VERY LATEST By Mary Marshall

Sweaters never go entirely out of fashion. And the reason for that is that they are so extremely adaptable. They began, you know, back in the 'eighties or nineties as a decidedly masculine garment. The originals were worn by study athletes to protect themselves from chill after strenuous effort, as the name implies. When women went in seriously for outdoor sports they adopted sweaters, which were rather clumsy affairs at best.

Gradually they were modified in one way or another to suit changing fashion and through all the changes and chances of fashions that have elapsed since the first introduction of sweaters they have managed to survive.

Now with the returning of truly feminine fashions they in turn have become more becoming and more picturesque than ever.

They reflect the new sleeve fashions showing melon-shaped fullness at the elbow or a pronounced puff between elbow and shoulder. Most of the new sweaters are made in pull-over fashion, though some of the waist-length or short hip-length models are made with crossover fronts that tie at one side.

A new idea is to have your sweater embellished with embroidered wool flowers. The sketch shows this fashion. The sweater is made with deep ribbed cuffs and hip band, full sleeves and side surplice closing. The large rose design is embroidered in wool on the left side. The new sweaters are made to fit fairly closely at hips and waist but they have considerable fullness through the shoulders and under the arms.

The fire alarm was sounded here yesterday afternoon about 3 o'clock causing right much excitement on account of the high winds. The trouble was soon found at the Green and Yarboro planing mill near the railroad and by the heroic work of our excellent fire department the fire was soon under control. The fire was in

the engine room and only a small damage was done.

November 4, 1921.

ARMISTICE DAY

There are times when all look for something solid upon which to base a renewal of faith in life—in men! We are passing through such a chaos. NOVEMBER 11TH is a day, set apart, in honor of the unselfish — loyal — devotion of men in a time of need. It is our sacred duty to honor the memories of our preservers. In our observance of this day may we acquire in our own hearts, some part of their valor — may they live again in our renewal of courage. While we vacillate — not knowing whence the trend of events may lead — let us remember there is but one road to travel — Forward! — Onward! — through that way alone lies Honor.
