

More than 73,000 miles in a New Ford

The substantial worth of the new Ford is reflected in its good performance, economy and reliability. Its stamina and endurance are particularly apparent in sections where bad roads and severe weather put a heavy extra burden on the automobile.

In less than a year a new Ford Tudor Sedan was driven more than seventy-three thousand miles over a difficult route. The operating cost per mile was very low and practically the only expense for repairs was for new piston rings and a new bearing for the generator.

The car carried an average load of 1200 pounds of mail and was driven 250 miles daily. "The Ford has never failed to go when I was ready," writes one of the three mail carriers operating the car. "The starter did the trick last winter even at 34 degrees below zero. The gas runs about 20 miles per gallon. At times I pull a trailer whenever I have a bulky load."

Many other Ford owners report the same satisfactory performance. Every part has been made to endure — to serve you faithfully and well for many thousands of miles.

The New Ford Tudor Sedan

LOW PRICES OF FORD CARS

\$430 TO \$630

F. O. R. Detroit, plus freight and delivery. Insurers and spare tire extra at small cost. You can purchase a Ford on convenient terms through the Authorized Ford Finance Plan of the United Credit Company.

FEATURES OF THE NEW FORD

Attractive lines and colors, rich, long-wearing upholstery, sturdy steel body construction, Triplex shatter-proof glass windshield, silent, fully enclosed four-wheel brakes, four Houdaille double-acting hydraulic shock absorbers, aluminum pistons, chrome silicon alloy valves, torque-tube drive, three-quarter floating rear axle, more than twenty ball and roller bearings, and bright, enduring Rustless Steel for many exterior metal parts. In addition, you save many dollars because of the low first cost of the Ford, low cost of operation and up-keep and low yearly depreciation.

Why Do Young People Insure?

- BECAUSE they want to save money.
- BECAUSE they can tie themselves to a definite payment every year.
- BECAUSE the disability provision takes a big worry out of their lives.
- BECAUSE insurance is cheaper for them now than it will be later.
- BECAUSE they can borrow on their policies (after 3 years) without having to bother friends or others.
- BECAUSE banks and individuals often loan money on the strength of young peoples' characters if they are protected by insurance.
- BECAUSE they should get their insurance well started before marriage when financial obligations increase.
- BECAUSE they are probably in good health and can pass a medical examination. In 1930 the New York Life declined 28,412 applicants who had waited too long.
- BECAUSE they will feel happier knowing that there will be cash payable to their parents or others if they were suddenly to die.
- BECAUSE BY CARRYING LIFE INSURANCE A YOUNG MAN OR WOMAN MAKES A REAL BEGINNING FOR SUCCESS IN LIFE.

Carolina Woman Lost 47 Lbs.

In 3 Months and Feels Years Younger

"I have been taking Kruschen Salts for nearly 3 months. I have continued taking one teaspoonful in warm water every morning. I then weighed 217 pounds, was always bothered with pains in my back and lower part of abdomen and sides.

"Now I am glad to say I am a well woman, feel much stronger, years younger and my weight is 170 pounds. I do not only feel better but I look better, so all my friends say."

"I shall never be without Kruschen Salts, will never cease taking my daily dose and more than glad to highly recommend it for the great good that is in it." Mrs. S. A. Solomon, New Bern, N. C., Jan. 1930. "P. S. You may think I am exaggerating by writing such a long letter but truly I feel so indebted to you for putting out such wonderful salts that I cannot say enough."

A bottle of Kruschen Salts that lasts 4 weeks costs but 85 cents at druggists the world over. Take one half teaspoon in a glass of hot water every morning before breakfast.

Attention to diet will help—cut out pastry and fatty meats—go light on potatoes, butter, cream and sugar—the Kruschen way is the safe way to lose fat. Try one bottle and if not joyfully satisfied—money back.—Adv.

IN MEMORY

On Tuesday morning February 17th, just as the sun was peeping from beneath the clouds, the beautiful angel from Heaven above, entered through the doorway of the home of Mr. and Mrs. R. L. Peoples, and touched the beautiful little hands of his beloved, and devoted son, Norward Carey.

After only a few moments of suffering, and pain, she took his hand

Play at Gold Sand

"The Wild Oats Boy" will be presented at Gold Sand High School, Thursday March 19, 1931 at 8:00 P. M. by the Senior class. There also will be delightful special music. This event is the biggest hit of the year; you can't afford to miss it. The admission is only 15c and 25c. Come and spend a delightful evening. Remember the date, March 19, 1931.

Senior Play

The seniors have lately, manifested much interest in their play, "The Wild Oats Boy", which will be given Thursday, March 19, 1931 at 8:00 P. M. The play is in charge of Miss Harper who with the cooperation of each individual has been working toward making it the best dramatic production ever staged at Gold Sand.

The play is one of Lillian Mortimer's best; a comedy drama in three acts with a merry, wistful moving plot. Authorities who have read the play say it is the best ever attempted to be given here, which fact makes us feel confident that we have made a good choice in selection.

The senior class this year has been to a great deal of expense in various fields. More money will be needed in short time, to defray other expenses. In order to have a clean record at the end of the year we will have to have collectively, a source of income. Our solution for this problem is: to give a good play with an admission fee in keeping with the low price of cotton and tobacco. The admission is 15 and 25 cents.

Besides the play there will be special music given by a band of accomplished musicians. Prepare now to come to this the years biggest hit. Remember the date, Thursday, March 19, 1931.

Gold Sand boys Beginning Track (Fuller Parrish '31)

Since the basket-ball tournament is over, the Gold Sand boys have begun work on track under the leadership of Mr. Jennings, the coach, the boys are doing good work. They have already made high records in each event. There is no doubt that Gold Sand will make a good showing at the county track meet.

Track

(Frances Joyner '32)

The Gold Sand Girls have a larger per cent of girls going out for track than ever before. We are hoping to get every girl in High School enlisted in some form of track. There is plenty of enthusiasm and pep among our students. We are marching toward victory.

Home Economics

(Ruby Pearce '33)

The class of Home Economics No. 2 with the help of some of the eighth grade girls and Miss Wells, the Home Economics teacher, have equipped and furnished a room which may be used as a dining room and a living room. The furnishings were inexpensive, although it added much to the neatness of the room. The amount spent on the room did not exceed eight dollars. The students have made much progress in the past few weeks. It has been a success as well as a pleasure to the girls. They enjoy serving lunch to the teachers and students each day.

Young Tar Heel Farmers Have Thrift Contest

At recent meeting a contest concerning Thrift was explained and outlined by Perry Conn, President of the Y. T. H. F. Thrift Bank. A free period was offered to the section having 100 per cent of its members belonging to the Thrift Club. The boys got busy in each section, and soon the boys in the ninth, tenth, and eleventh grades had lined up 100 per cent strong. The eight grade will soon reach the same mark. In order to become a member a boy has to have at least one dollar on savings in some bank or invested profitably in some way. He is also required to memorize a conversation with the bank officers, and keep his record up-to-date. This contest has proved a help in emphasizing thrift among the Agricultural students.

Shrubby Pruned

The Young Tar Heel Farmers have recently pruned some of the school shrubbery. Many cuttings were made and set out to root in order to have more plants for setting at a later date. In the near future the spruce will be in full bloom, and will add much beauty to the campus. A careful selection of plants for the school grounds gives a continuous blooming during the entire summer.

Chapter Holds Regular Meeting

At the regular meeting of the Chapter on Friday, March 6, plans were completed for the Annual Father and Son Night. The group practiced the opening and closing exercises. There was no program carried out, as the time was devoted to matters of business.

and lead him to that beautiful land far away, where there will be rest for him in the eternity.

It's hard to give him up, but we know that God knows best. We know that his stainless little soul is now at rest beneath a bower of flowers where there will be no more suffering.

N. C. was very young in life only seven years of age but yet we miss him. His absence not only in his home but in school will be long remembered, for his sweet hospitality, and disposition.

SISTER.

A car of 14,000 pounds of poultry and three cars of hogs were shipped out of Beaufort County last week.

Reduce the Acid

SICK stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour.

Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia; one harmless, tasteless dose neutralizes many times its volume in acid. For 50 years the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go prove this for your own sake. It may save a great many disagreeable hours. Get the genuine Phillips' Milk of Magnesia; the kind physicians have prescribed for 50 years.

VERY LATESTS BY MARY MARSHALL

One of the simplest of all embroidery stitches consists of the so-called blanket stitch which is nothing more nor less than a deep buttonhole stitch done coarsely so that the material shows between the stitches. It is so-named because it is a practical stitch to use in finishing off blankets, in which case the work is done with rather fine woolen yarn. This stitch may also be used as a finish for the hem on fine linen or silk lingerie or blouses. It is easier for the beginner than a rolled hem and just as effective. Merely fold the edge of the material in a very narrow hem and baste. Then fill the needle with fine embroidery thread and take your blanket stitches so that each one goes over the entire hem, giving a neat little row of stitches running across the narrow hem.

One-two-three stitch is merely a variation of blanket stitch and we

suggest it to give an easy, effective finish for a dress of jersey or fine wool. Use a fine quality of worsted threaded in a coarse darning needle. There are several variations on the usual one-two-three stitch. The first one shown here consists of three fairly long stitches of even length, followed by three shorter stitches, then three longer stitches, and so on to the end. The second variation consists of a short stitch, a medium-sized stitch, one a little longer and one quite long, followed by a descending arrangement of the stitches. The third variation consists of four stitches of graded lengths done so that you begin with the longest and end with the shortest and then begin again with the longest. A fourth possible arrangement consists of a long stitch followed by two shorts, then a long, followed by two shorts and so on to the end.
