

Womanless Wed- ding A Success

The Womanless Wedding presented by the American Legion Auxiliary on Tuesday night was a huge success according to the reports from the large crowd which attended it.

A number of selections played by the "Carolina Footwarmers" as the opening of the evening's program was especially well received and Louisburg is proud to claim such a splendid orchestra as local talent.

The quartette was encored again and again which showed how their part of the program went over, and they were generous with their encores.

Mrs. H. W. Perry, President of the Auxiliary in a few remarks explained something of the work of the Auxiliary and thanked the audience for the past and continued support and interest in its projects.

And then to the strains of the Wedding March the bridal party entered. From the time the Preacher and the brides Mamma and Papa entered until the bride and train-bearers came the house was in a continuous uproar of laughter.

It is understood that the evenings receipts amounted to about \$76.00 of which amount 15 per cent will go to the graded school and the balance will be expended by the Auxiliary in its various undertakings.

American Legion And Auxiliary Convention

To Be Held at Morehead City July 26th, 27th and 28th.

Morehead City is planning to make the stay of the Legionaires and Auxiliary members most enjoyable during the convention. Registration headquarters will be at the Atlantic Hotel.

The Convention program has not been quite completed, but everything is being done by the convention committee to make it an event that will be long remembered.

There will be free ocean trips to Cape Lookout and Fort Macon; Tom Thumb Golf courses, trip to U. S. Marine Laboratory; Band concerts on board walk of Atlantic Beach on Sunday and Monday (July 26 and 27); Special Fireworks Display at Atlantic Beach at 9 P. M. July 27; a dance at the Casino on Monday, July 27, Drum and bugle corps contest on Monday afternoon and Parade at 5 P. M. Monday evening, and several other things which will be of interest to Auxiliary members particularly.

It will be well for all interested members of the Legion and Auxiliary to make their plans and reservations now.

New Filling Station

Mr. J. C. Tucker is building and equipping a new and modern filling station in front of his Cafe on Main Street.

Minstrel At Gold Sand

The TIMES is requested to announce that a minstrel will be given at Gold Sand School on July 3rd, at 8 o'clock p. m., by local talent. All are invited to go out.

Recorder's Court

Five cases were disposed of in Franklin Recorder's Court at Monday's session by Judge J. E. Malone. All of the cases on docket were of a minor nature and were disposed of as follows:

Leonard King, pleaded guilty to being drunk and disorderly and was ordered discharged upon payment of costs.

Julian Neal was found guilty of unlawful possession of whiskey and given 30 days in jail to be discharged upon payment of a fine of \$10 and costs.

Bennie Fogg pleaded guilty to violating prohibition law, and was discharged upon payment of costs.

Carrie Evans and Buck Perry were found guilty of prostitution and aiding and abetting prostitution respectively. Carrie was given 90 days in jail, execution not to issue before noon June 24th. Prayer for judgment was continued one week as to Buck Perry.

A. G. Knott was found guilty of giving a bad check, and was discharged upon payment of costs.

Shop Assistant—"The gentleman wants to know if that sweater will shrink."
Boss—"Is it too big for him?"
Shop Assistant—"Yes, sir!"
Boss—"Of course, it will!"

Mrs. Crabber—"Oh, I wish I'd thought twice before marrying you."
Mr. Crabber—"Hub, I'd be satisfied if I'd thought just once."

Teachers Observe Project Work

G. L. Winchester Emphasizes Poultry and Legumes in Franklin Community

In a recent meeting of farmers in Franklin County an agricultural leader made the statement that Franklin County produced fewer hens than it needed in the county. It was pointed out that this condition was due in part to the large number of high producing flocks in the Franklin community. The teachers of agriculture in the county asked Mr. Winchester to show them some of the good work being done in growing poultry and in growing legumes, especially lespedeza. A number of conveniently located projects were selected, and a few others who were interested.

The farm enterprises observed by those making the tour constitute a part of the practical work of the vocational department of the Franklin High School. Mr. Winchester is kept busy assisting these and others who are enrolled as vocational students. He finds that during the summer months he has the opportunity of giving individual instruction to his students as they meet their problems on the farm. This method which is used by vocational teachers is considered a valuable means of assisting the student to put into practice those farm operations which are studied in the class room by the high school students and by those who attend evening classes.

Brutus Barrett, an eighth grade student, began his flock of Single Comb White Leghorns with 306 blood tested chicks, which were hatched by the Franklin School Hatchery. Brutus had lost only 18 chicks. The others seemed to be healthy and in a thriving condition. Eight sacks of mash had been used during the first six weeks. The chicks were well housed in a brooder house 14-ft. x 16-ft. which was heated by a homemade brick brooder.

Bill Banks, a ninth grade pupil, has paid all costs up to the present time by the sale of his cockerels as broilers. Bill began with 219 blood tested Single Comb White Leghorn chicks and 100 Rhode Island Reds. He has raised 212 of the Leghorns and 90 of the Reds. His pullets are on range, and give all indications that they will be ready to begin laying in August. In addition to his poultry Bill is growing corn.

Dr. Banks showed a very good stand of volunteer Korean Lespedeza, which he plans to leave after cutting his wheat.

At the home of Rev. J. F. Mitchner a pasture, which had been grazed very heavily last year, showed an excellent stand of Korean Lespedeza. Several mules were grazing on it at the time.

W. S. Goswick had an excellent crop of wheat with a good stand of Tennessee 76 Lespedeza. In spite of the fact that army worms did considerable damage to his crop last fall, enough seed was left for a good volunteer stand.

Billy Perry has a field of corn following a crop of lespedeza, and also two acres of tobacco.

On the farm of G. L. Cook army worms cut his lespedeza to the ground last fall. This land was disked and planted to wheat. A splendid crop of wheat on an excellent volunteer stand of lespedeza were seen. It was pointed out that lespedeza does not require any attention at all during the busy spring months.

On the farm of W. C. Wilder wheat showed a marked improvement where it followed a crop of Tennessee 76 Lespedeza over land where no lespedeza was grown. Indications were that the lespedeza would more than double the crop of wheat.

The farm of C. T. Nicholson was a succession of grain, clovers, hay stacks, soybeans, lespedeza, alfalfa, and pastures. Mr. Nicholson made almost three tons of alfalfa per acre at his first cutting this year, and the alfalfa was almost ready for a second cutting.

It was easy to find heads of wheat with sixty or more well filled kernels to the head in a field belonging to R. L. Wilder.

At the farm of B. B. Pruitt a heavy crop of certified Tennessee 6 Barley had been harvested. A field of Coker's Special Abruzzi Rye indicated that a heavy yield could be expected. In the field where barley had been cut here was almost a perfect stand of Korean Lespedeza. Last year this field was heavily infested with dodder. Mr. Pruitt used a large blowtorch and burned the lespedeza and dodder in the spots where the dodder was growing. So far only a few small places showed an infestation of dodder.

Near an old abandoned farmhouse an excellent stand of sweet clover was found in an old cotton field. Near this place was a patch of yellow trefoil clover, which was

"Slim" and Anne Try Out Their Plane

Col. Charles A. Lindbergh and his wife have been spending a lot of time at the Curtiss Airport, Long Island, tuning up for their proposed flight across the Pacific. Note the happy look on the faces of the nation's favorite couple.

Tempie Lee Davis Held For Court

Tempie Lee Davis, colored, was brought to Louisburg on Thursday afternoon and placed in jail answer to charges at the coming criminal term of Franklin Superior Court growing out of a coroner's inquest placing the responsibility of the death of a newly born baby upon her, its mother.

The child's body was found on Thursday, on Mr. J. O. Beasley's farm near Ingleside, where it had been scratched up by dogs and Coroner Farr and Sheriff Justice notified. They went to the scene and empaneled a jury composed of J. B. Beasley, Cranford Beasley, J. Y. Beasley, H. C. Ayscue, Bennie Wheelless and Blair Fuller. The evidence indicated that the child was born on Saturday before and the mother claimed she buried it after determining that it was born dead.

The Sheriff was assisted by Deputy Sheriff Dave Huff.

Chicken Supper

The employees of the Town of Louisburg entertained the Board of Town Commissioners and a few invited guests at a delightful chicken supper on Thursday night of last week. The supper was served in the big engine room at the city power plant and an abundance of delicious fried chicken was spread upon a large improvised table. Pork chops, hot rolls, pickle, ice tea and cake were also in abundance and those whose pleasure it was to be present thoroughly enjoyed a big feed.

The machinery was all in tip top shape and many complimentary remarks were made relative to the excellent equipment and the fine shape in which it was being cared for.

About thirty guests were present including some from Raleigh and other places. All thoroughly enjoyed the occasion to the fullest.

Guessed Right Number

J. F. Harris, of Near Ingleside, was the lucky guesser, at the number of yards of thread it took to make the large pair of overalls displayed in front of A. Tonkel's Store for a week recently. His guess was 937 yards and happened to be the exact number used in their make.

Stores To Close

Practically all the stores in Louisburg will close on Monday, July 6th, instead of Saturday, July 4th, in order to observe the spirit of the Fourth. This delay in closing is made in order to accommodate the many who do their trading on Saturday for the week-end. Bear this in mind and lay in your supply.

very thick and almost knee high. The sweet clover was slightly more than knee high.

A crop of oats belonging to E. W. McGhee gave promise of an excellent yield.

The flock of Single Comb White Leghorns at Green Hill Farm is blood tested. The flock of 744 hens laid an average of 88 eggs between January 1st and June 1st, 1931. On this farm there are also over 650 growing pullets.

Curb Market Needs Support

Many Products Offered For Sale But Customers Are Few

The third week of the operation of the curb market in charge of the various women's clubs under the supervision of Miss Priest, Franklin County Home Agent, saw a slight decline in both number of club members offering products for sale and number of customers and sales. Twelve club members with others to assist them from the clubs at Mapleville, Epsom, Mitchiners, Cedar Rock, Bunn, Sandy Creek, and Seven Paths, were on the market with their products. Lewberries was added to the list of fresh fruits and vegetables and the list of other products remained about the same. Cakes and pies continued in popularity and sales of dressed poultry increased.

Regret was expressed that so few people avail themselves of the opportunity to secure the fresh products direct from the producer when the same products are bought elsewhere. Those buyers present seemed to be boosters and much in favor of the curb market. The basket of fresh vegetables which is given to the purchaser who holds the lucky number went to Mrs. A. W. Person. Some slight annoyance was experienced in one or two instances when a customer reserved some product and then failed to take it causing loss of sales. Members of the clubs expressed the desire that customers not ask them to keep articles unless paid for at the time.

Mrs. M. M. Person and Mrs. Oliver Perry will be in charge of the market Saturday June 27 as Miss Priest will be in camp at that time with members of the 4-H girls clubs of Franklin County.

Install Modern Cooling System

The management of the Louisburg Theatre has installed a new up-to-date cooling system for the comfort and pleasure of their patrons. The cooling machine, which is of much size, is placed in the front of the Theatre and when running keeps a continuous flow of cool, fresh air through the entire Theatre. This will add greatly to the comfort and pleasure of the Theatre-goers and will afford a very pleasant place for the hot summer month's entertainment.

This improvement places the Louisburg Theatre further into the ranks of leading theatres in the State. The management of the local Theatre is to be congratulated on their movements for better service to the public.

Louisburg Girl Is Honored

Miss Alice Smith who has been a student at Fineland School for Girls, since the fall of 1930 has proven herself eligible to be put on the Student Council there. To be eligible for this the girls have to prove themselves to be worthy of trust, and honesty. When electing the Council girls the entire student body and faculty decided that there wasn't a girl who merited it more than Alice Smith.

Road Districts, Engineers Named

Plans Being Whipped Into Shape For State To Take Over County Roads July 1st.

Raleigh, June 24.—The district set-up and executive personnel of the new State Highway organization was completed yesterday, in readiness for the State on July 1 to add 45,000 miles of county roads to the 16,000 in the present state system for maintenance.

The State was divided into five major divisions and each division sub-divided into five districts for maintenance work, the district engineers being made public yesterday by Leslie R. Ames, State Highway Engineer. Section bosses are being assigned to each 100 miles of road to have direct supervision of the maintenance work, the section bosses to number between 19 and 23 in each of the 25 districts.

Construction work will be handled directly from the central office in Raleigh.

The five major divisions, districts, and the engineers in charge will be as follows:

Division A.
Headquarters, Tarboro, J. G. Gardner, engineer; and J. D. Taylor, assistant.

District 1: Headquarters, Edenton, Hertford, Bertie, Gates, Chowan, Perquimans, Pasquotank, Camden, Currituck and a part of Dare county. R. R. Roper, engineer.

District 2: Headquarters, Washington, Martin, Washington, Tyrell, Beaufort, Hyde and a part of Dare county. E. S. Peabody, engineer.

District 3: Headquarters, New Bern, Lenoir, Jones, Craven, Pamlico and Currituck counties. Roy J. Hart, engineer.

District 4: Headquarters, Weldon, Northampton, Halifax and Nash counties. C. F. Gore, engineer.

District 5: Headquarters, Farmville, Edgecombe, Wilson, Greene and Pitt counties. W. N. Sprull, engineer.

Division B.
Headquarters, Fayetteville, W. F. Morson, engineer; and T. T. Betts, assistant.

District 1: Headquarters, Goldboro, Johnston and Wayne counties. F. N. Egerton, engineer.

District 2: Headquarters, Wilmington, Duplin, Onslow, Pender, New Hanover and Brunswick counties. R. V. Biberlein, engineer.

District 3: Headquarters, Clinton, Sampson, Bladen and Columbus counties. L. E. Whitfield, engineer.

District 4: Headquarters, Sanford, Moore, Lee, Harnett and Cumberland counties. J. B. Koonce, engineer.

District 5: Headquarters, Lumberton, Hoke, Scotland and Robeson counties. J. W. Sprull, engineer.

Division C.
Headquarters, Greensboro, D. M. Rea, engineer, and R. Markham, assistant.

District 1: Headquarters, Raleigh, Wake, Franklin, Vance and Warren counties. W. H. Rogers, Jr., engineer.

District 2: Headquarters, Durham, Orange, Durham, Person and Granville counties. J. H. Proctor, engineer.

District 3: Headquarters, Graham, Alamance, Randolph and Chatham counties. J. W. Jenkins, engineer.

District 4: Headquarters, Greensboro, Guilford, Rockingham and Caswell counties. C. O. Lowe, engineer.

District 5: Headquarters, Winston-Salem, Stokes, Forsyth and Davidson counties. Z. V. Stewart, engineer.

Division D.
Headquarters, Statesville, H. E. Nowell, engineer; and F. S. Klutz, assistant engineer.

District 1: Headquarters, Elkin, Alleghany, Surry, Wilkes and Yadkin counties. C. S. Currie, engineer.

District 2: Headquarters, Statesville, Alexander, Iredell and Catawba counties. A. B. Gibbs, engineer.

District 3: Headquarters, Charlotte, Lincoln, Gaston, Mecklenburg and a part of Union county. L. McCross, engineer.

District 4: Headquarters, Concord, Davie, Rowan, Cabarrus and Stanly counties. L. B. Peck, engineer.

District 5: Headquarters, Wadesboro, Montgomery, Richmond, Anson and part of Union county. T. F. Royall, engineer.

Division E.
Headquarters, Asheville, J. G. Walker, engineer.

District 1: Headquarters, Boone, Ashe, Watauga, Caldwell, Mitchell and Avery counties. J. R. Council, engineer.

District 2: Headquarters, Marion, Burke, McDowell, Rutherford and Cleveland counties. J. A. Poteat, engineer.

District 3: Headquarters, Asheville, Yancey, Madison, Buncombe and Haywood counties. S. C. Austin, engineer.

District 4: Headquarters, Lenoir, Jackson, Transylvania, Henderson and Polk counties. S. B. Howard,

Bryant Trio Broad- cast Over Radio

Message About Louisburg College Given

On last Monday night the Bryant Trio of the Southern Conservatory of Music, which recently combined with Louisburg College, rendered a musical program over the Radio in Raleigh. During the program attention was called to the combining of the two institutions and the following message from A. D. Wilcox, President of Louisburg College was read:

"Louisburg College, established in 1892, has carried on its work for 129 years. It is rich in the history and traditions of more than a century of Southern life and culture. The spacious campus with its century-old oaks and the beautiful buildings of colonial architecture seem alive with the eternal spirit of the best and the holiest from the days that are dead.

Though old in years Louisburg College is young in faith and vision. Though loaded with the love and honors that have come with a century of service, it makes this year a new venture of faith into new and larger fields of service.

With some change in plan and method, the College this year is opening its doors to young men as well as to young women who, throughout its long life, have filled its halls.

The School belongs to the North Carolina Conference of the Methodist Episcopal Church South and there is a new note of aroused interest and zeal throughout Eastern Carolina. Many new students are matriculating.

The event of outstanding importance is the coming of the Southern Conservatory of Music to the College to carry on the department of Music with increased power and larger scope.

The friends of both these institutions rejoice in this combination for more effective service to the youth of the State, and wish them a happy and prosperous life together."

Splendid Open Air Services

The Methodist services of Louisburg were held on the Louisburg College campus last Sunday night and were attended by an exceptionally large number of people.

Special music was furnished at these services by the Bryant Trio, of the Southern Conservatory of Music which recently combined with Louisburg College. Those composing the trio were Mr. Gerald Bryant, violinist, Mr. Max Bryant, cellist, and Mrs. Max Bryant, pianist, who rendered several splendid musical selections. Also during the service Mr. Gerald Bryant sang as a solo, "The Little Hills of Home."

Rev. A. D. Wilcox delivered a splendid and interesting sermon on "The Troubled Heart", referring to the well known passage "Let not your heart be troubled."

Rev. A. D. Wilcox announces that arrangements are being made for the return of the Bryant trio Sunday night to take part in the services. Also, he states that the sermon for Sunday night will be delivered by Rev. J. D. Miller, rector of St. Paul's Episcopal church, which is joining in the Open Air Services.

Days Of '49

One of the most amazing and intriguing periods of American history is depicted in "The Avenger," Columbia's latest feature, starring Buck Jones, which comes to the Louisburg Theatre on Saturday, June 27. The locale of this picture is California in the hectic gold rush days of '49.

That was the era when long trains of prairie schooners, loaded with voyagers, trekked steadily westward. The travelers endured every privation and danger and finally arrived in California to begin their frantic search for gold. As shown in "The Avenger," life in the mining camps was usually as hazardous as life on the long trail. There was no established law and "might made right." "The Avenger" tells the historically true story of a famous California bandit who was forced into outlawry because of unjust treatment. Buck Jones, famous Western actor, has the title role and Dorothy Revier plays opposite.

The supporting cast includes Edward Fell, Sr., Otto Hoffman, and Edward Hearn. Roy William Neill directed the production.

In these days of paint and powder, a rose is not the only thing that is born to bluish unsex.

District 5: Headquarters, Andrews, Cherokee, Graham, Clay, Macon and Swain counties. J. T. Knight, engineer.
