Gold Sand P. T. A. Holds Meeting

The Parent-Teacher Association of the Gold Sand High School met at the high school building Monday at the high school building Monday night, September 12, 1932, for the first meeting of the year. The President, Mr. J. L. Foster, presided, Mrs. R. W. Gupton, the secretary, called the roll. The meeting was opened by singing America. The devotional was conducted by Rev. J. H. Harper. Mr. W. O. Reed, the Supt. of the school, was the speaker of the evening.

Mr. Reed spent his time explain-ing the effect that voting off the extended term would have on the school and community. He said that first, it would destroy the high school, and cripple the elementary school. Second, the people would get no help from the Tax Reduction Fund to help run the schools. Third, The district, under an agreement between the County Board of Education and the County Board of Commissioners, would have to bear the sole burden of paying the terest and installments on its debtedness. This would bring about an increase in taxes rather than a decrease, and at the same time have no accredited school.

After discussion, a resolution was passed by the Association to appoint a committee to get the facts before the people, because it is believed that if the people understand the facts they would not vote to cripple the school.

The Association was attended by a large number of interested pa-

THERE MAY BE A DIFFERENCE OF OPINION ON SOME SUBJECTS!

Some people believe this way and some people that way, but all will admit that selling an idea is usually more difficult than selling a commodity—and especially is it easier in selling the commodity, if advantage is taken of the modern, the economical and the quickest method. That method is in the use of advertising space in THE FRANKLIN TIMES. Whether you are a merchant or a citizen, when you want to buy or sell, trade or leas, rent or find a commodity, read and use the advertising columns and let people know of your needs or offerings.
