

BUNN SCHOOL NEWS

Willie Kay Bunn, Ed-in-Chief  
Myrtle Jackson, Faculty Advisor

"The Old Virginia Minstrel" will be given at Bunn Friday night, November the fourth at seven-thirty. Some of the main characters are: Mr. O'Quinn playing the part of Mr. Smith, Jack Dodd, Mr. Deaves; Leslie Cooke, Mr. Flint; M. L. Hag-

wood, Mr. Avery. There are many good looking negro women in the cast. If you like good singing and dancing, come and see the chorus girls. Every body is invited to our minstrel.

Lyndelle Mullen.

Chapel Program

On Monday morning of this week we were fortunate enough to have Rev. A. L. Thompson speak to us during the chapel period.

He took his scripture from the 13th chapter of 1st Cor. giving us some very good points as to how love should effect our daily lives. He pointed out clearly that it was absolutely essential to love what ever work or party one represents. Unless boys and girls love honesty, truth, loyalty, and honor they will not succeed. He pointed out in his conclusion how love for one's school would help any school reach the highest goal obtainable. We were glad to have these remarks from Mr. Thompson and we extend to him a hearty invitation to be with us again any time he sees fit.

Report From Science Department

The Biology class of 1932-33 of the Bunn High School are making several mounts at present. The class has already made several bird mounts. They are going to make some insect mounts. The students have already brought some crayfish.

The Biology class went on a field trip, October the twenty-fourth. The purpose of this trip was to make a collection of leaves. Miss Sherwin has asked the students to make a collection of twenty-five leaves. She has also offered a grade of A to the person who makes a collection of ten more than the required number. On our field trip we secured a collection of leaves, numbering a few over twenty-five.

The cooperation of the students in their class work is to be highly commended. On laboratory days the students have been well supplied with the necessary insects or whatever they were asked to bring.

Indoor Baseball

The Bunn High School Boys Indoor Baseball Team met the Gold Sand Team at Youngsville on Thursday, Oct. 20. The game was hard fought, and the teams were well matched, but the Bunn boys won by a score of 12 to 8, thus winning the County Championship for 1932. It was under the splendid coaching of Mr. O'Quinn that we were able to win and we sincerely hope he will be with us to act as coach again next year.

The grades in high school have already played for the high school championship and the result was as follows: Juniors, 1st place; Sophomores, 2nd place; Freshmen, 3rd place; Seniors, 4th place.

All the teams were well matched and the spectators enjoyed the games very much.

Horace Mullen, Sports Editor.

The Busy Bee Club News

The Busy Bee Club met in the Home Economics room Friday afternoon, October 28, 1932. The club has been divided into two sections under the leadership of Mary V. Williams and Gladys Harris. The group under the leadership of Gladys Harris gave a program Friday which was as follows:

- Bible Story—Vivian Young.
- Prayer—Miss Johnson.
- Club Song—by the Club.
- Jokes—Mary Hinnant.
- Song—Eureta Brantley.
- Poem—Margaret Brantley.

The program was very interesting and was enjoyed very much.

P. T. A.

The P. T. A. met on Thursday night, October 27. The teachers announced the grade mothers for the year. Afterwards Mrs. Cheves, the President, gave an interesting and worth-while report on the District P. T. A. meeting and discussed plans of the Association for the coming year.

A group of first grade pupils gave a very amusing program on "Mother Goose Rhymes."

A very interesting and helpful talk was given by Supt. E. L. Best of Louisburg. He chose as his subject one of the cardinal principles "Health." Before entering upon his subject Mr. Best reviewed the entire group of the cardinal principles which proved to be a great help to the P. T. A., since these principles are to be one of the studies of the Association this year. Mr. Best brought out so many interesting points that it will be useless to try to give them as they were presented to us; however, among the many thoughts, Mr. Best emphasized the results of what the teachers and health officers have done in Franklin County and other Counties to promote the health of children and the benefits derived from correcting many evils that sap out the life and impair the learning capacity of the child. We cannot begin to thank Mr. Best, or put into words the benefits derived from his talk.

A brief of the negro minstrel was given as an advertisement. After the P. T. A. adjourned, the members and visitors were invited into the Home Economics room where they were served delicious refreshments.

A number of ball teams have quit claiming this year's pennant and have begun claiming next year's.

BLADDER TROUBLE

If your bladder is irritated, either because your urine is too acid or because inflammation is present, just try Gold Medal Haarem Oil Capsules. This fine, old preparation has been used for this purpose for 287 years. That its popularity continues is the best proof that it works. But be sure you get GOLD MEDAL. Accept no substitutes. 55c & 75c.

Ed-in-chief—Beatrice Barham.  
Associate Editors—Helena Hill,  
Mattie Gray Rogers, Clara Holden, Edna Young, Turner Winston.

Scholarship Society

The Program for the Scholarship Society on Friday, October 28, 1932 was very interesting to its members. It consisted of four parts:

1. Origin of Hallowe'en—Edna Young.
2. Tan O' Shantern—Mr. E. T. Parham.
3. Little Orphan Annie—Beatrice Barham.
4. Hallowe'en Games—Conducted by Mr. Parham.

For this occasion Mr. Parham had the library darkened and decorated with jack-o-lanterns and candles.

Just at the close of the program the goblin came in. Then the candles were blown out and the lights turned on, so the members could see how to bob apples.

Helen Roberts, Reporter.

Science Club

The Science Club of Youngville High School met at the usual hour on Friday, October 28, 1932. The program presented was as follows:

What makes Water Flow—By Wilbur Hill.

Discuss the Distribution of Mineral and the causes of Distribution of Mineral—by Melvin Bridges.

The Life of the Bees—by Franklin Tingen.

Cross Questions and Crooked Answers—by Johnnie Perry and Alex Bailey.

The program was enjoyed by all. The most interesting talk was given by Franklin Tingen about the Life of the Bees. He did some work getting up his talk. We hope this will inspire others to do the same.

Glee Club

The Glee Club met at its meeting place, at its usual time. The club was called to order and we sang a number of songs, then a special quartet was rendered by Einora Pearce, Miriam Mitchell, Clara and Josephine Holden. Our director, Miss Whitfield, divided the club into two groups for a contest. This seemed to better our singing spirit and we sang a number of other songs. We adjourned with the determination to accomplish more next time.

The club members have been working faithfully since the club has been organized, especially our boys. From now on we are planning to have special programs prepared which will be a great benefit to the club.

Clara Holden.

The What-Not Club

The What-Not Club met at the usual hour on last Friday with all officers in place. The program was in the hands of group No. 1. Helen Frazier was in charge of the group, which presented a musical program.

Boys' Athletics

The boys are all out looking for Basket Ball suits, finding old balls and using blow-out patches to mend them.

We will soon be ready to start practicing as we have a new team this year. We feel sure these boys will be a success under their coach Mr. W. F. Mitchell.

These boys have pep and their aim is to win a rep. before the Basket Ball season closes.

P. T. A.

The P. T. A. sponsored a most delightful evening of fun and pleasure on Friday, Oct. 28. From six until eight-thirty an oyster supper was served, at the close of which a regular Hallowe'en party was carried out.

The children in costume paraded the stage for the benefit of the judges, who were to decide on the most appropriate costume. Mary Clarence Jeffreys proved the winner of this contest.

Then, followed a number of stunts in which those in costume again competed for prizes. Mary Frances Weathers was awarded the prize for being the first to root a peanut across the stage, and William Ray Pearce, the first to eat his apple from a string.

Estelle Tally and Rachel Carter entertained the audience with some special selections in song.

The appetizing chocolate cake was sold by chances for the lucky number. Mrs. J. L. Brown struck luck here with number 76.

The last and most exciting event of the evening was the closing up of the baby contest. Interest ran high and hearts beat fast with hope on the part of each individual to see his favorite baby win. Many names were on the list and these names with their score of votes were read three different times at short intervals just before the close. On the last go-round Miss Mary Charlie Patterson, who is considered most perfect in beauty and charm, headed the list. She is the daughter of Mr. and Mrs. E. H. Patterson. Miss Marlene Williams, attractive little daughter of Mr. and Mrs. Leonard Williams came second.

The gratifying little sum realized from the various stunts goes for the benefit of the school through the P. T. A.

E. B. Bell and J. M. Foscoe of Jones County sold 13,000 pounds of fat beef steers at 3 1/2 cents a pound f. o. b. their farms last week. The buyer stated the animals were of the finest quality he had ever seen in eastern North Carolina.

Diet Didn't Do This!

HAPPY little girl, just bursting with pep, and she has never tasted a "tonic!"

Every child's stomach, liver, and bowels need stimulating at times, but give children something you know all about.

Follow the advice of that famous family physician who gave the world Syrup Pepsin. Stimulate the body's vital organs. Dr. Caldwell's prescription of pure pepsin, active senna, and fresh herbs is a mild stimulant that keeps the system from getting sluggish.

If your youngsters don't do well at school, don't play as hard or eat as well as other children do, begin this evening with Dr. Caldwell's

Syrup Pepsin. This gentle stimulant will soon right things! The bowels will move with better regularity and thoroughness. There won't be so many sick spells or colds. You'll find it just as wonderful for adults, too, in larger spoonfuls!

Get some Syrup Pepsin; protect your household from those bilious days, frequent headaches, and that sluggish state of half-health that means the bowels need stimulating. Keep this preparation in the home to use instead of harsh cathartics that cause chronic constipation if taken too often. You can always get Dr. Caldwell's Syrup Pepsin at any drug store; they have it all ready in big bottles.

GOOD MATERIALS

Quality Materials Cost Less In the Long Run

Regardless of workmanship, fine and thorough as it can be, it is false economy to act in the belief that inferior materials and supplies will build a home of quality. It costs no more (and sometimes less) for labor to use good materials, and good materials add years of life to a home or building. Our prices for guaranteed products are no higher than prices you will pay for inferior materials. Let us quote them and tell you of our plan—with no obligation to you.
