The Board of Town Commission The Board of Town Commission-ers met in regular monthly session, October 6, at 7:30 p. m. Upon roll call the following members were present: A. W. Person, W. E. White, R. W. Smithwick, W. J. Cooper, M. C. Murphy. Absent: F. H. Allen Mayor Joyner presided. Minutes of previous meetings were read and ap-proved proved.

The monthly reports of the Town Clerk, Tax Collector and Chief of Police were read and approved. Mr. C. A. Ragiand addressed the Board and claimed that he was cer-

tain that the Pavement Assessment charged against him had been paid. Dr. R. F. Yarborough informed

Board that he had received several complaints regarding objectionable odors, presumably from sewers. Mr. O. C. Hill advised the Board that he had flushed several sewers which had been complained of, and that

the situation had been corrected. James B. King, requested the Board to hold in abeyance the advertisement of the property of Mrs. J. W. King for delinquent Pavement Assessments, until the correctness of same could be established. Dr. A. D. Wilcox, President

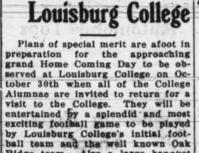

Louisburg College, implored the Board not to advertise Louisburg College for delinquent Paving As-sessments, due to the fact that the College is in a crippled condition fi-nancially at present, and is unable to pay the large sum of the Pavement Assessment. Dr. Wilcox stated that if given time the College could pay out of debt, but that sell, ing the Louisburg College for de-linquent Pavement Assessments at this time would be a fatal blow. Dr. Wilcox also requested the Board to give Louisburg College a better light rate than the present standard residential rates.

After thorough discussion and consideration of complaints in instances that Paving Assessments have been paid or are incorrect, the Board instructed the Tax Collector Hoover's Plan linquent Paving Assessments, thru the following motion:

"That the advertisement of delin-quent Street Pavement Assessments be deferred for thirty days, on account of so many complaints concerning the correctness of same, and that the Tax Collector insert a notice of this action in the Franklin Times, for the benefit of all tax payers who have complaints to submit to the Tax Committee fegarding their delinquent Pavement Assessments.

The Chief of Police was instruct-ed to collect \$100.00 privilege li-cense tax from the Raleigh Salvage Company, and that \$90.00 of this amount be refunded provided that they list and pay 1932 Town Taxes. Fire Chief J. S. Howell requested

the Board to purchase 500 feet fire hose, sufficient flexible hose for connecting the fire truck to the hydrants, and to install a hydrant at the Gulf Filling Station on S. Main Street, to which the fire truck can be connected. Mr. Howell empha-sized the need for a fire inspector to inspect and demand remedy of all fire hazards in the town.

Alumnae are invited to return for a visit to the College. They will be entertained by a splendid and most exciting football game to be played by Louisburg College's initial foot-ball team and the well known Oak Ridge team. Also a large banquet will be given for them in the even-ing after the game. Those of the Alumnae who wish to spend the night of the 30th at the College are linvited to do se. invited to do so.

Mr. Neal in discussing what he considered misleading influences in the County stated the school authoritles took the lead in telling the litthe fellow how a special tax would not affect him, when as a reality it would reflect in his rents and ability to obtain the assistance he needs. In connection with this and the method of foreclosing land for debts, Mr. Neal saw a condition wherein the big corporations largely owned or controlled by northern interests coming owners of a large portion the land in North Carolina and as a following influence they would bring about the mixing of the races, for instance, they would say "our children attend school with the ne-

Louisburg Tobacco Market Holding To Its Average In Spite of Low Grades-Far Ahead of Last Year.

Louisburg Tobacco Market has sold very much tobacco the week. The first three days past there were about 300,000 pounds offered. The prices remained about as those of last week. There are very many common black tips and common lugs being sold that keeps the average around ten cents. There is yet no

demand for low grade tips and lugs All domestic types of tobaccos are still in demand at good prices. It is expected that as soon as the common primings and common tips are sold the average will then be much higher. Very little local tobacco has been sold, as yet, as the farmers are busy picking cotton and saving feed. More farmers from a distance sell here than ever before. It will not be long before they will begin to have all day sales every day in the week and blocked sales. The mar-ket at present is far ahead of last
