

JWELED ACCESSORIES

They can no longer be called a matter of whim or fancy. Today's fashion demands definite accessories — for they play as important a part as the costume itself.

At present, innumerable bracelets are shown adorning the arms of models in any authoritative fashion magazine, with artificial pearls of sharply contrasting hues about the neck.

The extreme simplicity of fashion today requires that women take much care in choosing their accessories — for accessories can create an incalculable charm.

Make your selections where you are sure of the best and most fashionable.

"THE DYNAMO"

Published by the students of Edward Best High School

Control

The other day we happened to be at a certain place when two of the high school students came home. They didn't know we were there and we didn't make our presence known. As soon as one of the children entered the house she scolded the dog, spoke to her mother in a snappy tone, slammed three doors unnecessarily hard, and then began talking in a loud voice about the sorry teachers at school.

But the other child went quietly about her work, and did much more than her sister. She made no statements about the teachers, or school, or the hot weather. At school she was just as quiet as when at home. At school, too, her sister was quiet and not so talkative, but when she got home she said a lot of unnecessary and unpleasant things. One girl had control at school and at home, but the other had complete control only while at school.

Don't you think it would be a good idea for us to stop and think a while about which sister we really are like?

Home Economics Club Project

The project of the H. E. Club is fixing a rest room. Something of this kind has been long needed at our school because it was rather inconvenient to stretch anyone who had fainted out on one of the hard H. E. tables, not to speak of disturbing classes. We decided that if each member of the club would pay a nickel this would finance the problem.

The blue color scheme is being carried out. We have white curtains with blue borders. With a small amount of lumber we made a day bed. The bed spread is of cretonne. The sheets and mattress are of flour sacks, the mattress stuffed with paper cut and torn into shreds. Our hands have streaks and blisters now as result of the work.

We have finished a dressing table which was made of apple crates and covered the top and shelves with blue oil cloth. The table was surrounded with cretonne to match the curtains. On the shelves are stored various kinds of medicines. The foot stool is a cheese box covered with cretonne.

Our rest room is above the H. E. Lab. We hope that we will not make ourselves too frequent visitors or skip too many classes. The room is attractively decorated with gay, life-like, colored cretonne. The bed, mattress, dressing-table and foot stool are all hand made and much of it by H. E. Club members. My! girls, we're proud of it! Hurry and let's venture into something else, and be successful.

A Review Course in Algebra

Mr. Sledge came in the senior class room the first of school and announced that he had arranged for a review course in Algebra.

"This," he said, "was done in order that the ones who failed in the previous years might have a chance to earn the required units in Algebra."

Much interest was taken by those who failed and also by those who wanted extra units.

Tennis

"Look out, home run—gee, but that was pretty, did you see that cut she put on it?" etc., etc., can be heard when the girls play tennis. The ones who reported for tennis were: Elaine Sykes, Norine Sykes, Mildred Bunn, Ophelia Pearce, Christine Bowden, Thelma Gupton and Nell Stallings.

Saturday the 19th the girls played the first tournament game of the season against Louisburg at Franklinton. Players for E. B. H. S. were: singles—Nell Stallings; doubles—Elaine Sykes and Ophelia Pearce. Players for Mills High were Lucille Hudson, singles; Marie Parker and Marguerite Rouse, doubles. The scores for both were: singles 2-0 Louisburg; doubles, 2-0 Louisburg. Even though Louisburg did win they had to work exceedingly hard to get it. Our girls put up a tough fight and with a little more practice we'll get them yet. Won't we, team?

On Friday Sept. 18, E. B. H. S. boys played Franklinton with J. C. Bunn singles, Brad Strickland and Elmo Dean doubles. Again E. B. gave the opponent stiff competition but the practiced Franklinton team won out.

Juniors

The junior class met last week to reorganize for the coming year. The following officers were elected:

President—May Johnson, Vice-President—Otho Wilder, Secretary—Maude Hayes, Treasurer—Norine Sykes, Class Teacher—Miss Taylor.

The motto of the class is "We Will Conquer."

There are twenty-six enrolled in the class and all are striving for better education which can be proved by the way they work in the study halls as well as class rooms.

The junior boys are some ball players. They have played and whipped every grade in school in playground baseball. But don't get your nose too high in the air, juniors; because there are contests other than baseball.

Young Tar Heel Farmers

The Young Tar Heel Farmers of Edward Best High School have been studying dairy cattle for some time. There were five boys who went out for the judging team. Out of the five Mr. Litchfield, the Agriculture teacher, selected Newell Smith and Linwood Upchurch to represent the Agricultural department of this school at N. C. State College Saturday, Sept. 19.

From State College the boys went to Kildaire Dairy Farm at Cary. Fifteen minutes were allowed to judge each of two groups of cows. After all papers were handed in and graded by Mr. Coggin and Professor Ruffner it was found that Billy O'Brien of Lowe's Grove made 1st place and Linwood Upchurch of Edward Best second place. Those two are to go back to the state meeting Sept. 26. The winners there get a free trip to St. Louis to the National Judging contest.

Green Hands Initiated.

The members of the Edward Best Chapter of F. F. A. had a period of real fun last Friday. Ten eight grade boys were introduced into the club with the first degree of initiation. The boys will be given another degree later on. The boys initiated were as follows: Frank Bailey, Halie Griffin, Wallace Neal, Clarence Pearce, Marshall Smith, Ruffin Tharrington, Willard Vick, Ernest Wilder, James Henry and Wray Braswell.

Social Service Club

On Friday, September 11, a group of pupils met with Miss Gupton and re-organized the Social Service Club.

RELIEF

from Headaches, Colds and Sore Throat, Neuritis, Neuralgia

Don't be a chronic sufferer from headaches, or any other pain. There is hardly an ache or pain Bayer Aspirin tablets cannot relieve; and they are a great comfort to women who suffer periodically. They are always to be relied upon for breaking up colds.

It may be only a simple headache, or it may be neuralgia or neuritis. Rheumatism, Lumbago, Bayer Aspirin is still the sensible thing to take. Just be certain it's Bayer you're taking; it does not hurt the heart. Get the genuine tablets, in this familiar package.

SAFE
BEWARE OF IMITATIONS

The officers elected were as follows: President—Eunice Sykes, Vice-Pres.—Margaret Strickland, Secretary—Eula Mae Boone, Pianist—Ruth Moore, Chorister—Mrs. Sledge, Program committee—Myrtle Wheelless, Ruth Moore, and Annie Lee Nelms.

After the club was reorganized, we adjourned to meet again on Friday, September 18.

Miss May Belle Allen a graduate nurse of Park View Hospital was a visitor at E. B. H. S. on Monday.

Miss Leslie Bowden was a visitor at E. B. H. S. on Thursday. Class 8 was present 100 per cent on Thursday. Fine for them. Each seems to want to be promoted.

Agricultural Booth

Raleigh, N. C., Sept. 28.—All persons visiting the booth of the State Department of Agriculture at the State Fair, October 12-17, will be privileged to read their favorite newspaper. Papers from all parts of the State are received at the Department and they will be taken to the Fair Grounds daily and placed at the disposal of guests at the booth, who will be invited to register in

BUILD UP TO PREVENT PAINS

How a Missouri woman was benefited by taking Cardui is described below by Mrs. Joe Schumier, of Cape Girardeau: "I suffered with irregularity. For weeks at a time I was so weak I could not work. I had aches in my back and head and legs—I ached all over. I would get dizzy and feel faint. I had read about Cardui, so I got some and took it. I improved a great deal. After I had taken four bottles, I felt like a different person." 2-10

CARDUI

or for that they may receive, free of all costs, the Department's semi-monthly publication known as Agricultural Review.

Gas keeps automobiles going, and a lot of men, too.
