backed the enterprise. He first standardized his fertilizer problem by using 1000 pounds of a 10-4-4 fertilizer per acre for his cotton. In 1930, he made 14 bales on 12 acres; in 1929 he made 16 bales on 13 acres; in 1928, he made 13 bales on 12 acres, and in 1927, he made 23 bales on 18 acres. He rotates his crops, has filled his soil with humus so that the fertilizer is more profitable and he has never run a time bill at the store nor bought feed and foodstuffs. His gross income each year from poultry, surplus milk, and garden stuff is over \$5,000 in addition to his cotton and other cash crops.
